

Web Applications Developer

The State Universities Retirement System (SURS) is one of the five state-funded retirement plans that provide retirement, survivor, death and disability benefits on behalf of more than 227,000 members from 61 employers in Illinois, including state universities, community colleges and state agencies. SURS administers benefits and oversees a large, investment program with assets approximating \$19.5 billion as of March 31, 2017.

SURS is an outstanding, progressive workplace with a caring and friendly staff. We offer excellent benefits, an attractive worksite and designated on-site parking. We pride ourselves on providing quality service to our members and stakeholders.

Main Duties

- Investigating and supporting web application software
- Performing analysis and design of solutions in response to requirements or new business needs
- Fulfilling project management responsibilities for assigned projects
- Programming, testing and implementation of web applications
- Organizational interaction and project responsibility

Additional desirable credentials

- Good written and verbal communication skills
- Programming skills: MS Visual Studio, .net, asp, MVC, JSON, CSS, HTML, JavaScript, MS SQL Server database structures, SQL, and SQL tools
- Degree from accredited college in Information Technology, IT Management or a closely related field
- Knowledge and experience in development of automated computer systems
- Web development skills: analysis, design, programming, testing and implementation

Apply for this Position

Applicants should submit a completed [SURS application](http://www.surs.org/jobs/041117/web-applications-developer) (<http://www.surs.org/jobs/041117/web-applications-developer>), current resume and a dated cover letter to Humanresources@surs.org. This position is subject to a background check as terms of hire.

SURS is an Equal Opportunity Employer.
