

Tutoring Services

Tutoring is considered a personal service and is not mandated by law as a reasonable accommodation for students with disabilities at the college level. Students in need of subject matter tutoring are referred to the Center for Academic Success (CAS) in D-120. Parkland College offers tutoring services in various subjects to all students on a walk-in basis. In addition, the Academic Development Lab within CAS contains specialized computer software which provides students the opportunity to improve their reading, writing, and math skills and is staffed with two learning specialists who work with students one-on-one.
