

Volo Broadband and Champaign Computer Intern Opportunity

We're looking for an intern for Champaign Computer (which we acquired last year) and Volo.

We're flexible on number of hours per week, but the office is open 8:30-5:30pm. They'd be expected to have an aptitude for PC repair and/or interest in networking, the higher level interest the better, and presumably they would be currently enrolled or have completed CSC130 and/or CSC133, or have equivalent experience.

If interested, please contact Peter Folk, CEO - Volo Broadband
Cell 217 721-3893 - Office 217 367-8656 - <http://volo.net>
