# a new home in real estate

## *A Lifelong Passion Becomes A New Career For Amelia Zachary*

“I’ve always loved helping people, but I really wanted to gain a feeling of fulfillment,” says Amelia Zachary. After seven years of working in customer service, she was ready for a change. “I looked around, and it just clicked. Real estate has been a consistent theme in my life, and I finally realized that it’s the industry I need to be in.”

Growing up with family in the construction industry, Amelia had an interest in new houses from a very young age. “I remember going to the grocery store as a kid, and I’d always grab a real estate booklet and just look at all the different homes listed in it. I loved it.”

Once she set her goal, Amelia sought advice from industry professionals on how to kick off her new career. “I asked a few people in the Keller Williams office where I should go, and they recommended Parkland’s Pre-Licensing classes. I had taken classes at Parkland before, and it’s a great school, so I went for it.”

“I really liked getting an education from working real estate professionals,” Amelia says of Broker’s

Pre-License Topics with Ginger Campbell and Broker’s Pre-License Principles with William Todd Salen. “Being there in-person with them was super beneficial for me. It made it easier to ask questions and have conversations about what it looks like to be a part of this industry every day.”

She also found that in addition to the class material, the in-person connections can be very valuable in the real estate industry. “Make friends with your classmates, make time to bounce ideas and questions off each other. Talking to people and making those new connections can really help you see things from a different angle, which will make you better at serving your community in the long run.”

Amelia now works as a Sales Partner at Keller Williams in Champaign and continues to gain more knowledge in her new field. “From the first day of class to now, I still learn something new every day. I plan to never stop learning so I can provide the best service to our community and become your go-to realtor.”

### **INSTRUCTOR SPOTLIGHT** Ginger Campbell

Ginger Campbell is a practicing Real Estate Managing Broker with Keller Williams Realty in the Champaign/Urbana area and a real estate investor. Over the years, Ginger earned the Accredited Buyer Representation and Graduate REALTOR Institute designations. She became a licensed instructor in 2019 and currently teaches real estate pre-license, post-license, and continuing education classes. Ginger is passionate about helping others develop the potential inside themselves, and she brings a high level of energy to the classroom. She is currently the chairperson of the Champaign County Association of REALTORS Equal Opportunity and Inclusion group, and her vision is to have a profession as diverse as our community. She encourages everyone to consider real estate as a viable career choice.

### Orienteering for Families, ages 10–13

Ready, set, go! Explore the great outdoors and discover the fun of orienteering. Instructor Matt Plutz, a member of the Illinois River Valley Orienteering Club (IRVOC) and the United States Adventure Racing Association (USARA), will teach your family basic orienteering skills and guide you through this adventure. Using only a map and compass, your family will be challenged as you decide the best route to locate checkpoints along a course, learn to gauge distances with accuracy, and explore the local topography.

*All equipment provided, including compasses. This class is intended for families with children ages 10 to 13. Each registered adult may bring up to two children. Class meets at Lake of the Woods Forest Preserve. Transportation is not provided.*

## Online STEAM Camps

The magic in every student comes to life as never before when they are empowered to be as creative as they were all born to be! Black Rocket has over 20 years of experience designing courses in the STEAM fields. Every program is powered by the child's innate imagination and designed to bring their ideas to life in a fun, hands-on learning environment. All Black Rocket programs mirror real-life experiences and the collaborative nature of the design process. Online classes provide a more independent experience but with an emphasis on peer-to-peer feedback to enhance the creative process.

*Compatible with Mac and Windows OS only. For more information, go to [blackrocket.com/online-tech-specs](http://blackrocket.com/online-tech-specs).*

### Class Cancellation

To receive a refund, you must cancel at least one week prior to camp start.

### Scholarships

Scholarships are available for those who qualify for reduced tuition. Please print the scholarship form from [parkland.edu/youth](http://parkland.edu/youth), or email [communityeducation@parkland.edu](mailto:communityeducation@parkland.edu) for more information. Online registration is not available for scholarship applicants. Only one scholarship for one class will be awarded per student. Refunds will not be provided for classes awarded by scholarship. Community Education gratefully acknowledges financial support for scholarships from the Parkland College Foundation and others.

**new** **AI Adventures: Intro to Machine Learning**

Explore the world of artificial intelligence (AI) to design fully interactive games and experiences using cutting-edge technology. This program combines artificial intelligence with coding to create an unforgettable learning adventure. You will construct machine learning models that use image and text recognition within block-based coding software to build a portfolio of projects. Student-created projects will be available on a password-protected Black Rocket website to share with friends and family. You will work in pairs or teams for most of the program.

**Ages 8–11**

**Code Breakers**

Calling all future coders, programmers, and designers! Learn the basics of coding languages like HTML, JavaScript, and CSS through a series of web projects and design challenges each day and be on your way to becoming the next tech star! Whether you want to be a Silicon Valley CEO or a high school student who just made \$1 million for programming in her bedroom, this course has the essentials for starting your journey. Projects will be available on a Black Rocket website to share with friends and family. If you are returning, create more advanced projects that build on previous years. You will work in pairs or teams for most of the program.

## adventure & discovery

### **new** Ag Survivor, ages 7–10

You're stranded in Illinois on your journey to paradise, and you must survive challenges in food production, animal care, and weather prediction to get there. You'll grow your own food, learn the biosecurity of animals and how poop is made, keep plants and flowers alive with pollination, and develop severe-weather experiments. A winner for each challenge will be recognized, along with a smoothie party to celebrate surviving. May you all survive being stranded in Illinois!

*Allergy alert.*

6/17–6/27 Mon–Thu 3–5 PM Class ID: 16753  
Deadline: 6/3 \$189

### **new** Body Biology, ages 11–13

Would you like to understand how your body works? Have you wondered how you have the energy to play your favorite sports or how you can react so quickly while playing video games? Explore our body systems, learning how they keep us safe, energized, thinking, and growing. Hands-on activities will help you learn about the functions of each of the body systems, including a few dissections. Learn how our bodies work while we jump into human physiology!

*Closed-toe shoes required.*

6/17–6/27 Mon–Thu 3–5 PM Class ID: 16377  
Deadline: 6/3 \$189

### Checkmate! Learn to Play Chess

Get ready to capture your opponent's king or queen in an exciting game of chess, one of the world's most popular strategy games. As a beginner, you'll learn opening principles, basic checkmates, how the pieces move, and how to notate a chess game. Play against friends and watch your confidence and problem-solving skills grow. Each day includes practice time and resources to use outside of class.

*All equipment provided.*

#### **Ages 6–9**

6/17–6/27 Mon–Thu 3–5 PM Class ID: 16095  
Deadline: 6/3 \$189

#### **Ages 10–13**

7/8–7/18 Mon–Thu 3–5 PM Class ID: 16097  
Deadline: 6/24 \$189

### Chemistry Matters, ages 11–13

Warning: This is not your average science class! Get ready for a fast-paced class with daily hands-on experiments that lead you to discover why chemistry matters. Explore what makes a chemical element and why and how reactions occur. Using your newfound power of scientific observation, you'll conduct various experiments in chromatography, polymers, flame testing, and the chemical structure of water. This class emphasizes lab safety. All experiments will be conducted under the adult supervision of the instructor and classroom assistant.

*Closed-toe shoes required.*

6/17–6/27 Mon–Thu 12:45–2:45 PM Class ID: 16124  
Deadline: 6/3 \$189

### **new** Karate, ages 11–13

Get a taste of the fundamentals of karate from 25-year veteran martial artist Ryan Rocha. Ryan holds four black belts and state champion awards. You'll learn essential strikes, blocks, and key exercises to improve your power and timing. More importantly, you'll also learn how to be more confident in your daily life through self-exploration.

*Wear comfortable clothing and bring a water bottle.*

6/17–6/27 Mon–Thu 3–5 PM Class ID: 16756  
Deadline: 6/3 \$189  
7/8–7/18 Mon–Thu 3–5 PM Class ID: 16757  
Deadline: 6/24 \$189

## Kids in the Kitchen, ages 7–10

Do you dream of becoming a world-class chef? Or would you like to learn how to use something in the kitchen other than the microwave? Join this CFK favorite and discover how math, science, and art all play a role in cooking! Master basic cooking skills, perfect the precision of baking, and gain an understanding of kitchen and food safety skills. A variety of dishes will be prepared, including a few CFK traditions.

*Allergy alert. Bring a 3-cup lidded container each day.*

6/17–6/27	Mon–Thu 12:45–2:45 PM	Class ID: 16080
Deadline: 6/3	\$189	
7/8–7/18	Mon–Thu 12:45–2:45 PM	Class ID: 16083
Deadline: 6/24	\$189	

## Master Chef, ages 10–13

Do you prefer watching cooking shows over cartoons? Do you find yourself feeding others and preparing a new dish in the kitchen in your free time? Join us and put your culinary skills to the test! You should already understand basic measurement techniques, basic knife skills, and basic cooking techniques. You'll be preparing more advanced recipes that will require you to work at a faster pace than those in Kids in the Kitchen, so you should be familiar with how to read a recipe. We recommend that you have completed Kids in the Kitchen or another culinary class before enrollment.

*Allergy alert. Bring a 3-cup lidded container each day.*

6/17–6/27	Mon–Thu 3–5 PM	Class ID: 16114
Deadline: 6/3	\$189	
7/8–7/18	Mon–Thu 3–5 PM	Class ID: 16115
Deadline: 6/24	\$189	

## Pawsitively Pets, ages 10–13

Are you looking for ways to show your family that you will be a responsible pet owner or caregiver? Become an expert in understanding your pet's daily needs and keeping your pet healthy. Observe and interact with animal ambassadors from the Champaign County Humane Society so you'll understand pets' body language and emotions.

*Allergy alert: interaction with animals and pet dander.*

6/17–6/27	Mon–Thu 12:45–2:45 PM	Class ID: 16084
Deadline: 6/3	\$189	
7/8–7/18	Mon–Thu 12:45–2:45 PM	Class ID: 16085
Deadline: 6/24	\$189	

## Messy Scientists

It's time to get messy and have fun exploring the world of science! You will investigate the properties of science through wacky experiments. Explore chemistry by making dancing pasta and jelly volcanoes. Learn about the properties of water by designing an aqua filter. Investigate how molecules work by making elephant toothpaste. Prepare to make a mess and discover how the world around us works.

*Bring a smock or an old T-shirt to get messy! If possible, bring a small glass jar with lid, an empty 16-ounce soda bottle, an empty 2-liter soda bottle, and an empty paper towel roll.*

### Ages 6–9

6/17–6/27	Mon–Thu 3–5 PM	Class ID: 16099
Deadline: 6/3	\$189	
7/8–7/18	Mon–Thu 12:45–2:45 PM	Class ID: 16102
Deadline: 6/24	\$189	

### Ages 9–11

6/17–6/27	Mon–Thu 12:45–2:45 PM	Class ID: 16101

## build & compute

### **new** Build It From Scratch! ages 8–10

Explore your creativity and let your ideas flourish in MIT's block-based programming environment, Scratch. From storytelling to animation to your own artistic design, you will have the opportunity to learn the fundamental concepts of writing code that bring your visions to life. The ready-to-use click, drag, and drop features of Scratch programming make coding feel more like putting together a colorful puzzle. Will the result be an interactive game or will it be an artistic masterpiece? It's up to you!

6/17–6/27 Mon–Thu 12:45–2:45 PM Class ID: 16378  
Deadline: 6/3 \$189

### Creative Coding: Games, Storytelling, and Simulations

Using Microsoft's MakeCode Arcade and MIT's Scratch, you'll use these free online coding systems to create various interactive programs. These platforms use Blockly code, colorful connectible shapes that snap together and represent common programming statements and flows. With a click of a button, the system allows you to view the actual Python code that the blocks represent. Design and construct a variety of creations, including games, interactive stories, and even simulations, using your imagination and new coding skills.

#### Ages 8–10

6/17–6/27 Mon–Thu 12:45–2:45 PM Class ID: 16121  
Deadline: 6/3 \$189

#### Ages 11–13

6/17–6/27 Mon–Thu 3–5 PM Class ID: 16122  
Deadline: 6/3 \$189

### Ctrl-Z Robotics Camp, ages 7–10

Do you love science, technology, math, and engineering—better known as STEM? Do you like to know how things work? Join us for an engaging hands-on experience to learn about coding, designing robots, completing challenges, troubleshooting, and more! Activities will include egg drop, marshmallow bridge, and small-group build sessions using EV3 and SPIKE Prime Lego robotics kits. Led by our hometown world champion FIRST robotics team Ctrl-Z 4096!

*All equipment is provided.*

6/17–6/27 Mon–Thu 12:45–2:45 PM Class ID: 16396  
Deadline: 6/3 \$189

7/8–7/18 Mon–Thu 12:45–2:45 PM Class ID: 16397  
Deadline: 6/24 \$189

### **new** Discover Programming: Is It an Art or Science? ages 10–13

Discover the art of programming through a variety of contexts. Using the Hour of Code curriculum from code.org, you will have the opportunity to engage in writing block-based programs to solve puzzles with themes like Star Wars, recreate the popular game Flappy Bird, generate dazzling geometric artwork, and model biological ecosystems. In all contexts, you will uncover the fundamental concepts of writing code while crafting your knowledge set to prepare for future coding endeavors.

*Bring email address on first day to create code.org account.*

6/17–6/27 Mon–Thu 3–5 PM Class ID: 16379  
Deadline: 6/3 \$189

### Incredible Apps

Create powerful apps for iOS using Thinkable, a block-based coding language. Design an app from beginning to end, screen by screen. Add design elements such as buttons, text, and images to create a fully functional app for a mobile device. Perfect for the beginner; no experience needed.

#### Ages 8–10

6/17–6/27 Mon–Thu 3–5 PM Class ID: 16126  
Deadline: 6/3 \$189

#### Ages 11–13

7/8–7/18 Mon–Thu 12:45–2:45 PM Class ID: 16127  
Deadline: 6/24 \$189

### Minecraft: Architects and Engineers

Develop your cultural, historical, and geographical knowledge and skills in electronics and invention. Design and build a connected network of small villages styled with internationally inspired buildings such as Japanese pagodas, French chateaus, and Islamic courtyards and gardens. Next, populate the spaces with regionally specific plants, animals, and other geographic features. Finally, use Redstone dust and devices to create automated doors, lighting effects, transportation systems, and other machine-like creations.

#### Ages 8–10

7/8–7/18 Mon–Thu 12:45–2:45 PM Class ID: 16119  
Deadline: 6/24 \$189

#### Ages 11–13

7/8–7/18 Mon–Thu 3–5 PM Class ID: 16120  
Deadline: 6/24 \$189

## design & create

### **new** 3D Needle Felt Art, ages 10–13

Did you know that you can create art using wool? Needle felting uses a hooked needle and various types of wool to create a 3-dimensional piece of art. The needle creates knots and binds the wool into whatever creation you'd like. Starting with basic forms and building upon them, you'll create an amazing piece of art. If you love art, you won't want to miss this opportunity to learn a unique artistic skill.

*All supplies are included.*

7/8–7/18 Mon–Thu 12:45–2:45 PM Class ID: 16376  
Deadline: 6/24 \$189

### Adventures With Paper, ages 8–13

## CFK registration information

### Registration deadlines

Monday, June 3, for classes offered June 17–June 27

Monday, June 24, for classes offered July 8–18

### Registration Tips

Improve your chances of enrolling your child in their favorite classes by registering them online and early.

Please enroll your child in age-appropriate classes. All students must meet the required age by the class start date.

The cost is \$189 per class, unless otherwise noted. Confirmation will be emailed once your registration is complete.

### Class Cancellation

To receive a refund, you must cancel by June 3 for the June session or June 24 for the July session.

College for Kids reserves the right to cancel any class not meeting the minimum enrollment. Cancellations will be made the day after the registration deadline. In the event of a cancellation, we will attempt to place your child into an available class with your permission.

### Safety and Security

To maintain high standards of safety, College for Kids requires all students to have a Parkland College photo taken on the first day of class.

Staff will provide supervision during and between class times for all College for Kids students.

If your child has any special needs and/or allergies, be sure to indicate these at the time of registration.

### Reduced Tuition

Reduced tuition is available for students who receive free or reduced-cost lunch at school. For those who qualify, the cost is reduced by \$30 per class. Proof of eligibility for free or reduced-cost lunch is required; you may request documentation from your child's school. Documentation must be provided within one week of registration or the child will be dropped from the class.

To register and receive the reduced tuition, please use our online registration system. When checking out, enter the code **LUNCH**. Select **APPLY CLASS CODE** and the price will be automatically adjusted. Continue by selecting **CHECKOUT**.

### Scholarships

Scholarships are available for those who qualify for reduced tuition. Please print the scholarship form from [parkland.edu/youth](http://parkland.edu/youth), or email [communityeducation@parkland.edu](mailto:communityeducation@parkland.edu) for more information. Online registration is not available for scholarship applicants. Only one scholarship for one class will be awarded per student. Refunds will not be provided for classes awarded by scholarship. Community Education gratefully acknowledges financial support for scholarships from the Parkland College Foundation and others.

### Drop-Off and Pick-Up

### **new** Kitchen Magic

The kitchen is often considered the heart of the home. It's where we prepare our food and a place we gather to share it. But with our busy schedules, many of us have gotten away from cooking and the magic it can bring. In folklore and folk traditions, not only do teas, herbs, and meal preparation techniques nourish our bodies, but some say they have medicinal properties as well. Explore the stories and practices associated with everyday herbs and cooking techniques, and think about ways to bring some of the rituals and intentions back into your meals. You'll also have the chance to create your own herbal blends and take home a few samples.

## Barn Quilt Painting

No barn? No problem! Join the barn quilt movement by creating your own painted quilt block for beautiful décor you can use on the inside or outside of your home. A variety of colors will be available to choose from at the start of class. You'll begin with a pre-primed board and move through each step—drafting, taping, and painting—with careful attention to detail. Once the painting begins, you'll work at your own pace.

Instructor Jane Cade will discuss how to properly seal your finished piece after the paint has dried for 48 hours. Leave with a 20-by-20-inch quilt block to keep for yourself or share your talents and give someone the perfect gift!

Several paint color palettes will be available to choose from. Paint is \$2 per color. Typically, four colors are needed. Cash or credit card payment will need to be made to instructor at the start of class. Bring a 12-inch ruler or yardstick and hairdryer.

## Real Estate Investing

Have you heard the saying “Buy low, sell high”? News stories about the softening real estate market might scare away novice investors, but experienced investors recognize weak markets as opportunities to pick up bargains. In many areas, now is the time to buy before prices start climbing again. Learn how to make money in any area, in good times and bad, even if you have little money to start with. Real Estate Investing includes specially designed worksheets and hands-on activities to take the guesswork out of your investing efforts. Start developing a plan for your own investing efforts based on proven methods used every day by full-time professional real estate investors. You will learn how to invest in foreclosures, manage a rehab project, and build your team of real estate professionals (title officers, lawyers, accountants, mortgage brokers, appraisers, and more). This course also explores the effects of higher interest rates and covers alternative strategies for a changing market. By the end of the course, you will be working toward your first (or next) deal.

*“This class is excellent. I'm so glad I took it. Josh presents his information in entertaining and organized steps that even a newbie such as me found interesting and understandable. His training includes hands-on exercises that help build a solid foundation for real estate investing. I am recommending it to friends and members of my family. I will take any other class from Josh.” —ed2go student*

## **new** I & M Canal: Now and Then Tour

Compare water travel in 1848 with that of today. First you'll take a trip on the I & M Canal boat, a replica of an 1840s mule-powered packet boat. After your voyage, enjoy the hearty boat captain's lunch, catered and served in the I & M Canal Visitor Center (vegetarian and gluten-free options are available on request). Then, you'll take a trip to the Starved Rock locks and see how it accommodates the barges of today. A guide will join you on your 15-minute trip between the two sites. The Illinois Waterway Visitor Center offers a look at 20th- and 21st-century water travel and is a great place to view Starved Rock without all the traffic.

*Lunch included. Menu: Southern fried chicken, Caesar salad, mashed potatoes with gravy, brownie. No refunds after 8/21. If mobility/accessibility is an issue for you, please contact our office with any questions before registering.*

## Introduction to Orienteering

Learn to find your way to various checkpoints with the aid of a map and compass. Orienteering truly is a sport for everyone. Some courses are on paved paths, and some are on more rugged terrain, all the way to bush-whacking courses. Learning to read a map with a compass is also a fun skill to learn. You'll join instructor Matt Plutz in the classroom for some basic introductions to map and compass reading. Then you'll have a chance to practice your newly acquired skills on a field course at Lake of the Woods in Mahomet, Illinois.

*Activity level: Plan to walk 3 to 4 miles for the field portion of the class. Much of this will be on uneven ground. To best prepare, wear comfortable shoes and pants because you may walk through some areas of tall grass or brush. Bring a water bottle.*

## **new** Croatia: Castles and Mediterranean Climate Attract Tourists

Join us on adventures near and far as our presentations give you unique perspectives of travelers' experiences. Croatia and Slovenia declared independence from Yugoslavia in 1991. The remaining four republics followed, and Yugoslavia disappeared into history. Visit Croatia's fairy-tale castles and medieval forts. Scenes from Game of Thrones were filmed in Croatia. Croatia is known for its black truffles and white truffles harvested with the help of trained dogs or pigs. Brijuni is an island group that is a national park known for its Mediterranean climate. The climate and location attracted successive conquering groups throughout the ages. Walk through the remains of a Roman villa or snorkel the Brijuni Underwater Educational Trail and see Roman ruins among the myriads of fish. Diocletian's well-preserved palace in southern Croatia is the size of a fortress. It expanded to become the city of Split, Croatia.

*"Refreshments were fun. The instructor was cheerful and enthusiastic. I could've listened to her longer. She put a personal touch on the tour."*

### Keyboarding

If you want to learn touch-typing or improve your existing typing skills, this is the perfect course for you! In these lessons, you'll use the Keyboarding Pro 5 program, a typing tutorial designed for personal computers, to learn how to touch-type—that is, to type text you read from a printed page or a computer screen without looking at your keyboard.

With the skills you master here, you'll become faster and more confident at the keyboard. By the end of the course, you'll know how to touch-type the alphabetic, numeric, and symbol keys; create, save, and edit word processing documents; and succeed at a timed writing test during a job interview.

*"This course was perfect! I can finally type! Being proficient at typing will enable me to take more advanced computer courses. I have been handicapped by my poor typing abilities until now. Thank you very much for providing such a useful tool." —ed2go student*

### **new** A to Z Grant Writing

A to Z Grant Writing will take you through the planning process for documenting the need for funding in a Theory of Change Grant Project Planning Worksheet. Beginning with writing about what will be implemented (your vision for change and impact) when the project is funded, the worksheet begins to come to life. Exploring why funding is needed is the beginning of articulating the statement of need. You will learn how to document your projection of how, when funded, your project will initiate change. Once you've created the project's goals, the worksheet asks for inputs or resources (mirroring a logic model's format). Your thought processes and imagination will be tested in the implementation activities and timeline section. You'll also have a chance to develop outputs and outcomes for the planned project. Finally, you'll learn how to develop a project budget. Where does all this lead? Every lesson is one step closer to having 100% of the information you'll need to write a highly competitive grant proposal. Additional features include six teachable moments videos and six branching scenarios in which you choose your own adventure to fuel your creative thinking processes.

## Construction Skills to Build a Better World

The Highway Construction Careers Training Program (HCCTP) is a job training program that explores a variety of skilled construction trades. Access high-paying construction jobs with health care and retirement benefits. Imagine yourself behind the powerful machinery that builds infrastructure. Imagine wiring resilient electrical grids. Imagine building a better future. The HCCTP is dedicated to building a diverse workforce. Women and people of color are highly encouraged to apply. Training consists of intensive 12- to 16-week programs that empower you with skills you need to enter the construction industry's Earn While You Learn apprenticeships.

This pre-apprenticeship program covers these areas:

- Math for the trades
- First aid and CPR certifications
- Job readiness
- Tool safety and use
- Introduction to welding
- Backhoe and skid steer driving
- OSHA 30 certification
- Telehandler forklift and mobile elevated work platform operations

There is no cost to the student. The program is funded by the Illinois Department of Transportation.

Program requirements:

- ▶ 18 years or older
- ▶ High school diploma or GED
- ▶ Pass a reading and math assessment
- ▶ Pass a drug test prior to acceptance and throughout the program

The first step is to register and attend ONE of the FREE upcoming orientations.

Register at [parkland.edu/HCCTP](http://parkland.edu/HCCTP).

## Fiber Optics Technician \$3,085

In partnership with BDI DataLynk, we offer three individual courses that teach the necessary skills to build, test, troubleshoot, install, and repair fiber optic networks and prepare you to take the CFOT (Certified Fiber Optics Technician) exam, the CFOS/T (Certified Fiber Optics Testing & Maintenance Specialist) exam, and the CFOS/S (Certified Fiber Optics Splicing Specialist) exam. All training course exams are given and graded on the final day of class. You will receive a certificate of completion upon successful completion of the program. The format of the course involves chapter tests, class discussions, and hands-on activities and exercises.

*“A very good hands-on class.” —Fiber Optic student*

### Certified Fiber Optics Technician (CFOT)

Recognized by the US Department of Labor and sanctioned by the Fiber Optic Association (FOA), this introductory course is for anyone interested in learning basic fiber optic networking and becoming certified. Through a combination of theory and hands-on activities, you'll be prepared to take the CFOT exam, given and graded on the final day of class. You will be introduced to industry standards governing fiber to the desk (FTTD), fiber to the home (FTTH), LAN/WAN fiber networks, and basic fusion and mechanical splicing. You will learn how to identify fiber types; recognize various connectors used in fiber installation; and install, terminate, splice, and properly test installed fiber cables. Explore the history and future of fiber optics, fiber optic capabilities, and installation costs. Standards covered are NECA/FOA-301-2004, EIA/TIA 568-B.3, ANSI/TIA/EIA 607-A, and NEC Article 770-50.

6/17-6/19 Mon, Tue 8 AM-5 PM & Wed 8 AM-12 PM Class ID: 16070 Deadline: 6/10 Location: CE \$1,095

### Certified Fiber Optics Testing & Maintenance Specialist (CFOS/T)

Discover a general, easy-to-understand approach to fiber optics testing standards with little theory and many hands-on activities. Decipher the variety of testing standards, equipment, and technological techniques used in fiber network testing and splicing and how to choose among them. Explore the overall spectrum of testing and maintenance of single-mode and multimode fiber optics networks in this hands-on class that provides a detailed overview and demonstration of various types of equipment used in testing and maintenance. Topics include a detailed study of ANSI/TIA/EIA-526-14(7)A, OTDR fundamentals and uses, OTDR versus insertion loss testing, return loss testing, and attenuation testing using the power source and light meter.

*Prerequisite: Within the preceding 12 months, you MUST have passed the basic fiber optics training or CFOT exam or renewed your FOA membership before attending. There are no exceptions.*

6/19-6/20 Wed 1-5 PM & Thu 8 AM-5 PM Class ID: 16071 Deadline: 6/12 Location: CE \$995

### Certified Fiber Optics Specialist in Splicing (CFOS/S)

This eight-hour advanced specialist fiber optic training includes an in-depth presentation explaining the importance of high-performance splicing and details the points necessary for achieving these splices. An overview of OTDR functions and trace understanding is also provided. You will receive training in both fusion and mechanical splicing of either single-mode or multimode fiber optic cables in hands-on activities. Inside or outside plant fiber optic cable types may be used along with fiber optic enclosures and splice trays. You will be responsible for making and testing mechanical and fusion splices. In addition, you will be required to efficiently install spliced fibers into splice trays and enclosures. You will also be required to achieve a splice loss of less than 0.15 dB for all splices and demonstrate proficiency in interpreting splice loss using OTDR splice traces.

*Prerequisite: Within the preceding 12 months, you MUST have passed the basic fiber optics training or CFOT exam or renewed your FOA membership before attending. There are no exceptions.*

## Beneath a Midwestern Sky: Paintings by Douglas C. Johnson

Monday, June 10–Wednesday, July 31

Artist Reception: June 13, 5:30–7:30 pm

Gallery Talk at 6:15 pm with Doug Johnson

Additional Artist Lecture by Doug Johnson: Wednesday, June 26, Noon

Douglas C. Johnson is a painter who explores the midwestern landscape with quiet exuberance. His long-term relationship with his surroundings in Central Illinois provides the subject matter for his work. Using dramatic lighting, an expressive painterly style, and a sensual color palette, he creates paintings that reflect a reverence for and an expansive view of the landscape in Illinois.

Johnson holds bachelor's and master's degrees in printmaking and painting from Illinois State University and a Master of Fine Arts in painting from Northern Illinois University. He has exhibited in Chicago at several galleries in the River North district and the Chicago International Art Exhibition. His work is in many private collections. He is the executive director of the McLean County Arts Center in Bloomington, Illinois.

### IMPORTANT INFORMATION

Parkland College holds the safety of its students in high regard and is committed to conducting Community Education courses in a safe manner. Parkland College continually strives to reduce such risks and insists that all students follow safety rules and instructions that are designed to ensure everyone's safety. However, students must recognize that there is an inherent risk of injury when choosing to participate.

### WARNING OF RISK

Community Education courses are intended to challenge and engage the student. Depending on the particular activity, students must understand that certain inherent risks always exist. Despite careful and proper preparation of instructors, there is still a risk when participating in courses. In this regard, it must be recognized that it is impossible for Parkland College to guarantee absolute safety.

### WAIVER AND RELEASE OF ALL CLAIMS AND ASSUMPTION OF RISK

I understand that there may be certain risks of physical injury, damage or loss which I and/or my dependents may sustain as a result of participating in any and all activities associated with Parkland College courses offered by Community Education. In registering and participating in these courses, I expressly assume the risk and legal liability, waiving and releasing all claims for risk connected with said courses. Furthermore, I grant Parkland College and PCTV permission to record and/or photograph myself or my dependents for future promotion. In addition, I understand that there will be no refunds for classes canceled due to severe weather conditions, power outages, or situations that may affect the safety of the program or Parkland College.
