

## “Discover” Something New!

By now, when you log into the Cobra homepage, you may have seen a new link on the nav bar called Discover. (See Figure 1).

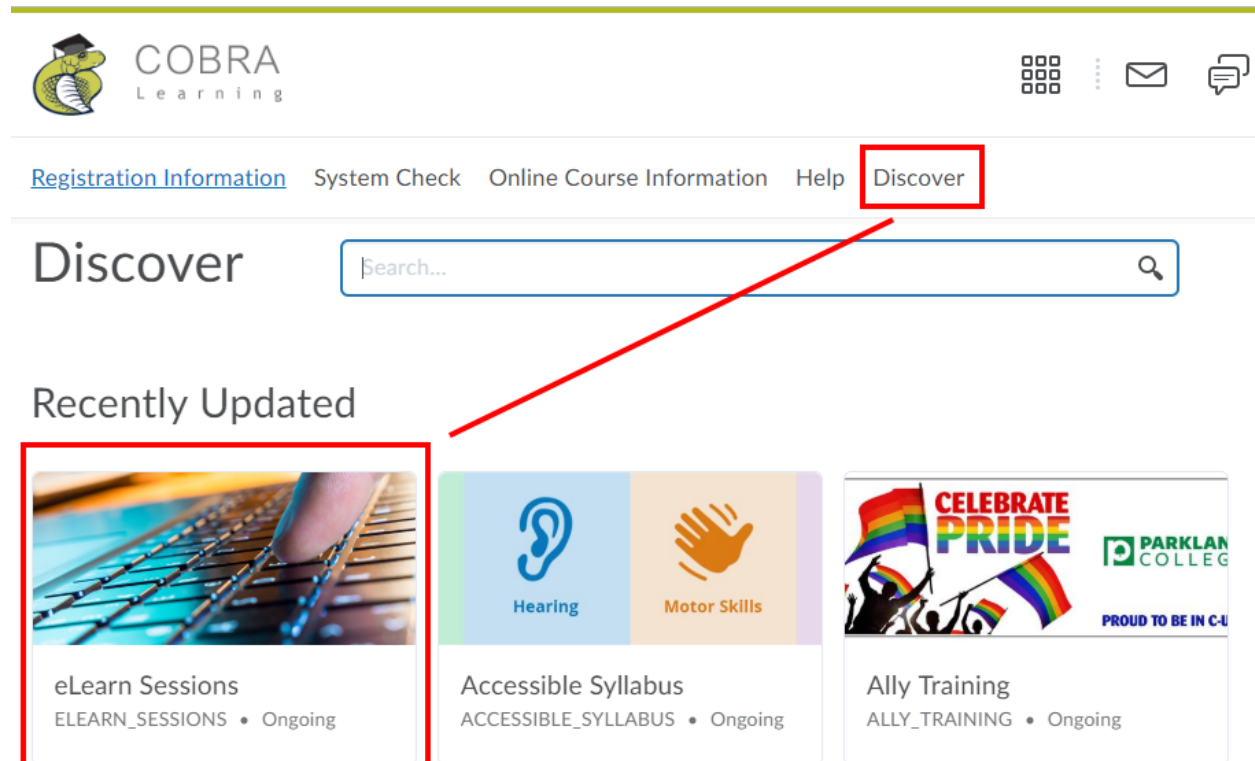

Figure 1

If you click that link, you will see the available “open” eLearn courses in which you can self-enroll. Click on one of the courses to see the description. (See Figure 1).

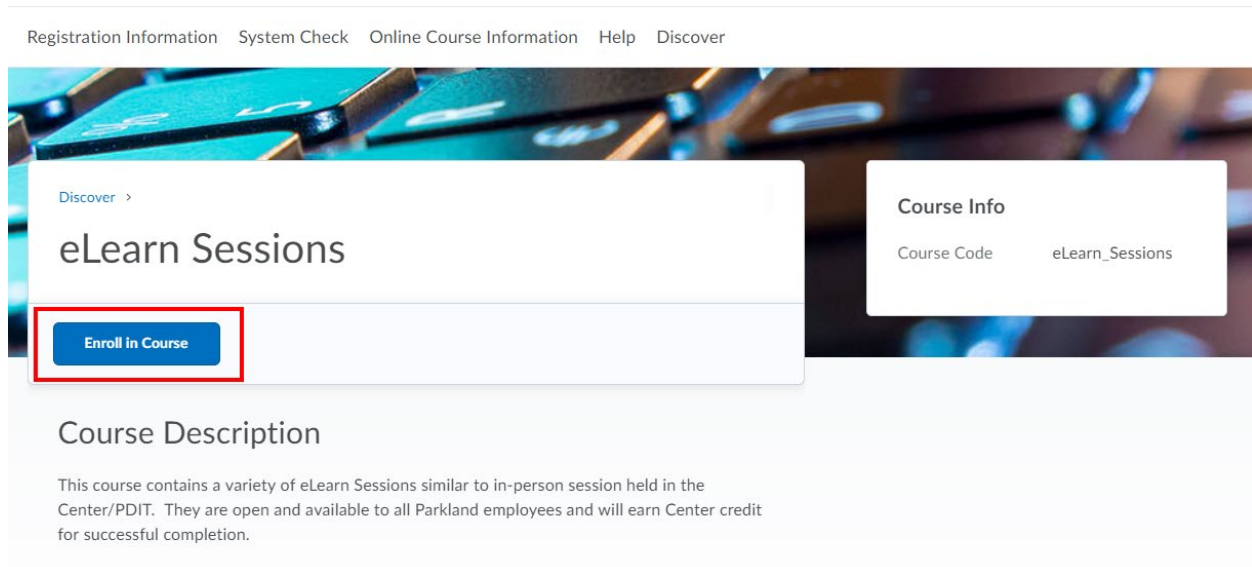

Figure 2

If you are interested in taking the eLearn course, you can click the Enroll in Course button to be automatically signed up for it. (See Figure 2). Upon successful enrollment, you will get a notice that the course will now appear for you in the My Courses widget. (See Figure 3).

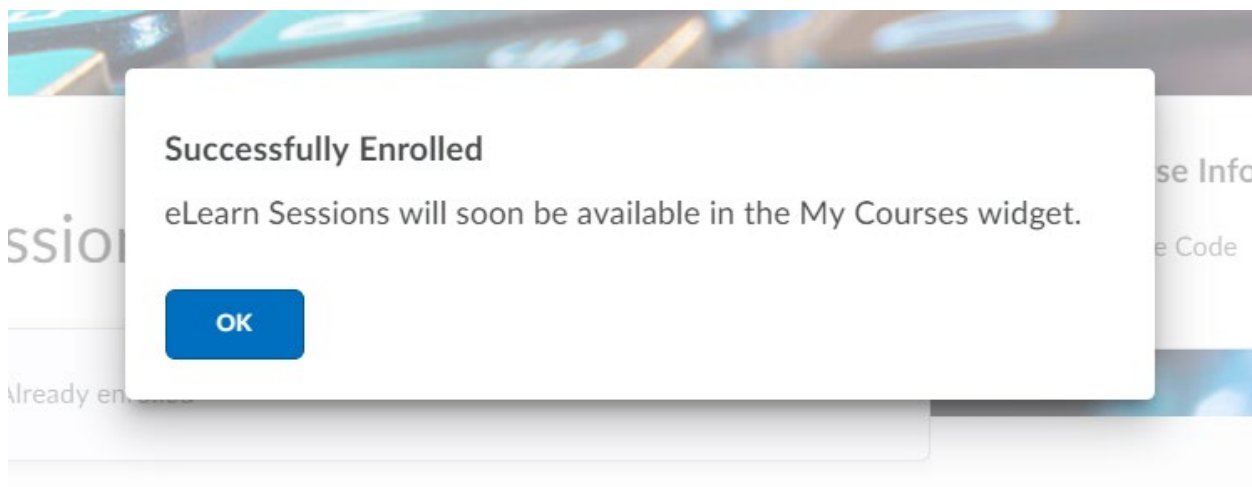

Figure 3

You will be enrolled in the eLearn course as a student and can complete the fully-online course as such. Upon successful completion of the eLearn course (i.e. earning the associated badge/award), PDIT will be notified and you will earn Center for Excellence credit. (Contact hours of credit time may vary per eLearn course).
