The following values are important to the fulfillment of Parkland College's mission to provide programs and services of high quality to our students and community.

1.02.02 Personality and Character

Within this broad framework of philosophy and objectives, Parkland College has developed a distinct personality and character. The type of institution it has become has depended on certain beliefs which are held, and which are in addition to those already set forth. The spirit, drive, and success of the College have depended in large part on how strongly its staff members believed in certain basic precepts, and how faithfully they have carried them out. These principles are enumerated here to provide a guide for recruiting staff members who have a common commitment

resulting from similar beliefs. They are considered to be of high importance in building a distinctive College worthy of pride and support by citizens of the District.

Parkland College has the following characteristics:

- It is dedicated completely to the task of teaching.

The primary concern of Parkland College is the instruction and development of students. Its resources and the energies of its staff are directed toward teaching. The purpose of institutional research is to improve the programs and services of the College.

- Its staff has a high regard for the individual student and an overriding concern for his/her personal development.

The total efforts of the staff of Parkland College are aimed toward meeting the needs of all students. The programs and services of the College are designed to provide the greatest practicable degree of faculty attention to each student. The development of students and their personal improvement are the foremost concerns of the faculty and staff. A sustained effort is made by each staff member to develop the capabilities of each student.

- Members of the College staff maintain highest ethical standards in all external and internal relations.

All persons employed by Parkland College observe highest ethical standards in their relationships with colleagues, students, parents, and members of the general public. These relationships are marked by fairness, honesty, and objectivity, and portray a sympathetic concern and sensitivity for the feelings and desires of others.

- Innovation and experimentation are encouraged.

A climate is maintained which encourages fresh ideas, and the development of new and improved techniques of instruction. At the same time, this eagerness to push ahead is anchored by a respect for those traditional concepts and methods which have enduring value.

- Each educational program is valued by all members of the staff as being important to society, and to individual self-fulfillment.

Members of the staff are unified in their resolve to maintain a democratic College community wherein all educational programs are treated with respect, and where no division or discrimination is tolerated.

- Members of the Teaching, Administrative, and Professional Support staffs consider themselves to be part of a unified professional family wherein there is mutual respect and appreciation for the necessary and proper roles of each group.

The primary purpose of Parkland College is the education and development of students. Dedicated pursuit of this objective requires a self-commitment by all members of the staff which inspires mutual respect and the highest order of professionalism.

- Facts are the basis for decision-making.

Conduct of Parkland College affairs is marked by a serious regard for facts. All decision-making is based on the results of objective evaluations of available facts. Consistent with this approach, individuals are evaluated purely on the basis of their performance, and without regard to race, religion, or other irrelevant factors.

- The College strives at all times to be sensitive to the forces of its environment.

Parkland College exists to serve the citizens and students of its various high school districts which encompass approximately 3,000 square miles. To truly serve the needs of this sizeable community, a close and effective liaison is maintained with the various districts comprising the overall community.

- The College has a strong desire to excel as one of the nation's outstanding community Colleges.

The sense of competitive urgency which makes for success in the corporate world is nurtured at Parkland College. Faculty members, as highly competent professionals with a strong sense of pride in their work, are motivated to keep the institution in the vanguard of the nation's two-year Colleges.

- Wherever possible and appropriate the College will use its resources to help solve community problems.

There are many unmet human needs in society today which must be fulfilled. Among these needs are the prevention of the breakdown of family and community functions and the restoration of these functions when they fail.

Parkland College clearly has a responsibility to design imaginative programs which will prepare personnel to assist in solving community problems. The College by its very nature is in close contact with the community; therefore, it is in a favorable position to discern the human problems which exist there, and to assist in preparing people to help solve these problems.

- Administration of College economic affairs is guided by a businesslike concern for both efficiency and economy of operation.

The success of Parkland College is measured by how well it accommodates the comprehensive educational needs of the community. By any measure this requires a considerable investment in money on the part of the District. The Board of Trustees and administration of the College seek to return high value to citizens by persistently seeking and demanding quality, and by stressing efficiency and economy of operation.

A dedicated and united effort is made by the Board of Trustees and the staff of Parkland College to maintain a College community which functions in accordance with the foregoing principles.

B. Regular Meetings

The regular meetings of the Board of Trustees are held once a month at an established time and place as designated by the Board.

C. Special Meetings

Special meetings may be called at any time by the President or the Board Chairman. They may also be called upon written request of three or more members of the Board of Trustees. In all cases of special meetings, not less than 24 hours' written notice stating the time, place, and agenda of the meeting must be given to each member. At such special meetings, no business may be transacted other than that germane to the agenda.

D. Adjourned Meetings

A regular meeting may be adjourned to a future date as the Board of Trustees may determine.

E. Executive Sessions

All meetings of the Board of Trustees are open to the public. Closed executive sessions are held only to discuss personnel matters, collective bargaining, campus security, safety of staff and students, probable or pending litigation, matters relating to the purchase or sale of real estate, or other matters consistent with the provisions of the Open Meetings Act.

F. Budget Meeting Hearing

A public hearing on the budget is held each year prior to its adoption. Notice of the hearing is published in the local newspapers. All of the provisions specified in the Public Community College Act for Adoption of Annual Budget shall be followed.

G. Committee Appointments

The Board of Trustees shall conduct its business as a committee of the whole except that there may be standing committees. Ad hoc committees or commissions may be appointed as needed.

H. Quorum

At all meetings of the Board of Trustees, whether regular or special, a majority of the full voting membership of the Board constitutes a quorum to transact business.

I. Determining The Agenda

1. The President of the College and the Chairperson of the Board of Trustees are and shall remain the final arbiters of items which are to be included on the agenda of any regular or special meeting of the Board of Trustees. In the absence of the Chairperson, the agenda shall be determined by the President of the College and the Vice Chairperson of the Board. In the absence of the Chairperson or Vice Chairperson, or both, the agenda shall be determined by the President of the College.
2. Any trustee who desires to have an item or items included on the agenda for any meeting shall submit a written request to the Assistant to the President/Board of Trustees no later than 5:00 P.M. two weeks preceding the next Board of Trustees regular or special meeting. Such request shall set forth the subject matter of the remarks to be made and the item or items to be discussed.
3. If the President of the College and the Chairman of the Board decline to include the item or items that the trustee wants placed on the agenda, then that trustee shall have the right to appeal such action to the full Board of Trustees at an appropriate time and place on an agenda and prior to the approval of the consent agenda. The procedure shall be as follows:

- (a) The trustee shall make a motion to include the item or items on the agenda.
- (b) If the motion is seconded, then
- (c) A roll call vote is held and if a majority of Trustees present vote in favor thereof, the item or items may be placed on the agenda for the next board meeting. If the trustee seeking the item or items to be placed on the agenda is aggrieved because the item was not placed on the agenda, then in such event redress shall be made pursuant to the Administrative Review Act of the State of Illinois.

Except as the same may be discussed under Section 13 of the Amendment to the Order of Business, the Board of Trustees shall not discuss nor shall it take any action on an item that is not on the agenda.

Comments and suggestions are to be directed to the Board of Trustees as a whole, not to individual members. If there is a need for clarification, a Board member may interrupt the trustee; in that case, a direct response to the Board member is appropriate.

The remarks of any trustee commenting on the motion shall be included in the record of the proceedings.

Nothing herein should be construed to limit the power of the Board to refuse recognition to a trustee who wishes to discuss issues which are determined by the Board to be repetitive, outside the purview of Board authority, or harassment.

Any of the above rules may be waived by the Chairman of the Board if the issue is of vital importance, such as a national calamity or other significant event.

POLICY 1.04 BOARD/PRESIDENT RELATIONSHIPS: A CODE OF ETHICS

The Association of Community College Trustees, through its Round Table Discussion on Board/President Relationships at its Annual Convention in 1982, suggested a Code of Ethics as a guide for establishing sound Board/President Relationships to help maintain an environment of trust and mutual support.

THEREFORE, the following ethical considerations for Boards and Presidents are recommended as a means of establishing and maintaining sound Board/President Relationships.

- A. The President, in dealing with the Board of Trustees, should:
1. Keep Board members informed fully regarding the state of the institution-- its strengths, opportunities for improvement, and progress toward achieving its objectives.
 2. Recommend to the Board for its consideration and approval those policies or policy changes considered important for effective operation of the College.
 3. Provide the Board with careful study and advice regarding all policy proposals initiated by the Board.
 4. Support Board decisions and exercise maximum effort to implement such decisions, even though they may have been made without or against his/her recommendation.
 5. Treat all members of the Board equally. Maintain a professional and evenhanded stance in the unhappy event of a division of the Board, or of unfriendly relations among Board members.
 6. Be sympathetic and understanding of the difficult position of Board members in representing the College's many publics, and assist them to the best of his/her ability to discharge their roles in effective fashion.
 7. Represent individual members of the Board in a professional and supportive manner to all factions of the public, even though the President may privately disagree with the stand or behavior of Board member.

8. Provide the Board with a professional and objective assessment of any opportunities noted to improve its operation and general functioning.
 9. Maintain strict neutrality regarding Board elections insofar as the public and staff are concerned.
 10. Avoid public utterances or actions which will discredit the Board, undermine public confidence, or otherwise serve to damage the image of the College.
 11. Work closely with the Board and particularly so with its Chair so that the District will benefit from a strong and coordinated team approach.
 12. Provide maximum assistance to new members in their indoctrination to Board membership.
 13. Provide the Board with appropriate advance notice of plans to resign or seek another position.
 14. Avoid discussing with the public contractual difficulties or agreements regarding job separation that may have been reached with the Board of Trustees.
- B. The Board of Trustees, in dealing with the President should:
1. Be sympathetic and understanding of the difficult position of the President in carrying out his/her leadership responsibilities amid the wants and concerns of students, faculty, staff, and general public.
 2. Seek his/her advice and counsel regarding matters of policy before making a final decision.
 3. Give him/her full confidence and support realizing that the chief executive needs this assistance if he/she is to perform with maximum effectiveness.
 4. Expect its Chair to work particularly closely with the President to promote and facilitate the best possible communication and cooperation between the Board of Trustees and the President.
 5. Inform the President immediately of any questions or concerns about the College or District so that appropriate follow-up actions may be taken.
 6. Help assure the orderly operation of the College by insisting that employees make use of established channels and grievance procedures before bringing their concerns to the Board.
 7. Require that the interests and welfare of the entire District be considered before those of any special interest group.
 8. Assist him/her by supporting fully all Board decisions once they have been made, even though the vote may have been divided.
 9. Inform the President immediately of any concerns regarding performance, conduct, or style that, in the opinion of the Board, require attention.
 10. Provide the President with adequate time to correct any deficiencies noted.
 11. Exert every effort to conduct discussions relating to contract termination in a professional manner, being always sensitive to the potential for damage to both the District and the President.
 12. Avoid discussing with the public contractual difficulties or agreements regarding job separation that may have been reached with the President.
 13. Give the President a reasonable period of time to find another position.

1.06.05 Crisis Management Plan

At Parkland College, the mission of the Department of Public Safety is to "provide a safe environment for all Parkland students, faculty, and staff". One of the Department's primary roles is to respond to emergencies that occur on campus. When an incident occurs that requires emergency services beyond the scope of those provided by the Department, local community services are recruited to assist, such as the Champaign Police or Fire Departments. The Department of Public Safety is responsible for coordinating those services.

Some emergencies may require the services of other Parkland College staff, such as the Vice President for Student Services, the Director of Community Relations, and the Counselors. Examples of incidents that may require additional campus resources include, but are not limited to, the following:

- death of a student, faculty, or staff, including murder and suicide
- suicide attempt or other mental health emergency

- riot
- fire; hazardous material spill, physical plant emergency
- natural disasters, including tornados, earthquakes, winter storms, etc.
- any incident that precipitates calls from the news media

To coordinate efforts across departments, Parkland College has formed a Crisis Management Team. This Team is responsible for creating a Crisis Management Plan. The Plan will identify the steps the Crisis Management Team will take to prepare for each phase of crisis management: prevention, crisis management and post-crisis management.

This policy outlines the membership of the Crisis Management Team and identifies responsibilities of Team members during the crisis management and post-crisis management phases of the emergency response. An emergency protocol for the campus is included, along with questions to consider during the evaluation phase of post-crisis management. The report also lists the next steps the Crisis Management Team needs to take to complete a Crisis Management Plan for Parkland College.

A. The Crisis Management Team

In the event of a large-scale emergency on campus, the Crisis Management Team is responsible for managing the crisis and the aftermath. Once the immediate emergency is over, the Crisis Management Team assists in returning the campus to normal functioning as soon as possible. The Team determines what services are needed to meet the needs of those impacted by the disaster and makes arrangements for those services to be provided.

The Vice President for Student Services will serve as the Director of the Crisis Management Team. The Crisis Management Team includes the following Parkland College representatives:

During a crisis, the primary responsibility of each member is to serve in his or her role on the Crisis Management Team. Members may need to be temporarily relieved of their normal duties. Each member will arrange with his or her supervisor to have his or her responsibilities delegated until normal operations resume.

D. Emergency Protocol

1. Coordinating Emergency Services

Immediately after an emergency is reported to the Department of Public Safety, the dispatcher will send an officer or officers to the scene and will notify appropriate emergency services (911 fire, medical, or police) if warranted. If off-campus emergency personnel are called, an Officer from the Department of Public Safety will escort them to the scene. If it appears that a crime has been committed, the area will be secured as a crime scene.

Depending on the nature of the emergency, the dispatcher will contact the Director of Public Safety, or a designee if the Director is unavailable, who will assess the situation and determine if key administrators need to be notified. The Director or designee will notify administrators by referring to the emergency notification call list.

2. Assembling a Crisis Management Team

The Director of Public Safety will determine if the emergency warrants a coordinated response from the Crisis Management Team. If the Team is needed, the Director will contact the Vice President for Student Services to apprise him or her of the situation and the decision to assemble the Crisis Management Team. The Vice President for Student Services will serve as the Director of the Crisis Management Team. He or she will notify

Team members about the emergency and the time and place of the first meeting. If a Crisis Management Team member is not available to serve, the Crisis Management Team Director will appoint an alternate member to represent that area.

3. Coordinating Media Relations

The Media Spokesperson will respond to all inquiries by the press, will write press releases, and will arrange press conferences. All requests for interviews by the media will be handled by the Media Spokesperson.

The Vice President for Student Services (as the Director of the Crisis Management Team) or the Media Spokesperson must pre-approve any staff or faculty communication with the press.

A room will be reserved for use by the media for the duration of the crisis. Phone lines will be made available for telephone and computer hook-up. A room for press conferences will be made available. The Media Spokesperson will keep the press informed about which areas of campus are approved for them to occupy and which areas have been determined "off-limits". The Media Spokesperson will arrange for escorts for members of the press while on campus.

If necessary, the Department of Public Safety will reserve parking spaces for press use.

E. Evaluation

The true test of a Crisis Management Plan is how it holds up during an actual emergency. An essential phase of crisis management planning is the evaluation that takes place soon after the campus has returned to normal. The Crisis Management Team will meet to discuss the overall handling of the crisis and to evaluate the effectiveness of the Crisis Management Plan.

Each team member is encouraged to review his or her responsibility on the team and to seek input from his or her area. Team members will survey family and friends of victims, along with community leaders. The results of the evaluation will be used to update, change or implement a new Crisis Management Plan. The Director of the Team will provide the results of the evaluation in a report that will be made available to the campus community. Following is a list of questions to consider during the evaluation phase:

- What was the nature of the emergency?
- Who was on the team?
- How did the team respond?
- How could the team have handled things differently?
- Were any team members overly burdened with responsibilities?
- What procedures worked?
- What procedures did not work?
- Was everyone involved who needed to be involved?
- Were there any surprises? What were they and how can the team prevent them in the future?
- What other crisis prevention efforts should be considered?
- How could communications with the media have been improved?

Fines for any parking or traffic violation incurred by travelers while on College business are not reimbursable.

2. Lodging

- a. Reasonable and necessary lodging will be reimbursed as approved in advance and supported by receipts.
- b. When a traveler shares lodging with an unauthorized traveler, the traveler will provide a receipt or printed rate schedule showing the single occupancy rate. 3. Registration and Enrollment Fees

Registration/enrollment fees for meetings, conferences, courses, seminars, workshops, or similar events are reimbursable when the College employee or representative is authorized to attend. Local ordinances allow two Parkland College liquor licenses annually. Special application is required.

Outside entities can obtain their own liquor license which is not considered one of the two allocated to the College.

POLICY 3.29 RESOURCE AND ENERGY CONSERVATION

Parkland College, as an institution of higher education and as a major consumer of resource and energy, has an obligation to reduce consumption and promote wise use of natural resources and energy. Consequently, Parkland is committed to policies which promote waste reduction, recycling, and energy conservation. In order to achieve these goals, the College is committed to do the following whenever feasible.

1. Reducing resource consumption, especially paper, by adopting conserving practices.
2. Maintain a comprehensive recycling program.
3. Purchase recycled paper.
4. Purchase equipment and adopt operating procedures which will reduce energy consumption.

6. Promote biodiversity through plantings of native varieties of trees and prairie species.

Approved: February 20, 1991

POLICY 3.30 REMOVAL OR RELOCATION OF STAFF PERSONAL EFFECTS

The personal and professional effects of an employee located in a College office or in/on the employee's desk, file cabinets, computer files, bookshelves or bulletin boards, shall not be removed or disturbed without written permission of the employee or his or her legal representative, except in cases of emergency, court order or upon termination of employment. Upon termination of employment, administration may remove such effects, but must retain them in a secure place for at least one calendar year.

POLICY 3.31 PARKLAND COLLEGE FOUNDATION

The Parkland College Foundation is a nonprofit agency for charitable and educational purposes. Its primary objective is to help the College develop programs and facilities and extend educational opportunities for students through solicitation, receipt, and administration of gifts and money, and other proper means.

A. Use of donated Parkland College Foundation funds:

1. General Fund: These funds will be unrestricted. Both principal and interest will be useable upon the recommendation of the College and approval of the Foundation Board of Directors. Funds raised during the annual campaign, except where otherwise directed by the donor, would be designated for this fund.
2. General Fund/Restricted Use: These funds will be designated for a specific use. Both principal and interest will be used for that purpose. An example of this kind of use would be a capital campaign for construction of

a building. Only those projects approved by the Foundation Board, upon recommendation of the College, will be allowed this status; i.e., arbitrary designation by anyone associated with the College of a project eligible to receive donations would not be allowed.

3. General Endowment: These funds will be restricted to use of interest earned only. Use of interest will be upon the recommendation of the College and approval of the Foundation Board of Directors.
4. Specific Use/Endowment: Like the General Endowment, these funds will be restricted to use of interest earned only. Use of the interest will be further restricted to a designated project or activity. Such project or activity will be restricted to those approved by the Foundation Board of Directors, upon recommendation of the College.

Approved: January 20, 1993
Revised: July 19, 1995

Procedure

The procedure is similar to the institutional grant application process, but also includes the services of the Foundation Director. The Foundation Board of Directors, via its Executive committee, approves proposals and award activity that is relative to the Foundation.

POLICY 3.32 PROFESSIONAL DEVELOPMENT

The College recognizes the need for continued development of its employees. The PCA Professional Development Committees are responsible for coordinating general College professional development activities. Designated funds per bargaining agreements are included in the budget to be utilized for faculty and staff development. In addition, a special professional development fund is set up to provide a limited number of administrators, faculty, and staff with financial assistance to augment designated funds per bargaining agreement when presenting at national conferences to advance Parkland's reputation as a leader in post-secondary education. Access to these funds requires the approval of the appropriate Vice President. The existence of this special fund is dependent on the availability of funds.

Approved: January 20, 1993
Revised: June 18, 1997
Revised: July 18, 2018

Procedure

A special fund is included in the budget for professional development activities involving a variety of programs not normally supported by the professional travel budget allocation. These monies are specifically intended to provide a limited number of faculty with financial assistance for participation in special programs of benefit to both the College and the individual and which would otherwise be cost prohibitive.

- A. Guidelines for Access to Funds for Making Presentations at National Conferences:
 1. The presentation is made at a national forum that advances Parkland's reputation as a leader in post secondary education and advances one's own teaching/classroom research to enhance teaching and learning that is either (a) specific to one of our academic programs or student services areas or (b) addresses a general College initiative.
 2. The number of presenters is generally limited to two per presentation from Parkland College.
 3. Requests must be submitted and approved prior to the printing of any program.
- B. For further information, interested instructional staff should discuss this matter with their Department Chair, director, appropriate administrative supervisor, or Vice President for Academic Services.

Approved: January 20, 1993
Revised: June 18, 1997

Procedure

- A. Employees with 20, 25, 30, 35 or more years of full-time service and retirees with a minimum of 10 years of full-time service at the time of their retirement, who have applied to receive their State Universities Retirement System benefits, will be invited to attend a special luncheon held annually during the Spring semester. Also invited will be the President, Vice Presidents, office of Human Resources, the immediate supervisor of the recognized employee or retiree, and members of the Board of Trustees. This event will be coordinated by the Office of Human Resources.

Award pins will be presented at the annual luncheon to employees with 20, 25, 30, 35 or more years of full-time service. Employees whose years of service were continuous will automatically receive their pin. Those who had a break in service must alert Human Resources when they have accumulated the necessary number of years; otherwise, they will receive their pin after 20, 25, 30, 35, or more years of *continuous* service. Plaques will be presented to all full-time staff members who retire from Parkland after a minimum of 10 years of service.

- B. A retirement reception may also be held and organized by the office or department of the retiring employee for all retiring full-time employees who have been employed by the College for a minimum of 10 years. In the event of multiple retirees in the same office or department, one reception may be held. The cost of light refreshments may be charged to the department budget.
- C. Any observance of the retirement of employees with fewer than 10 years of full-time service will be at the discretion of the particular department or office. In the event a reception or other observance is held, the department or office will be responsible for all arrangements. If the retiring employee has served Parkland more than 5 years, the cost of light refreshments may be charged to the department budget. The President's Office should be notified of the intention to hold such a reception.
- D. Employees with 5, 10, and 15 years of full-time service to Parkland will receive recognition award pins which will be provided to the immediate supervisor prior to the anniversary date of the employee, along with a personal letter from the President, acknowledging their milestone service to the College. Employees whose years of service were continuous will automatically receive their pin. Those who had a break in service must alert Human Resources

when they have accumulated the necessary number of years; otherwise, they will receive their pin after 5, 10, and 15 years of *continuous* service.

Supervisors of these employees are encouraged to plan and organize an inter-departmental presentation of the award pins, including the employee's colleagues and the department head, to recognize and congratulate the employee. Receptions may be arranged periodically to honor groups of employees when multiple employees in the same office or department have anniversary dates close together. The cost of light refreshments may be charged to the department budget.

POLICY 3.37 RESEARCH PROJECTS

Research projects to be conducted on campus using Parkland students or staff in testing, questionnaires, or interviews are to be coordinated through the office of the Dean for Institutional Effectiveness. Frequently, resource assistance or consultation on design or procedure can be provided to enhance such efforts. Coordination of research further protects staff and students from too frequent demands and from misinterpretation or misuse of College data.

3.37.01 External Research Projects

Research projects to be conducted by non-Parkland entities on the Parkland campus using Parkland students or staff in testing, questionnaires, systematic interviews, or which make use of the College database are to be coordinated by the Dean for Institutional Effectiveness. Coordination of research protects staff and students from excessive demands and misappropriation of College data.

3.37.02 Internal Scholarly/Academic Research

Internal scholarly or academic research conducted by Parkland faculty/staff on the Parkland campus using Parkland students or staff in testing, questionnaires, or systematic interviews is an academic matter and therefore must be coordinated by the Chair of the department in which that research is to be conducted. Unless the Office of Institutional Accountability and Research has a budget to meet internal requests, all costs, e.g., Scantron forms and duplication, will be charged back to requesting department/researcher.

POLICY 3.38 STORAGE

Utilization of storage space as well as designation and disposal of surplus materials is a College-wide concern. The Director of the Physical Plant is designated to execute policy and procedures related to storage and surplus material issues. The Director has the authority to declare materials as surplus when the total declared value is less than \$250 and dispose of such materials in accordance with established procedures.

To facilitate efficient use of storage space, the College will make large volume purchases on a delivery-as-needed basis, whenever possible.

Approved: April 21, 1993

Procedure

- A. All Stored Materials (outside functional operation areas) including both current supplies and surplus property:
1. Every item not in a cage and placed into a storage location must carry an approved tag. Preprinted tag forms will be available at the office of the Physical Plant Director.
 2. Tag must include:
 - a. Name of office/unit claiming responsibility
 - b. Date of placement into storage site
 - c. Handling precautions
 - d. Location of support manuals, etc.
 - e. Disposal plan
 3. No items may be stored in a basement area except within caged areas. Items outside will be declared surplus. *The maintenance work area is not a storage area.*
 4. Nothing will be allowed to be moved into the basement (or other storage area) **without** a tag except caged. Any items so left will be declared as immediate surplus, and sale income will go to the General Fund--not after-the-fact into a unit/department account.
 5. No persons/units shall leave untagged materials or items outside designated spaces.
 6. Public areas (e.g., corridors, lounges, etc.) shall not be used for any storage beyond a temporary and designated time limit (one week).
 7. A formal notice of intent to store in a public area shall be filed with the Director of the Physical Plant, and failure to do so shall require removal and disposal.

1. The sale or disposal of all surplus property must meet any and all State and Federal guidelines. Full attention must be given to the original funding controls or time limits; restrictions on removal of hazardous materials; prevention of designation for private profit.
 2. Items placed in "temporary storage" must have a designated time span (one year). The items will be declared "designated surplus" at the end of the time span.
 3. Each item (not just a collection of items) must carry a realistic declaration of value (based on time of placement into storage).
 4. All requests for replacement of furnishings and equipment must be accompanied with a formal statement of plans for disposal or release of the original items.
 5. Funds which are received (above \$250) from the sale of surplus property which has been properly tagged will be made available to the designated cost center (or unit).

C. Status Reports

1. Units/areas with major storage requirements shall develop a formal plan for dealing with their unique circumstances, and this shall be approved with the Vice President for Academic Services or Vice President for Administrative Services/Chief Financial Officer.
2. This plan shall include the statement of inventory, a complete identification of space currently used (including both its quantity and quality), and a declaration of long-term plans to deal with storage issues (including reduction of space assignment).
3. Those units from which this shall be required shall include: Bookstore, Archives, Theater, Campus Technologies, Reprographics, Physical Plant, Food Services, and the instructional departments.
4. Every unit/department must file annually (on July 1) a complete written inventory (in prescribed format) of all stored materials not housed within the office or other working area assigned to the unit.
5. Original copy shall go to the Vice President for Academic Services or Vice President for Administrative Services/Chief Financial Officer, and a duplicate filed with the Director of the Physical Plant.
6. This inventory shall identify all items with, at least, these designations: potential for future use; estimated market value; target date for disposal.
7. The College shall prepare an annual summary report of all surplus and/or stored materials (including their declared value) to be completed under the supervision of the Vice President for Administrative Services/Chief Financial Officer.
8. A summary of space devoted to storage functions (both within a unit and at remote locations) shall be prepared, and shall include a ranking (evaluation) of:
 - a. amount of space in net assignable square feet
 - b. quality of the space
 - c. security provisions
 - d. accessibility

POLICY 3.39 IMMUNIZATION AND MEDICAL TESTING POLICY FOR EMPLOYEES

Immunization and T.B. testing are required for certain employees by the health care agencies with whom we have clinical contracts and/or other regulatory agencies. These standards are developed by these outside agencies and are subject to change. In the event changes in these standards occur, the College's requirements should change accordingly. Consequently, these specified employees are required by the College to meet these standards.

Parkland College will reimburse any employee for immunizations, T.B. testing (chest x-rays for PPD positive individuals) and immunity testing that is required as a condition of employment. If another facility other than Parkland is the employee's primary employer, the employee is encouraged to seek immunization through that employer. However, no employee as specified above will be denied required immunization and/or testing. The Office of Human Resources is responsible for the maintenance of employees' immunization and T.B. test records.

Approved: October 19, 1994

Procedure

- A. Employees who are required to receive immunizations, T.B. testing, chest x-ray, and/or proof of immunity to specified diseases as a condition of employment may be reimbursed using the following procedure:
 1. Consult with the Office of Human Resources to determine which immunizations and/or testing are needed prior to receiving any immunization and/or testing.
 2. Set up an appointment with a health care provider to have the required immunizations, T.B. testing (chest x-ray for persons who have positive reactions to skin testing), and/or immunity testing.
 3. At the time of the appointment, ask the health care provider for a bill itemizing the charges incurred.

4. Send or bring the bill to the Office of Human Resources. The necessary paperwork will be completed in a timely manner and payment sent to the health care provider. If you prefer, you may pay the bill at the time of service and submit the receipt to the Office of Human Resources for reimbursement.
- B. The Health Professions Department will maintain current records regarding the immunization and medical testing requirements of the local clinical agencies with whom Parkland has contracts and OSHA and will notify appropriate College personnel regarding changes in these standards as they occur.

POLICY 3.40 COMPUTER ACCESS/NETWORK USAGE

- A. Each computer site will be designated as one of the following: *public, private, limited access*.

1. Public Sites

Computers in such areas as labs, library and classrooms will generally be considered as part of a *public site*. As such, any Parkland employee and legally enrolled student may access these computers and use them in accordance with the guidelines detailed in the Computer Usage Policy. No data, software, or configuration will be considered as private or permanent on a public site machine. No one may install or remove software on a public site machine without prior approval by the person designated as responsible for the public site in question and without prior notification of the Campus Technologies department. Any significant modification of software, hardware, or system configuration by Campus Technologies personnel must first be approved by the person designated as responsible for the public site in question. Under no circumstances will public site computers be used to copy software illegally.

2. Private Sites

Computers in individual offices (e.g., faculty or Department Chairs) will generally be considered as a part of a *private site*. As such, the primary user(s) of a computer in a private site will have exclusive access to the computer. No modification of software, hardware, or system configuration by Campus Technologies personnel will be performed on a computer in a private site without prior notification of the designated user(s).

3. Limited Access Sites

Computers which store or have access to data of an institutional interest (e.g., departmental secretary) will generally be considered as a part of a *limited access site*. As such, one or more persons will be designated as the primary user(s). If only one person is designated as a primary user, he/she will grant permission and means, in writing, for at least one other individual to access institutional data in an emergency. No one may use a limited access computer without prior consent of the primary user(s). No modification of software, hardware, or system configuration by Campus Technologies personnel will be performed on a computer in a limited access site without prior notification of the primary user(s).

- B. Since all computer equipment, hardware, and software purchased with Parkland funds is considered the property of Parkland College, it is strongly advised that computer users at Parkland College avoid storing information of a personal nature on their computers at work.
- C. Parkland College computers are intended for use by students and employees of the College. Community access to computers is allowed in (and limited to) the Parkland library. Students, employees, and community members who use a Parkland College computer must do so in a manner consistent with the institution's computer/network usage policy and the College's Mission and Purposes. College computer use that violates this policy or that is detrimental to the fulfillment of the College's Mission and Purposes may result in suspension of computing privileges, disciplinary review, suspension or expulsion from the College, termination of employment, and/or legal action. The Parkland College Policy and Procedures Manual and the Parkland College Student Policies and Procedures Manual cite specific policies and procedures that may be applicable.
- D. All members of the College are bound by local, state, and federal laws relating to copyright, security, and other statutes regarding telecommunications and media.
- E. In areas where computers are available for public access, academic class work takes precedence over recreational use. Specific computer labs may post computer use policies to supplement this policy.
- F. Examples of inappropriate and prohibited use of College computing facilities include the following:
1. Cheating

2. Plagiarism
3. Any illegal use, including but not limited to uses that infringe on the rights of others to enjoy an environment free of harassment.
4. Software copyright infringement
5. Computer and/or network vandalism
6. Advertising or commercial use for private gain
7. Unauthorized alteration of computer hardware or software configuration
8. Unauthorized use of someone else's password or reading of someone else's e-mail or personal files, except in compliance with legal proceedings/investigations
9. Displaying, creating, or transmitting images or messages which are inconsistent with or detrimental to the College's Mission and Purposes

Sharing email accounts and/or passwords with another person, or attempting to obtain access to another person's account is prohibited. Each user is responsible for all email transactions made under the authorization of his or her Parkland email username.

Users who choose to access the Parkland email, calendar, and contacts system on their personal devices are responsible for following security procedures and guidelines as defined by Campus Technologies.

Email addresses will be listed in the email directory and other appropriate College publications as allowed by the federal and state laws and regulations. The College is not responsible for the handling of email by non-Parkland email systems.

The College has the right, when required by applicable law, to access, review, and release all electronic information that is transmitted or stored by the College whether or not such information is private in nature. Confidentiality or privacy of electronic mail cannot be guaranteed.

Email is subject to all pertinent laws regarding sharing or transmission of sensitive information, such as:

1. Freedom of Information Act (FOIA)
2. Family Educational Rights and Privacy Act (FERPA)
3. Health Insurance Portability and Accountability Act (HIPAA)

3.41.01 Inappropriate Use

The College's email systems and services are not to be used for purposes that could be reasonably expected to strain storage or bandwidth.

Inappropriate use of Parkland email systems and services includes, but is not limited to:

Limited personal use for communication with family and friends, independent learning, and public service is permitted.
- Use of Parkland email systems and services for non-Parkland commercial activity, political campaigning, and dissemination of chain letters.
- Use of Parkland email by people not associated with the College.

OTHER INSTITUTIONAL ISSUES

The following procedures shall guide the College in its operations, in accordance with appropriate state laws and/or practices.

REPROGRAPHICS

Reprographics provides the following services for the faculty and staff:

- Offset printing
- Collation
- Folding and stapling
- Padding
- Paper trimming and binding
- Perforation

Materials to be reproduced on the offset press are picked up and delivered twice daily to stipulated areas. A list of these locations is available in the Print Shop. Some offices must personally deliver their work to the Print Shop.

All print jobs that are picked up will be delivered unless the job is too large to be placed on the delivery cart. In these special circumstances, other delivery arrangements will be made.

If no more than 200 copies of each original are needed, the print job will be delivered 24 hours after it is picked up. If more than 200 copies of each original are required, or if the total job exceeds 4,000 copies, one week for delivery must

be allowed. If the materials are needed in less than 24 hours, clerical personnel are advised to use a photocopy machine in their department.

Each administrative unit should use the assigned account number when making a reprographics request. Unit secretaries will approve routine requests (syllabi, tests, course outlines, etc.) but will forward other requests to the Department Chair to review for copyright concerns.

PHOTOCOPY MACHINES

Photocopy machines are used to duplicate printed material when a small number of copies from an original are required.

1. One to ten copies of an original may be reproduced on the copy machine. If additional copies are required, the total copy system should be used in Reprographics.
2. Student papers may not be copied for a faculty member's personal file. If a faculty member needs to retain the student's paper, the student should be advised to make an extra copy. Faculty members may have student papers copied for instructional purposes. However, they must still obtain permission from the Department Chair.
3. Students may not use the College copy machines for any reason. Coin-operated machines are located in the Library for students to make personal copies at a nominal fee.
4. Faculty and staff may not use the College copy machines for personal business. Coin-operated machines in the Library are available for this purpose.
5. Materials that can be obtained free or at a price less than the copy cost will not be duplicated.
6. The College will not copy, in its entirety, any book, magazine, pamphlet, sheet music, tests, workbooks, or other separate published work which is still in copyright and available through normal trade channels.
7. Faculty members may reproduce, for their professional work, copies of a chapter of a book, a newspaper or magazine article, a short story, an essay, or a poem. However, if this material will be used for more than one semester, the faculty member must secure permission from the publisher. This procedure also applies to materials placed on reserve in the Library.

COLLEGE HOUR

One hour is scheduled each week for the purpose of permitting staff members to participate in a variety of College activities. During this hour, classes and laboratories do not meet and various student and professional staff activities are scheduled. Examples of such functions include Student Government, faculty and student committee meetings, convocations, professional development sessions, etc. Currently, College Hour is held from noon to 1 P.M. on Thursdays.

PARKING

Parking is available for all employees except in areas designated for persons with disabilities, College owned vehicles, etc. A student with a temporary impairment due to accident or injury should contact the office of Disability Services for more information.

Parking tickets are issued for illegal parking, and fines are to be paid to the cashier in the Business Office.

MAIL

Mail is picked up and delivered twice daily. Intra-College mail is to be used only for official College business.

CHANGE OF STATUS

Employees are requested to report any change in address, telephone number or marital status to the office of Human Resources. It is important that this office be notified as a current personnel file must be maintained for every employee at the College.

CALENDAR BUILDING OF PROCEDURES

Basic Assumptions

1. To receive state apportionment, community college semesters must have a minimum of 75 instructional days (excluding final exams and orientation days).
2. Since many UIUC students concurrently enroll at Parkland each year, we must have compatible terms.
3. The instructional calendar must be within the guidelines of the PAE contract in terms of the number of faculty working days.

Basic Elements

1. Basic fall and spring semester terms contains 77 class days (allows for two emergency days), 5 days for final exams, 5 days of orientation week. The following holidays are regularly observed: Labor Day, Thanksgiving -beginning at 5:00 p.m. the evening before and the Friday after, and Martin Luther King, Jr. Birthday. Spring break coincides with UIUC and includes a Saturday through Sunday nine-day period.
2. Summer session begins on the Monday following spring commencement. Memorial Day is observed. This coincides with UIUC Term I. Three-credit-hour classes usually contain 13 days of instruction and 1 day for final exams; four-credit-hour classes usually contain 18 days of instruction and 1 day for final exams.
3. On-campus instruction is not usually held on the eight Fridays of the six- and eight-week summer session.

Basic Process

1. In September, the Vice President for Academic Services accesses the UIUC calendar online and, if necessary, contacts the UIUC Associate Director of Admissions and Records, who is a permanent member of the UIUC calendar committee, to determine what UIUC calendar is most likely two years in the future. (UIUC has a uniform procedure to determine key dates in their terms that involves counting days from key annual calendar dates.)
2. The Vice President for Academic Services then uses the above to build the first draft of the Parkland calendar.
 - a. In Spring semester, check that Professional Development Day is on a Thursday. (The smallest number of scheduled day classes is on Thursday.)
 - b. The summer session begins on the Monday following commencement.
3. The Vice President for Academic Services takes the first draft of the calendar two years in advance to the College Council for review and approval.
4. This calendar is then presented to the PCA Executive Council and Senate for review.

FUND RAISING PROCEDURES

One of the many challenges for community college foundations is to manage the data associated with fund raising on behalf of the institution it represents. In an effort to increase the efficiency of all fund raising efforts, the following procedures will be used for internal and external fund raising projects:

1. Faculty, staff, and administrators should include the Foundation administrator (or a representative of the Foundation) and the Vice President for Academic Services in any discussions concerning fund raising that has direct effects on Foundation efforts.
2. For any self-contained Parkland College fund raising activities (e.g., TAMAQUA, Theatre Board, athletics, etc.) conducted independently of the Parkland Foundation, the staff involved in the fund raising should consult with the Foundation administrator (or a representative of the Foundation) to avoid conflicting interests or unnecessary duplication of efforts.

2. Per Parkland Policy 4.16, Part-Time Teaching Load, "A part-time instructor, who is not working full-time or its equivalent elsewhere, may teach a maximum of 12 equated contact hours. (Note: this is understood to refer to a maximum and not a normal, continuing part-time load assignment.) Therefore, it is understood that the part-time teaching assignment will be executed at hours outside of the individual's full-time regular working hours. This reference check can be done either prior to interviews or after interviews and before a position is offered.

K. Interviews

1. The Chair of the search committee is responsible for arranging all interviews through the Office of Human Resources. This will be done by completing the Search Committee Scheduling Request Form. The search committee Chair must also advise the Office of Human Resources of the following:

- Names of all search committee members;
- Times when all search committee members are available and
- The desired itinerary for the visit.

Interviews are usually arranged by the Office of Human Resources, unless other arrangements are agreed upon with the search committee Chair or hiring authority.

As a courtesy to applicants, a reasonable amount of lead time should be given for the candidate to make necessary arrangements. A guideline would be to give candidates at least 48 hours notice.

The President and Vice President for Academic Services will interview all final candidates for faculty and executive level administrative positions unless otherwise designated by that office to the Chair of the search committee.

2. Transportation, lodging, and other expenses of the candidates, as specified in section IX, will be paid by the college. Arrangements for payments must be made with the Office of Human Resources before commitment to expenditures.
3. For full-time faculty and Administrative position searches, the Office of Human Resources will reimburse the Chair, or designee, of the search committee for a mealtime meeting with the candidate and up to seven (7) members (including the search committee Chair, candidate and EEO Representative).
4. In consultation with the hiring authority, the Office of Human Resources will prepare a written letter of rejection for each of the unselected candidates. These letters shall be sent within ten (10) days after the applicant folders have been returned to the Office of Human Resources by the search committee Chair or sooner if requested by the hiring authority.
5. In the event of an unavoidable absence of a search committee member, video recording of the interview will be necessary. All search committee members must either be present for the interview or view the tape of the interview. Candidates must be notified in advance of the video recording. Recordings will be kept in confidence, within the search procedure, by the search committee Chair and included in the search materials.
6. Appropriate salary levels for the positions will be provided to the hiring authority by the Office of Human Resources, in accordance with the appropriate Collective Bargaining Agreement or the administrative compensation schedule.

L. Recommendation of Qualified Candidates

1. Subsequent to interviewing candidates who meet the announcement prerequisites (except in the case of faculty searches where ranking is at the discretion of the search committee), the search committee Chair will complete the Candidate Recommendation form, including a statement of rationale for the recommendation listing up to two (2) unranked qualified finalists. For full-time faculty positions, the recommendation will be forwarded to the Vice President for Academic Services, along with the packet containing the Equal Opportunity Form (not completed), resumes and other documents of the finalists.
2. For non-faculty positions, the hiring authority, in consultation with the EEO representative, will complete the Equal Opportunity Form and recommend one of the qualified finalists and an appropriate salary in accordance with the salary and compensation package of the particular Collective Bargaining Agreement or compensation guidelines. The completed packet of forms, resumes and other documents will then be forwarded to the Office of Human Resources to route to the appropriate administrative approvals.
3. Upon concurrence with the hiring authority's recommendation, the administrative supervisor signs the form and forwards the packet to the Office of Human Resources for salary review and compliance with the search

procedures. The Office of Human Resources reviews the recommendation of the hiring authority and appropriate administrative supervisor, approves the appropriate salary and forwards the finalist to the President for final administrative approval. In the event there is some problem that prohibits the Office of Human Resources from approving the search or recommendation, this office will return the recommendation to the administrative supervisor along with the reasons for questioning either the process or the recommended candidate(s). In the event there is not concurrence in the selection of the finalist, the administrative supervisor and the hiring authority will reconvene the search committee to enumerate the reasons for the non-concurrence and will consult with the search committee to resolve any differences. In the event the problem with the Office of Human Resources cannot be resolved, the office of Human Resources will meet with the administrative supervisor and the hiring authority to jointly reconvene the search committee.

4. After the President approves the recommendation, the Office of Human Resources or hiring authority will communicate this action and make the salary offer to the candidate in accordance with the salary and compensation package of the particular Collective Bargaining Agreement or other compensation guidelines. No offer of employment or salary is to be made to a candidate until final approval has been obtained from the President. The routing of the Candidate Recommendation form will be from the search committee Chair or hiring authority to the appropriate Vice President and then to the President. The Office of Human Resources will facilitate the routing of this form.
5. If the candidate accepts the approved offer, the Office of Human Resources or hiring authority will notify the appropriate administrative supervisor.
6. If the approved finalist refuses the offer, or the recommendation is unacceptable to the President and/or the Board, the matter will be referred back to the administrative supervisor with the reason(s) for refusal providing such reasons are not confidential, wherein the search procedure reverts to section K.
7. Finalists who are interviewed but not made an offer of employment are notified by U.S. mail and, at the discretion of the search committee, via telephone by the Search Chair or hiring authority after the offer of employment has been made and accepted by the successful candidate.

M. Contracts

An employment contract will be prepared by the Office of Human Resources for faculty (in accordance with the requirements and guidelines of the current Collective Bargaining Agreement) and administrative employees. Before the contract is legally in effect, it must be signed by the faculty member or administrator, by the President, and approved by the Board. The faculty member or administrator will be provided a copy of the contract, and a copy will be retained in the employee's personnel file.

N. Completion of the Hiring Process for New Employees

The Office of Human Resources will take the necessary steps to hire the new employee and complete all of the requirements for employment.

O. Acting and Interim Positions

Vacant positions may be filled on a temporary basis by interim appointments upon approval by the appropriate administrative supervisor and the President.

Additional assignments to current employees are also appropriate on a temporary basis, and such assignments may qualify for additional compensation. (See appropriate bargaining agreement for specific information.)

Approved: January 20, 1993

Revised: June 18, 1997

Revised: June 21, 2006

Revised: March 15, 2017

Procedure

A. The following process is to be used in determining the procedure by which a department selects its Department Chair:

1. Acting as a committee of the whole, the full-time faculty in a department shall determine the procedure by which a Department Chair is selected for its department. Except for unforeseen circumstances, those eligible for the position of Department Chair are full-time, tenured faculty of Parkland College. In creating this procedure, the full-time faculty will decide among themselves, by common agreement, the selection method most appropriate for their department; however, they are charged with making the method fair and thorough. Among the options available for each department are:
 - a. Systematic rotation by full-time, tenured faculty to serve as Department Chair;
 - b. Regularly scheduled elections open to all interested and eligible full-time, tenured faculty;
 - c. A commonly agreed upon and appropriate selection method that includes unlimited consecutive terms for any one tenure and retention/non-retention options;
 - d. A commonly agreed upon and appropriate selection method that includes limited consecutive terms for any one tenure;
 - e. Departmental acclamation;
 - f. A combination of any of the above.

Whatever method is chosen, it must reflect a desire for diversity in leadership by systematizing the transfer of departmental management in a manner that is both timely and intra-departmentally consistent. To that end, each department is charged with developing a process (e.g., mentoring) in which interested and eligible full-time faculty will be acclimated to the duties and responsibilities of a Department Chair.

Additionally, to prepare for the possibility that a Department Chair position may become vacant at any time for unforeseen reasons (e.g., through sickness or resignation), the full-time faculty, acting as a committee of the whole, will include as a part of its deliberations an emergency procedure that is consistent with their non-emergency departmental policies for the selection of a Department Chair.

2. As the full-time faculty in a department, acting as a committee of the whole, develops its selection method, it will allow for appropriate opportunities for input from all legitimate departmental constituencies (e.g., part-time faculty, professional support employees, etc.);
3. When the full-time faculty in a department, acting as a committee of the whole, has reached agreement concerning their Department Chair selection process, they will, by the First of May, submit a copy in writing of that agreement to the Division Dean and Vice President for Academic Services for final approval:
 - a. If the Vice President for Academic Services does not grant final approval, he/she will consult with the Division Dean and the members of the department until a procedure is developed that is acceptable to both parties.
 - b. If the Vice President for Academic Services does grant final approval for the procedure, then a copy of the agreement will be kept on file in four areas:
 - (1) Office of the Vice President for Academic Services
 - (2) Office of Division Dean
 - (3) Office of Human Resources
 - (4) Office of the Department Chair for the department in question

4. If the full-time faculty in a department, acting as a committee of the whole, decides to amend, revise, or change its method of selecting and/or replacing a Department Chair, it may do so by following the process outlined in this section (Steps A1--A3).
- B. When the faculty have selected their candidate for Department Chair, the approval process shall proceed as follows:
1. The candidate will present to the Division Dean a summary of the candidate's credentials and a statement of the candidate's administrative philosophy and goals for the department;
 2. The candidate shall be interviewed by the Division Dean and by at least two other Department Chairs as designated by the Division Dean. The Dean will present a summary of their recommendations to the Vice President;
 3. The Vice President for Academic Services shall either recommend a candidate to the President as the new Chair of the department, with supporting information, or shall recommend to the President that the full-time faculty of the department in question continue the search;
 4. If a recommendation to continue the search is sent back to the department in question, the full-time faculty in the department may appeal the decision to the President of the college.
- C. The following procedure is to be used for the scheduled review of a sitting Department Chair:
1. In the fall semester of the Chair's final year in the position, the Division Dean shall collect evaluations of the performance of each Department Chair from the full-time faculty of the department in question and other appropriate sources; such evaluations will include a question about retention of the Chair (this question is to be placed on a separate page which will not be given to the Chair); the Dean will present a summary of the evaluations and recommendation for retention to the Vice President for Academic Services.
 2. If the Vice President for Academic Services determines that the department needs new leadership, the Vice President shall recommend to the President that the process for selecting a new Department Chair shall be set in motion;
 3. When the Vice President for Academic Services determines that renewal is appropriate, the Vice President shall recommend to the President that the Department Chair be retained for another year;
 4. After the Vice President's recommendation, the President shall either accept the recommendation or shall recommend that the search be initiated
 5. If a recommendation to initiate a search is sent back to the department in question, the full-time faculty in the department may appeal the decision to the President of the college.
- D. The following procedure is to be used if there is no chair candidate forthcoming from the department:
1. If no acceptable candidate for chair is found in accordance with the approved departmental chair selection procedure, the full-time faculty in the department will form a new chair selection committee to search for a chair from among full-time faculty members from all academic divisions.
 2. If no acceptable candidate for chair is found from the college-wide body of full-time faculty members in accordance with the approved departmental chair selection procedure, the Vice President for Academic Services will make a leadership recommendation to the President in the light of the needs of the college.

POLICY 4.08 ORAL ENGLISH LANGUAGE PROFICIENCY

The College recognizes that the ability to speak the English language clearly is an essential skill for faculty. Therefore, to assure that all Parkland faculty are proficient in oral English, the College has established procedures as per state law to insure proficiency.

Approved: January 20, 1993

Procedure

Current Faculty

Current faculty are assumed to have oral English language proficiency suitable to their teaching assignments.

If a faculty member's oral English language proficiency is called into question, these steps will be followed:

- A. The Department Chair will review the allegation(s) and report to the Vice President for Academic Services any finding that there is cause to assess the faculty member's oral English language proficiency.
- B. The Vice President for Academic Services will name a 3-person committee, with at least one person from the discipline, to assess the faculty member's oral English language proficiency. The process will include an interview with the faculty member, observation of his/her classroom performance, survey of students and other faculty, and other evidence deemed appropriate.
- D. If the faculty member is found not proficient in oral English language, s/he may be allowed to complete the current term but will not be given another instructional assignment until s/he is found to be proficient.

Full-Time Faculty: Full-time faculty will be placed on non-instructional assignment and be given one calendar year from the end of the current term to attain proficiency. If remediation has not occurred by that time, the faculty member will then be placed on suspension without pay for one calendar year. At the end of that time, if s/he has not attained proficiency, employment will be terminated. During this period, the faculty member will have access, without charge, to any educational opportunities available through the College (ESL or SPE courses, for example) that could assist in achieving proficiency. If the faculty member is not tenured the time spent on non-instructional assignment or suspension will not count toward tenure.

Part-Time Faculty: Part-time faculty will be paid through the end of their contract period and may be placed on non-instructional assignment during the remainder of the term. Thereafter, they will not be restored to the pool of candidates for part-time faculty assignments until they have attained oral English language proficiency.

NOTE: At any time during these procedures, a faculty member may certify proficiency in oral English language by submitting to the College a score of 230 or higher on the Test of Spoken English (TSE) published by ETS, Princeton, NJ.

Prospective Faculty

A prospective faculty member, before being offered an instructional contract, will be screened for oral English language proficiency as a part of the selection process. No person who is not proficient in oral English language will be offered an instructional contract.

The screening will be conducted through an oral face-to-face interview by the person or persons responsible for making the employment decision or recommendation. In the case of prospective full-time faculty, the search committee will have the responsibility; in the case of prospective part-time faculty, the Department Chair and/or other persons making the selection will have the responsibility.

Any prospective faculty member who receives a negative rating of his/her oral English language proficiency during the selection process must be notified of such finding and may request a review by the Vice President for Academic Services, who will name a 3-person committee to assess his/her oral English language proficiency. The committee will interview the candidate and may request the candidate to give a demonstration lecture and collect other evidence deemed appropriate to the assessment.

Also, at any time prior to or during the selection process, a prospective faculty member may present independent evidence of proficiency in oral English language by submitting to the College a score of 230 or above on the Test of Spoken English (TSE).

Any applicant assessed as lacking proficiency in oral English language will need to supply evidence of proficiency before being admitted to candidacy for future instructional openings.

POLICY 4.09 OUTSIDE COMMITMENTS

The primary responsibilities and obligations of the full-time faculty is teaching, learning, and advising; the primary responsibilities of the other full-time professional staff is to support the teaching, learning, and advising responsibilities of the College. Acceptance of a contract to become a full-time employee of the College obligates the staff member to devote his/her full-time professional services and individual skills to the College to support these efforts. Any outside commitments that interfere with these primary responsibilities and obligations are prohibited.

Revised: January 20, 1993

Procedure

If a person's outside activities interfere with contractual obligations and performance, the Department Chair/Supervisor is responsible for remediation and counseling with the faculty member/staff member. If such outside commitments continue after counseling and notification by the Department Chair/Supervisor, disciplinary action may occur pursuant to the applicable provisions of the contract and state law.

4.09.01 Course Work

Staff members are encouraged to improve their effectiveness by taking additional course work, provided it does not interfere with their obligations to the College. The staff member must notify the appropriate administrative supervisor before enrolling in outside course work. Not more than the equivalent of four credit hours may be taken simultaneously during a regular college semester without the administrative supervisor's approval; however, a staff member may enroll in a single class of five credit hours.

Staff members occasionally hold offices in these organizations which necessitate clerical or secretarial assistance. A detailed procedure for the redress of grievances is included in the Procedures section of this Manual. The following conditions apply to the grievance procedure:

- The member initiating the grievance may withdraw his/her grievance at any level without establishing a precedent.
- The position of the Grievance Committee should be considered a private matter between the Committee and the member with the grievance and should have no bearing on a decision made at any level within the procedure.
- All records and information concerning a grievance and its processing shall be considered highly confidential and shall not be discussed with uninvolved parties.
- All records dealing with the processing of a grievance shall be filed separately from the personnel files of the participants. When a grievance has been completely processed, the names of all participants shall be removed from the records.
- No reprisals of any kind shall be taken by the Board or the administration against a PCA member because of his/her participation in the procedure.

Revised: June 7, 1989
Revised: January 20, 1993
Revised: March 29, 2000
Revised: February 27, 2008

Procedure

A potential grievance exists when a member or associate member (herein called "the grievant") of the Parkland College Association claims there has been a violation, misapplication, or misinterpretation of a contract, or of any existing rule or policy of the College outside the scope of the applicable Collective Bargaining Agreement. This procedure also extends to staff members not represented by a collective bargaining agreement.

A. Time Increments and Time Limits

All time increments consist of weekdays when classes are in session; however, when a grievance is submitted less than ten (10) days before the end of the semester or summer session, time increments shall consist of all days when the College's offices are open.

Specified time limits in this procedure are maximum limits, and participants are encouraged to carry the procedure forward without delay. In unusual circumstances, time limits may be extended, and then only by written mutual consent of the grievant and the supervisor (herein called "the respondent"). Failure by the grievant at any step in the PCA grievance procedure to appeal a decision within the specified time limits shall be considered acceptance of the decision at the last completed step. Failure at any step in the PCA grievance procedure to render a written decision within the specified time limits shall allow the grievant to proceed to the next step.

B. PCA Grievance Committee

1. Membership

A committee of the PCA President, the Policy Manual Committee (except for those members who are Parkland College Vice Presidents), and the office of Human Resources (or a designee if the member of Human Resources is an involved party) shall be known as the PCA Grievance Committee. The PCA President will serve as chair of this committee. This committee will have three votes, one by the PCA President, one by the office of Human Resources (or a designee if the member of Human Resources is an involved party), and one from the Policy Manual Committee.

2. Responsibilities

The PCA Grievance Committee seeks to facilitate the resolution of the grievance while assuring both the grievant and the respondent fair and equal treatment; the PCA Grievance Committee does not act as advocate for either the grievant or the respondent; rather, the committee guides the grievance through the procedure outlined below. The committee maintains a file of documents pertaining to the grievance, including all written appeals and responses. It may also keep any other materials it deems necessary for a complete record.

3. Conferences

The PCA grievance procedure requires up to two (2) conferences. Conferences are intended to permit open, free, and full exchange among the committee, grievant, and respondent. It is expected that all parties to a grievance will enter into the conferences in the spirit of mutual respect and with an earnest desire to seek resolution. Every effort will be made to schedule the conferences at times that do not interfere with the assigned duties of the PCA members whose presence is necessary at the conferences. If conferences must be scheduled at times that conflict with duty assignments, PCA members shall be released from those assignments to attend the conferences without loss in pay.

4. Procedure

Step 1

Within twenty (20) days of the event or consequences of the event (or of the grievant's awareness of the event and/or consequences thereof) giving rise to the grievance, the grievant must submit a written, signed grievance to the respondent, who may provide a written, signed response to the grievant within two (2) days. The response shall include the reason(s) for the decision(s) that gave rise to the grievance.

Step 2

Within five (5) days of receipt of any documents, the President of the PCA shall activate the PCA Grievance Committee, and shall inform, in writing, all parties involved that a formal complaint has been received.

Step 3

Within ten (10) days after its activation, the PCA Grievance Committee shall schedule a one hour thirty minute time block to meet with the grievant and any witnesses the grievant may wish to have testify which will be immediately followed by a one hour thirty minute time block to meet with the respondent and any witnesses the respondent may wish to have testify. Only the committee, the grievant, and his or her witnesses may be in the room during the first time block. Only the committee, the respondent, and his or her witnesses may be in the room during the second time block. If either the grievant or respondent has individuals in the session not included as just described, the PCA President shall ask the individuals to leave the room. Within three (3) days, the PCA Grievance Committee shall write a response to the grievant, either (1) agreeing that the identified contract, rule or policy has been violated or advising the grievant that the identified contract, rule or policy has not been violated and that no valid grievance exists.

If the first committee finds that a valid grievance does exist, the committee files with the College President a written appeal of the respondent's decision at Step 1; copies of all accumulated formal documents shall accompany the appeal. Within five (5) days of filing this report, the College President will file a written report with the grievant and the committee which details his or her intended actions based on the committee's findings.

If, in the case of a negative decision, the grievant is not satisfied with the committee's opinion, the grievant may, within two (2) days of receipt of the decision, appeal in writing to the College President who, within five (5) days of receipt of the appeal, shall chair a three member Grievance Committee, serving as a second PCA grievance committee, which shall, within five (5) days after its formation, review the relevant documents and render a written decision to the grievant. The College President shall schedule a one hour thirty minute time block to meet with the grievant and any witnesses the grievant may wish to testify which will be immediately followed by a one hour thirty minute time block to meet with the respondent and any witnesses the respondent may wish to have testify. Only the committee, the grievant, and his or her witnesses may be in the room during the first time block. Only the committee, the respondent, and his or her witnesses may be in the room during the second time block. If either the grievant or respondent has individuals in the session not included as just described, the College President shall ask the individuals to leave the room. In addition to the College President, the committee will consist of the President of the Board of Trustees and the College Vice President responsible for supervising the grievant, unless said Vice President is directly involved in the grievance. If the Vice President for Academic Services is directly involved in the grievance, the Vice President for Student Services will serve, while if the Vice President for Student Services is directly involved in the grievance, the Vice President for Administrative Services/Chief Financial Officer will serve, and if the Vice President for Administrative Services/Chief Financial Officer is directly involved in the grievance, the Vice President for Academic Services will serve. (However, if the college President is directly involved in the grievance, the grievant may, within five (5) days of receipt of the decision, appeal in writing to the President of the Board of Trustees. The President and Vice President of the Board of Trustees, serving as the second grievance committee, shall schedule a one hour thirty minute time block to meet with the grievant and any witnesses the grievant may wish to have testify which will be immediately followed by a one hour thirty minute time block to meet with the respondent and any witnesses the respondent may wish to have testify. Only the committee, the grievant, and his or her witnesses may be in the room during the first time block. Only the committee, the respondent, and his or her witnesses may be in the room during the second time block. If either the grievant or respondent has individuals in the session not included as just described, the President of the Board of Trustees shall ask the individuals to leave the room. Within three (3) days, the second PCA Grievance Committee shall write a response to the grievant, either (1) agreeing that the identified issues contract, rule, or policy, have been violated advising the grievant that the identified issues contract, rule, or policy was not violated and that no valid grievance exists.

If the second committee finds that a valid grievance does exist, the College President will file a written report, with five (5) days, with the grievant and the PCA President in response to the grievance. If the second committee finds that a valid grievance does not exist, the PCA grievance process is terminated. (If the College President is directly involved in the grievance and the committee finds that a valid grievance exists, the hearing committee (the President and Vice President of the Board of Trustees) will submit in writing to the College President, the grievant, and President of the PCA a report of its findings. However, if the committee finds that a valid grievance does not exist, the PCA grievance process is terminated.

C. Disposition of documents related to the grievance

At the conclusion of the grievance, the official copy of the documents comprising the grievance file shall be forwarded to the Human Resources for retention, in accordance with statutory requirements and College policy. Access to this file shall be restricted to the principals involved in the grievance and their legally authorized representatives.

D. No reprisals

No reprisals of any kind shall be taken by the Board of Trustees, the College administration, the PCA, or any member of the PCA against anyone because of participation in any portion of this grievance procedure.

F. Withdrawal of grievance

The grievant may withdraw the grievance at any time during the grievance procedure, with written notification to the Chair of the PCA Grievance Committee, who shall inform, in writing, all involved parties. One set of documents related to the grievance up to the point of withdrawal shall be forwarded to Human Resources; all others shall be destroyed.

POLICY 4.16 PART-TIME TEACHING LOAD

A part-time instructor, who is not working full-time or its equivalent elsewhere, may teach a maximum of 12 equated contact hours. (Note: this is understood to refer to a maximum and not a normal, continuing part-time load assignment.)

A part-time instructor, who is working full-time or its equivalent elsewhere or at Parkland College, is governed by the same extra or overload class policies as regular full-time faculty. Therefore, it is understood that the part-time teaching assignment will be executed at hours outside of the individual's full-time regular working hours. Assignment of equated contact hours to a full-time Parkland College staff member is considered an outside commitment and is, therefore, subject to Policy 4.09.

Approved: January 20, 1993
Revised: February 17, 2010

Procedure

Non-credit Community Education and Business Training hours for part-time faculty are not related to equated contact hours. Chairs will use their best judgment to insure overall balance and fairness in such assignments.

POLICY 4.17 CLERICAL ASSISTANCE FOR PROFESSIONAL ORGANIZATIONS

Members of the staff may assist faculty/administrators with clerical work arising from membership in a professional organization provided the work is reasonable in terms of its scope and does not interfere with Parkland work. Reimbursement of any expenses incurred during the course of this work is to be brought to the attention of the employee's supervisor.

CHAPTER 5 - INSTRUCTIONAL ISSUES

POLICY 5.01 CURRICULUM DEVELOPMENT

The PCA Curriculum Committee is responsible for reviewing the development and revision of courses and instructional programs at the College. Procedures are established which assess and fulfill those community and educational needs which are within the scope of the community college. Recommendations for changes and additions to the College curriculum are reviewed by the Committee prior to presentation to the Vice President for Academic Services.

Approved: September 19, 1984
Revised: June 7, 1989

The policies and procedures for the PCA Curriculum Committee are located in Appendix H of this Manual.

5.01.01 Course Outlines

(Based on ICCB Rules) The official master set of signed course outlines shall be maintained in the office of the Vice President for Academic Services for ICCB and public and student inspection. Each course outline on file shall be dated within three years of the current date. (It is understood that when a course outline changes, the updated version is placed in the master file.) Each department office shall have a duplicate copy of the course outlines for which it is responsible. Each course outline shall contain the course description (matching that in the catalog), specific objectives of the course, a topical outline, and the method for evaluating student performance. Each course outline shall be professionally prepared in accordance with Curriculum Committee guidelines. This is essential because copies are routinely sent externally to ICCB and the state universities.

5.01.02 Course Syllabus

During the first week of class, instructors will provide students with a course syllabus (printed or electronic).

Procedure

The syllabus will contain the following information:

1. Faculty member's name, office location, office hours, Parkland email address, and office telephone number.
2. Course description.
3. Required text and materials.
4. Highlights of course-specific and General Education learning outcomes (from the Course Information Form).

4. Required writing and/or projects.
5. Quiz/examination information and schedule.
6. Any other requirements, rules, or expectations online and in-class, e.g., penalties for late work, term paper requirements, student-teacher conferences, classroom behavior expectations, etc.
7. Program outcomes connected to the course.

Instructors are also encouraged to include or link to:

1. Expectations related to communication response time and feedback on course work.
2. Additional costs.

5.01.03 Recording in the Classroom

General Statement. Students who wish to record classroom learning activities must request permission from the instructor prior to doing so. Classroom learning activities include lectures, in-class discussions, student presentations, and other course-related activities at Parkland College. This policy covers all forms of recording using available technology. The instructor should specify the kinds of learning activities that are permitted to be recorded and the

medium in which the recording takes place. The instructor has the right to deny or limit the request.

Accommodations under the ADA. Students are allowed to record learning activities as an accommodation under the American with Disabilities Act (ADA) if the Disability Services ID card issued by the Office of Disability Services is presented to the instructor prior to recording. Students who request recording permission under the ADA must not be denied permission.

Limited permission. Permission for recording of learning activities in the classroom is given exclusively for the student's personal study and review and must not be used for other purposes. Class content and instructional methods are the sole intellectual property of the instructor and subject to copyright law. Distribution (electronically or in other forms) of the recording is prohibited without additional written permission from the instructor.

Sanctions for violations. Violations of this policy are subject to disciplinary action. The instructor has the right to impose grade-related penalties. In the case of egregious violation of this policy, the instructor in consultation with the department chair has the right to fail the student in the course. The student who fails the course directly as a result of an egregious violation of this policy is not permitted to withdraw from the course.

Student right to know. Students have the right to know that their class is being recorded. The instructor will notify the class that permission has been given for a recording without identifying the individual student(s) requesting recording permission.

PROCEDURE

Syllabus Statement

The General College Syllabus will include a statement that specifies the following: (i) Students who wish to record classroom or other learning activities must request permission from the instructor prior to doing so; (ii) Permission is given solely for the purpose of personal study and review and the recording may not be used for any other purposes without the express written consent of the instructor; (iii) Students are permitted to record learning activities as an accommodation under the ADA if the Disability Services ID Card is presented to the instructor prior to recording.

Repercussions of Violations

When a student has violated this policy about recording in the classroom, the instructor will take the following steps to address the violation:

- The instructor will inform the student privately of his/her findings and attempt a resolution of the problem. Depending on the nature of the violation, such resolution could include an instruction to destroy the recording, a sanction of deduction of points, or failure of the course. A sanction of course failure requires prior consultation with the Department Chair.

Appeal Process

If the student is not satisfied with the decision of the instructor regarding the violation of this policy, he or she has the right to pursue one or more of the following levels of appeal:

- If the student is not satisfied with the instructor's decision, he/she may contact the Department Chair or designee (e.g., Program Director) within 10 school days of notification of the instructor's decision. The Department Chair will review the actions taken by gathering all relevant information from the student and the instructor. The Department Chair will meet with the student and the instructor, together or separately, to attempt to resolve the issue to both parties' satisfaction.
- If the student is not satisfied with the Department Chair's decision in relation to resolving the issue, he/she may contact the Division Dean within five (5) school days of receiving the Department Chair's decision. The Division Dean will review the actions taken based on relevant information from the student, the instructor, and department chair. The Dean will affirm the instructor's decision or remand the issue back to the department for review.
- If the student is not satisfied with the Division Dean's decision, he/she may petition the Student Affairs Committee within five school days of receiving the Dean's decision. The committee will review the process followed by the department and division to determine whether it has been carried out completely and fairly, in accordance with due process. If it has not been, the case will be remanded to the department for reconsideration following the appropriate guidelines. If all procedures have been followed appropriately and

no errors detected, the appeal process is complete and the consequences of the incident will remain the same as originally issued.

No reprisal shall be taken by the Board of Trustees, Administration, faculty, or staff against any student or faculty because of participation in an appeal.

Revised: March 15, 2017

POLICY 5.02 INSTRUCTIONAL MATERIAL SELECTION

The selection of instructional material is the responsibility of the faculty of the College. Textbooks for each course are selected by faculty in consultation with their Department Chairs, and according to the adopted criteria and procedures of the College. Considerations are given to have all instructional material relevant to the curriculum and adaptable for use for a reasonable period of time.

Ordinarily, the same text must be used in all sections of a course; however, if a faculty member judges his/her professional needs would be better served by a different text, he/she may adopt an alternative text after consulting his/her Department Chair and Vice President for Academic Services for approval on technical matters such as reading level, costs, and format.

Approved: September 19, 1984
Revised: June 7, 1989
Revised: January 20, 1993

Procedure

Textbooks must be ordered by the following dates to insure their delivery:

Fall SemesterMay 1
Spring Semester.....November 1
Summer SessionApril 1

A textbook order form must be approved by the Department Chair before it is sent to the Bookstore.

Desk copies for faculty use are to be secured directly from publishers.

POLICY 5.03 ATTENDANCE

Because regular, punctual attendance is considered necessary for success, students are expected to punctually attend all meetings of classes in which they are enrolled. Faculty have the prerogative of lowering grades for unexcused absences. Additionally, the Illinois Community College Board requires faculty to certify the attendance of students at midterm.

Procedure

See "Grade Reports" in procedures for Other Institutional Issues.

5.03.1 Absences Due to Religious Observances

Parkland College recognizes and values the diverse religious beliefs of its constituents and practices shared responsibility in the event a religious observance conflicts with scheduled class work or assignments. Students who inform instructors well in advance of an intended absence for a religious observance will not be penalized. The instructor will make reasonable accommodations for students in these situations; these may include altering dates of examinations and assignments, permitting a student to attend another section of the same course for a class period, or similar remedies. Instructors are not responsible for teaching material again. Instructors should inform students of these expectations at the beginning of the semester so that arrangements can be made accordingly. Grievances pertaining to the Religious Observances policy shall be handled according to Policy 8.15 Student Grievances.

Approved: July 17, 2013

POLICY 5.04 CHILDREN IN THE CLASSROOM

It is understood that the mission of the college is to provide an atmosphere that is as free as possible from outside distractions and disruptions.

In order to maintain this environment, unaccompanied/unauthorized minor children are not allowed on the campus. To protect children from possible injury and to maintain a safe, secure learning environment, children are not permitted in classes and are not to be left unsupervised anywhere on campus, including employee work areas.

Approved: January 20, 1993
Revised: December 21, 2005

POLICY 5.05 GUEST CLASSROOM APPEARANCES

In order to insure balance and appropriateness, faculty wishing to have guest lecturers in their classes should notify the Department Chair and the Vice President for Academic Services at least two days in advance. The appearance of political candidates requires special sensitivity to insure objectivity and balance; therefore the specific procedures for political candidates should be followed.

Approved: January 20, 1993

Procedure

Faculty members who desire to have guest lecturers in their classes should notify their Department Chair and the Vice President for Academic Services at least two days in advance by memo or a telephone call. The College does not pay honorariums or expenses for such classroom appearances.

The following procedures are for scheduling political candidates as guest speakers in classroom situations:

1. Care must be exercised at all times to ensure that a balanced view is represented by candidate guests; i.e., opposing candidates competing for a specific office are to be scheduled.
2. Potential candidate guests of different political parties are simultaneously sent a written invitation with the proposed date and time of their respective appearances.
3. Copies of the invitation are forwarded to the appropriate Department Chair and Vice President for Academic Services at least ten days prior to the scheduled appearance.
4. In the event a candidate guest declines an invitation or is otherwise unable to appear, a substitute candidate or officeholder of that party will be scheduled.
5. Candidate guests are scheduled closely together in a particular class.
6. All candidate guests are briefed before their appearance by the class faculty member and emphasis is placed on the following:
 - a. The primary reason for the guest lecturer is to provide an appropriate learning experience for the students.
 - b. The appearance is not to be used as a political podium; i.e., the candidate will not:
 - Attempt to recruit campaign workers.
 - Dispense campaign literature, buttons, or other partisan materials.
 - Solicit political campaign funds.
 - Create an impression that his/her candidacy is either opposed or supported by the class faculty member.

POLICY 5.06 FIELD TRIPS - INSTRUCTIONAL

Field trips are an integral part of the instructional program. A field trip is defined as any instructional activity that is away from the College campus, and lasts longer than the regularly scheduled class time or involves out of district travel. Faculty members must plan field trips according to the adopted procedures of the College.

Approved: September 19, 1984
Revised: January 20, 1993

Procedure

The College recognizes field trips as an appropriate experience that supplements classroom instruction. The following rules and procedures apply:

1. Faculty members must take into consideration the total College program and not plan numerous field trips that would cause students to miss an excessive number of other classes. Normally, field trips are limited to one class day away from the campus. Extended field trips may be taken only under special circumstances.
2. Faculty members must complete a field trip form from the Department Chair's office prior to the trip.
3. Faculty members must have all field trips approved by the appropriate Department Chair; all out-of-district field trips must be approved by the Vice President for Academic Services.
4. Students must make their own arrangements to attend field trips within the District. Faculty members should coordinate travel arrangements to insure that everyone has an opportunity to attend.
5. Travel expenses (transportation) for the faculty sponsor for approved field trips outside the District are paid by the College. (See Travel.)

Students participating in ski trips, conferences, conventions, and other trips to facilities located outside the District shall complete an Off-Campus Field Trip Registration Form, available in the Office of Student Life, and submit the completed form to the faculty advisor of the organization prior to departure. (See Section 8.18 of the Policy Manual)

POLICY 5.07 PROGRAM REVIEW

The Vice President for Academic Services and the academic departments are jointly responsible for academic program review, which is coordinated by the Office of Institutional Accountability and Research as outlined by the Illinois Community College Board. The Support Assessment Committee is responsible for review of institutional services in coordination with the Office of Institutional Accountability and Research.

Approved: June 7, 1989
Revised: March 18, 1998

POLICY 5.08 PROGRAM, FACULTY, AND STUDENT EVALUATION

All students are evaluated concerning their success in the instructional program, and the quality of all instructional programs is continuously evaluated.

Student evaluation forms will be administered each semester in every section taught at Parkland. The student evaluation instrument may contain questions designed to collect both quantitative and qualitative feedback concerning faculty performance.

Approved: September 19, 1984
Revised: June 20, 2007

POLICY 5.09 INTELLECTUAL FREEDOM

Intellectual freedom at the College is guarded as a vital right of humankind. Parkland College, in educating adults for full participation as citizens has an obligation to encourage free discussion and inquiry in the pursuit of truth. Recognizing that only in the free exchange of ideas can the maximum potential of any educational institution be reached, the faculty and students are urged to study any and all issues and problems. Consistent with this belief, the following principles are held by the Board of Trustees:

- Free discussion is a right extended to thoughtful citizens, but no one has the right to abuse this freedom by advocating overthrow of the government by force.
- A free society functions efficiently only if its citizens have the right to discuss, to debate, and to disagree constructively.
- An educated citizenry, fully aware of all the evidence, is best able to preserve the valuable heritage of American

democratic institutions.

- The College has an obligation to the community to promote healthy discussion as an educative force.
- The American way of life is attractive enough and its institutions sturdy enough to stand comparison with any which exist in any culture.
- The truth prevails in the marketplace of ideas.

Consistent with these principles and within the framework of the orderly processes of our democratic constitutional society, the faculty have freedom to consider all issues which contribute to the development of the students. The criteria to be followed in selecting issues for study are as follows:

- The issue should contribute to the prescribed course of study, and be consistent with the general educational objectives of the College.
- The issue should be of sufficient interest to encourage participation by the students.
- The issue should provide opportunity for critical thinking, tolerance, and understanding of conflicting points of view.
- The issue should be one about which sufficient information is available to allow for discussion and evaluation on a factual and reasonable basis.

Pursuant to these criteria, presentation in open forum of speakers with varying points of view on current issues, some of which may be controversial, may be undertaken by the Board of Trustees and administration in fulfilling their obligation as an educative force in the community. In such a forum, any program involving an issue or a person deemed to be controversial or extreme will follow the pattern of joint discussion, care being taken to insure a balanced presentation.

If, in the opinion of the Board and administration, certain activities will endanger the lives and property of individuals, approval of the use of College facilities may be withheld.

Approved: September 19, 1984
Revised: June 7, 1989

POLICY 5.10 FINAL EXAMINATION REQUIREMENT AND CONFLICT RESOLUTION

Students are required to take their final examinations at the times and places scheduled. Conflicts may be resolved by arrangement with the faculty member. Three examinations scheduled for the same day is considered a conflict. Alterations of officially scheduled times for examinations are likely to create inconvenience and hardship for students, and ill will toward the College; therefore, it is important that faculty adhere to the final examination schedule, and that no final examination be required of students except during examination week.

It is also recognized by the College that a final examination is an important part of the instructional process; therefore, in most instances faculty are expected to provide students with some form of final examination.

Approved: January 20, 1993

Procedure

A final examination should be expected in each credit course at Parkland College. Final examinations for all full-term courses are to be given during final exam week according to the official published schedule. Such final examinations are not to be given early during regular class periods. In courses where a final examination is not appropriate as determined by the department, an educational alternative scheduled during the week of final examinations is expected. Any requests from faculty to alter scheduled final examination times or dates must be reviewed and approved by the Department Chair and the Vice President for Academic Services. Final examinations for all credit courses less than a full-term in length will be administered at the last scheduled class meeting.

POLICY 5.11 GRADUATION REQUIREMENTS

The College is authorized to grant the following degrees to regularly matriculated students who successfully complete the requirements of certain prescribed two-year curricula:

- Associate in Arts
- Associate in Applied Science
- Associate in Engineering Science

- Associate in Fine Arts
- Associate in General Studies
- Associate in Science

Degree candidates must fulfill the requirements established for graduation as set forth in the College Catalog.

Certificates are granted in a number of career fields to students who complete the required courses according to prescribed standards developed by the College.

Approved: September 19, 1984
Revised: December 21, 1994

5.11.01 Graduation Ceremony

Each department is to have at least one representative member present at the commencement program. The Department Chair selects those to be present in consultation with the faculty.

5.11.02 Late Graduation Petitions

Students who submit petitions to graduate after the official deadline published in the College Catalog and the Class Schedule will be considered for graduation during the next graduation petitioning time period. The College will not award degrees retroactively or "backdate" diplomas.

The Admissions and Records Office may accept petitions to graduate up to one week after the official deadline for Spring Semester and up to two weeks after the deadlines for other semesters/sessions for students with extenuating circumstances.

If all graduation requirements have been completed, the Admissions and Records Office will, upon request, provide a letter stating that all graduation requirements have been completed and giving the date on which graduation will be posted on the student's transcript.

Appeals may be made in writing to the Student Affairs Committee if the student believes the College is responsible for the lateness of the petition. The Student Affairs Committee will recommend action to the Vice President of Academic Services if the College is determined to be responsible. If the College is not determined to be responsible, the appeal will be denied by the committee.

5.11.03 Honors Regalia

Officially recognized Parkland student organizations affiliated with national organizations with established academic criteria may request that graduating students among their membership who have achieved the organization's academic standards be permitted to wear honors cords, pins, medals, or stoles with their academic regalia at Commencement, thus designating academic excellence.

Approved: November 20, 2012

Procedure

Requests are to be submitted in writing by the officers of the student organization to the Vice President for Student Services, along with a depiction of the requested accessory no later than December 1 for the following May commencement ceremony. A determination in response to the request will be made by the Executive Team of the college. A minimum cumulative GPA of 3.0 will be required for consideration by the Executive Team. If approved, the accessory shall be added to a list of approved regalia maintained by the office of the Vice President for Student Services.

Approved: November 20, 2012

POLICY 5.12 REQUIREMENTS FOR SECOND DEGREE AND/OR CERTIFICATE

A student may earn only one A.A. degree, one A.S. degree, one A.F.A. degree, or one A.E.S. degree. Because the Illinois Articulation Initiative (IAI) General Education Core Curriculum requirements are not satisfied by completion of the A.S., A.F.A. or A.E.S. programs, a student who first receives any of these degrees may complete an A.A. degree upon successful completion of 15 additional Parkland credit hours, including all IAI General Education Core Curriculum

requirements. There are no restrictions on the number of Certificates or A.A.S. degrees a student may earn. Additional A.A.S. degrees require 15 additional Parkland credit hours per degree.

Approved: September 19, 1984
Revised: June 7, 1989
Revised: July 20, 2016

POLICY 5.13 ACADEMIC RECORD EXCLUSION

Parkland College recognizes that students may return to the College after an absence of at least two years and be seriously encumbered by a prior academic record that is exceptionally poor, i.e., consisting primarily of D and F grades. The College further recognizes that for a variety of reasons a student's prior record may not accurately represent the student's current abilities and commitment to education. Possible reasons for the poor previous performance may include, but not be limited to, immaturity, personal crisis, or unclear vocational/educational goals. In such cases, the College acknowledges that it may be reasonable to exclude all of the prior record from the computation of the student's cumulative grade point average. (The grades are not expunged from the student's record.)

Approved: November 12, 1991
Revised: February 22, 2012

Procedure

Students may only request academic record exclusions for records which are at least two years old.

A student seeking academic record exclusion will submit her/his request in writing to the Dean of Learning Support. A thorough justification for an exemption as well as the precise identification of the semester(s) affected will be included with the request.

Prior to the request, the student must have completed at least 15 credit hours at Parkland College within a maximum of two calendar years.

The Dean of Learning Support will review the student's academic record and the supporting statements and rule on the request.

If academic record exclusion is not granted, the student may request an appeal of the Dean's decision. The appeal will then be sent to the Student Affairs Committee for review.

If academic record exclusion is granted, the Dean will insure the student's cumulative record clearly indicates what enrollment period of the record will be exempted from GPA calculations. Approved academic record exclusion requests will be permanently maintained in the registrar's office.

Exemptions will apply to all of the credits attempted or completed during the exempted period of enrollment. Only Parkland College courses may be exempted.

Note: Colleges to which students transfer may or may not accept the GPA calculated after academic exclusion has been granted and may recalculate the GPA depending on their policies.

POLICY 5.16 GRADUATION WITH HONORS

As a way to recognize students who have demonstrated academic excellence in the pursuit of their higher education, Parkland College will publicly acknowledge those graduating students who have achieved at least a 3.50 program GPA based on a minimum of 30 program hours of 100-299 level course work at Parkland with one of three distinctions, as described in the following table:

Cumulative Program GPA at Graduation	3.5 up to 3.749	3.75 up to 3.999	4.0

POLICY 5.17 GUARANTEE OF EDUCATIONAL EFFECTIVENESS

5.17.01 Occupational Programs

Parkland College upholds the highest standards of excellence by guaranteeing technical competencies, represented in the award of the Associate of Applied Science (A.A.S.) Degree, for all occupational program graduates, as a commitment to the College's students, faculty, staff, and the community.

Under this Guarantee, Parkland College shall warrant the technical competence needed for entry into training-related employment for each student who completes the appropriate A.A.S. Degree. A program graduate who is considered by his/her employer to be lacking in the entry-level technical skills which are specified in the Guarantee for that curriculum shall be provided up to 12 tuition-free credit hours of training in the program completed by the student.

Approved: June 16, 1993

Procedure

A. Conditions

1. All competencies incorporated in coursework taken at Parkland College, and applied to a guaranteed A.A.S. Degree, will be included in the Guarantee. Additionally, credits for coursework completed at other postsecondary institutions will be included in the Guarantee, provided that Parkland College has accepted the transfer course content as equivalent to Parkland coursework and applied the credits toward graduation requirements for a guaranteed occupational curriculum.
2. The employee must have graduated within a specific time period from the date of enrollment in the first core

course (i.e., excluding general-education electives) required for the guaranteed program. The time limit for program completion is four years for an A.A.S. Degree.

Petitions for exceptions to this time limit may be submitted to the appropriate Department Chair, who may, at his/her discretion, arrange for a proficiency examination or other means of determining that technical skills are up-to-date.

3. The graduate must be employed at least 20 hours per week, in a job directly related to his/her program of study, within 18 months of earning an A.A.S. Degree at Parkland College. All training-related work that begins within 18 months will be eligible under the Guarantee, regardless of previous employment.
4. Either the employer or the graduate can initiate discussions related to calling the Guarantee by citing a deficiency of specific entry-level technical skills within the competency area(s) covered by the Guarantee. The employer (graduate, if self-employed) must verify the deficiency in writing within 90 days of the initial work day.
5. For occupations requiring licensure/certification as a prerequisite to employment, the graduate must pass the mandated examination(s) within two attempts, in order to be eligible to call the program guarantee.
6. The sole recourse available to participants enrolled in this Guarantee program shall be limited to access to the components of the individualized retraining plan, and shall not include recourse for damages, court costs, or any associated incidental or consequential expenses or claims of any kind.
7. This Guarantee becomes effective with students who graduate in May 1994, or later.

B. Procedures for Calling the Guarantee

1. The Guarantee may be called by the employer and/or the graduate, or by the graduate, if self-employed, within 90 days of the graduate's first workday.
2. All requests are to be filed with the Dean of Career and Technical Education at Parkland College.
3. The request will be forwarded to the Department Chair, who, in consultation with appropriate program faculty, will validate it.
4. An individualized retraining plan will be developed, based on the graduate's needs, as determined through discussions involving the graduate, the employer, a designated instructional administrator (e.g., Department Chair), and the program director/faculty member for the graduate's specialty area. The components of the plan may include (but will not be limited to) one or more of the following options:
 - a. specially-designed independent study experience
 - b. audited course
 - c. appropriate regularly-scheduled credit course, or a portion of the course covering a needed competency
 - d. customized training
 - e. counseling
5. Costs for tuition and course/lab fees will be waived by the College, up to a maximum of 12 credit hours (or equivalent). The employer will be responsible for incidental expenses of retraining, such as textbooks, tools, equipment, and supplies.
6. All elements specified in the individualized retraining plan must be completed within one calendar year of the first retraining day. The employer must provide accommodations, as needed, for the graduate's work schedule, in order to ensure that retraining can be completed within one year.
7. The appropriate College official will certify that the retraining plan has been completed.

5.17.02 Transfer Courses

Parkland College upholds the highest standards of excellence by guaranteeing positive outcomes for its curriculum offerings. In accordance with this premise, Parkland College shall guarantee that all academic credits earned with a grade of "C" or better and defined as transferable to a specified four-year college/university will, in fact, be accepted in transfer by that senior institution. If an identified transfer course is not accepted in transfer, then the eligible student is entitled to a refund of tuition for the course, at the rate that was in effect at the time when the course was completed. The guarantee applies to students who fulfill the requirements for a baccalaureate-oriented associate degree.

A. Conditions

1. A transfer course is defined as any course that is listed as transferable in the four-year institution's official curriculum guide. The course must also be listed as a transfer course in the Guarantee Contract signed by a Parkland College Counselor.
2. The Guarantee implies that credits earned through completion of a course identified as transferable will transfer to the four-year institution specified on the Guarantee Contract. However, only the four-year institution will determine how the credits apply to fulfillment of specific baccalaureate degree requirements.
3. The Guarantee applies to all transfer courses taken at Parkland and completed by the student with a grade of "C" or higher.
4. The student must earn an associate degree in an appropriate transfer area, in order to be eligible for the Guarantee.
5. The student must meet with a Parkland College Counselor to select appropriate transfer courses.
6. The student must sign, along with a Parkland College Counselor, a Guarantee Contract that outlines the courses that may be taken for transfer to the specified four-year institution.
7. The student must obtain approval from a Parkland College Counselor, prior to enrollment in transfer courses during a given term.
8. The student must transfer to the four-year college/university specified in the Guarantee Contract within three years after the date that the Guarantee is signed.
9. All refund requests must be submitted to Parkland College within four years after the date that the Guarantee is issued.
10. If a refund of tuition is due to a student, based upon the Guarantee, then Parkland College will authorize a refund of tuition, calculated at the rate that was in effect when the student completed the course(s).
11. No refund is required or will be made if a scholarship, financial-aid program, loan, or any other third-party source was used to pay the tuition for the course(s) in question.
12. The Guarantee provides exclusively for the refund of tuition for the eligible course(s). The Guarantee does not cover course fees or any other incidental/consequential expenses or claims.
13. The Guarantee applies to four-year colleges/ universities that are specified on the Guarantee Contract. Eligible institutions are those for which Parkland maintains a course equivalency table and/or transfer guide. (Note: Course equivalency tables are generally available only for Illinois colleges/universities. However, individuals transferring to some out-of-state institutions may be eligible for the Transfer Guarantee, provided that articulation agreements have been signed with these colleges/universities.)

B. Procedures for Calling the Guarantee

1. The Guarantee may be activated through a written request to the Director of the Counseling and Advising Center at Parkland College, along with appropriate documentation that specific credit is not transferable, including: a) a letter stating which credits did not transfer; b) a letter from the transfer institution stating why the course(s) did not transfer; and c) the name, position, address, and phone number of the individual who notified the student that credits would not be accepted for transfer.
2. If the Guarantee is called, the College will check the course equivalency tables that were in effect at the time that the student completed the course(s), and at the time that the transfer was attempted, in order to verify that the credits should have transferred.
3. The College will contact the baccalaureate institution in an effort to negotiate a resolution. The College will discuss with the four-year college/university the possibility of obtaining a reversal of the four-year institution's earlier decision not to accept credits in transfer. During this process, the student is responsible for cooperating with Parkland personnel in resolving any transfer difficulties by submitting any necessary consents or releases for student records or correspondence.

4. If the four-year institution's decision stands, the College will provide a refund of tuition to the student within a reasonable time period, usually 90 days.

PROCEDURES FOR OTHER INSTRUCTIONAL ISSUES

Course/Section Cancellation Procedures

In August of each year, Deans and Department Chairs/Directors shall review the offer report to determine:

1. Which, if any, programs have insufficient enrollments to merit admittance of a beginning class. (Students should be given advance notice, when possible, to pursue alternate programs or plans.)
2. Which, if any, sections of multi-section courses need to be combined due to more efficient scheduling.
3. Which, if any, elective courses need to be withdrawn because of negligible enrollments. (Students should be given advance notice, when possible, to make alternative elective course plans.)

Note: Deans with Department Chairs in their divisions shall monitor and review the offer report to determine when additional sections should be created due to increased enrollments.

In the week prior to the first day of classes, Deans and Department Chairs in their divisions shall meet to review the course offerings for that department. This review results in one of three decisions:

1. Section has sufficient enrollment to be offered.
2. Section has insufficient enrollment and is withdrawn.
3. Section currently has insufficient enrollment but due to extenuating circumstances, the decision is placed on hold until a specified later date or a specified enrollment is reached but within college registration deadlines.

The Academic Scheduler is informed which sections are to be withdrawn.

When sections are withdrawn:

1. The Academic Scheduler informs Department Chairs, Admissions and Records, Publications Office, Switchboard, Bookstore, and Physical Plant on a regular basis.
2. Each Department Chair is encouraged to notify the affected students by phone, when possible, or by email. Students are notified of the situation to discuss possible alternatives and rescheduling information. Each Department Chair develops a plan involving departmental faculty to advise and drop/add the students by phone, if possible. Students will also be sent a computer-generated letter officially informing them of the class cancellation and providing appropriate information.
3. Students may contact advising/counseling to reschedule by phone or in person. To reschedule entirely by phone, the student must enroll in a class or classes of equal or fewer credit hours than the section(s) being withdrawn. Any difference in tuition and/or fees will be remitted to the student by mail.

All classes that begin later in the term follow a process similar to the above.

ALS Course Credits

ALS (Applied Learning Skills) credits do not apply toward A.A. or A.S. programs. A maximum of 8 ALS credits may be applied toward the general electives in A.A.S. and certificate programs. The sponsoring departments determine which ALS courses may be applied, since 090 level credits do not count towards A.A.S. and certificate programs.

Credit/No Credit Option

1. The student must decide on selecting the credit/no credit option by the end of the first week of classes.
2. Departments may require certain courses in a particular program be taken for a quality grade. Catalog program descriptions should reflect these requirements.
3. While an unlimited number of credit/no credit courses may be taken, only ONE credit/no credit course may be

applied toward each degree (A.A., A.S., A.A.S. or certificate) earned at Parkland College.

4. All students must sign a standard contract with the faculty member confirming the use of the credit/no credit option. A copy of the contract must be on file in the Office Of Admissions and Records. Contract forms will be available in all department offices.
5. When a student selects a credit/no credit option, he/she may NOT return to the conventional grading option (A,B,C,D,F) for the completion of that course.
6. If a student chooses a credit/no credit option for several courses, and later wishes to have those hours applied to a degree, she/he may retake any previous credit/no credit opted course for a quality grade.
7. Each department will determine what proficiency level constitutes credit/no credit for the courses in that department.

Grade Reports

Withdrawal from a class, indicated by a "W", may be initiated by either the student or the College by following the procedures listed in the College Catalog.

At midterm, the faculty member is required to certify students' attendance according to the requirements of the Illinois Community College Board. Faculty should be aware that students who are enrolled in courses, in attendance at midterm, and certified by the signature of the faculty member on the class roster may be claimed for state apportionment. In addition, only students receiving one of the following grades or responses -- A, B, C, D, F, S, U, or See Instructor-- will be counted towards state apportionment. Midterm grades do not become part of the student's official record.

Course grade forms are distributed by the Office of Admissions and Records prior to final examination week. Each faculty member is responsible for recording an appropriate grade symbol for each student and returning the forms to the Office of Admissions and Records by the due date indicated in the College calendar. Grade forms are not to be returned by mail under any circumstances.

Transcripts will be withheld if there are outstanding obligations, financial or otherwise, to the College.

6.01.01 Business Enterprise for Minorities, Females, and Persons with Disabilities

Consistent with the Business Enterprise for Minorities, Females, and Persons with Disabilities Act, 30 ILCS 575/0.01, *et. seq.* (the "Act"), it is the policy of Parkland College to foster and encourage the continued economic development of businesses owned by minorities, females, and persons with disabilities.

Parkland College recognizes the importance of increasing the participation of businesses owned by minorities, females, and persons with disabilities in public contracts in an effort to overcome the discrimination and victimization such firms have historically encountered. It is the College's policy to promote the economic development of businesses owned by minorities, females, and persons with disabilities by setting aspirational goals to award contracts to businesses owned by minorities, females, and persons with disabilities for certain services as provided by the Business Enterprise for Minorities, Females, and Persons with Disabilities Act 20, ILCS 575.01 *et. seq.* (the Act), and the Business Enterprise Council for Minorities, Females, and Persons with Disabilities. To that end, Parkland College adopts as its aspirational goals those percentages set forth in the Act.

Procedure

- A. The College's aspirational goals as required by 30 ILCS 575.01 *et. seq.* (the Act) shall be calculated based on total dollars for all contracts and subcontracts during each fiscal year.
- B. Parkland College shall appoint a liaison to the Business Enterprise Council. The liaison shall be the contact person for businesses owned by minorities, females, and persons with disabilities who do or wish to do business with Parkland College.
- C. The liaison to the Business Enterprise Council shall:
 1. Maintain records that will be required for an annual report of Parkland College's utilization of businesses owned by minorities, females, and persons with disabilities during the preceding fiscal year.
 2. Prepare and submit all reports and documents required by the Act;
 3. Notify the Secretary of the Business Enterprise Council of proposed contracts for professional and artistic services as required by the Act.

4. Distribute to potential contractors and vendors the list of all businesses legitimately classified as businesses owned by minorities, females, and persons with disabilities and so certified under the Act.
 5. Coordinate with potential contractors and vendors to assure they are making good faith efforts to meet the College's aspirational goals.
 6. Conduct outreach efforts aimed at increasing the use of vendors certified as businesses owned by minorities, females, and persons with disabilities.
- D. To further its aspirational goals set forth in Policy 6.01.01, Parkland College will be working with a non-profit sourcing cooperative to identify vendors, and alternatives to current vendors, that qualify as businesses owned by minorities, females, and persons with disabilities.
 - E. When Parkland College is required to competitively bid a contract, the bid documents shall additionally require all potential bidders to submit their name, the bid amount, a statement confirming whether the bidder is including in its bid work to be performed by a certified business owned by minorities, females, and persons with disabilities.
 - F. When competitively bidding construction contracts, Parkland College shall notify those whose bids or proposals are successful but that fail to meet the aspirational goals set forth in Policy 6.01.01 of the deficiency in the bid or proposal, and shall afford the bidder a period not to exceed 10 days to cure that deficiency in the bid or proposal. The deficiency in the bid or proposal may only be cured by contracting with additional subcontractors that are owned by minorities, females, and persons with disabilities. Subject to limited exceptions, pursuant to the Illinois Community College Act, 100 ILCS 805/3-27.1, Parkland College is required to award all contracts for purchase of supplies, materials, or work involving an expenditure in excess of \$25,000.00 or a lower amount as required by Board policy to the lowest responsible bidder considering conformity with specifications, terms of delivery, quality, and serviceability; after due advertisement. In an effort to balance Parkland College's commitment to the aspirational goals stated in Policy 6.01.01 with the need to be good stewards of local taxpayer monies. Parkland College will evaluate bids based upon financial concerns first and foremost but will make due consideration for businesses qualifying under the Act.

POLICY 6.02 BAD CHECK FEES AND RESPONSES

Checks returned to Parkland from a bank marked "Insufficient Funds" will be returned one time in an attempt to collect payment. If a check written for tuition and fees is returned to Parkland a second time or is returned marked "Account Closed" or, "Stop Payment" the student will be assessed a fee, have a hold placed on their academic records, and be removed from all classes. All charges pertaining to those classes will be removed from the student's account. Any student who pays institutional charges with a returned check may not be permitted to pay any future charges with a personal check.

1. The student will be assessed a \$15 NSF check charge.
2. A hold will be placed on grades, transcripts and graduation processing until all charges on the student's account have been paid in full.
3. A letter of warning will be sent to the student.
4. If payment has not been received 5 working days after the letter has been sent, the student will be removed from all current classes for reason of nonpayment and all charges pertaining to those classes will be removed from the student's account.

If a check written for tuition and fees is returned to Parkland marked "Stop Payment":

2. A hold will be placed on grades, transcripts and graduation processing until all charges on the student's account has been paid in full.
3. The student will be removed from all current classes for reason of nonpayment and all charges pertaining to those classes will be removed from the student's account.

POLICY 6.03 STUDENT DEBT AND HOLD/DROP OF ACADEMIC RECORDS AND REGISTRATION

Approved: May 15, 1991
Revised: July 19, 1995

POLICY 6.04 BAD CHECKS AND LITIGATION FOR UNPAID DEBTS

After reasonable efforts have been made by the College to collect outstanding debts and such efforts have been unsuccessful, litigation may be instituted to collect such debts. A charge is made for checks that are not honored by the bank.

Approved: September 19, 1984

POLICY 6.05 COPYRIGHTS AND PATENTS

The College recognizes that the creation of scholarly materials can be of benefit to the author and the College and is to be encouraged. This policy is intended to foster the traditional freedoms of faculty and staff with regard to the creation of such materials and to provide a fair balance of the interests in such works.

Members of the staff who develop materials shall have complete copyrights to such materials and all royalties which may accrue from such materials unless the College and the staff member have previously entered into an agreement for the College to support a project for the specific purpose of producing such materials. Under such an agreement, the College shall hold the copyright.

In the event royalties are received by the College for publication or use of materials, the College shall assign a portion of the royalties to the authors of the materials. The percentage assignment of such royalties shall be determined by the College after consideration of all relevant factors including the amount of personal time given to the project by the authors. In all cases, the College shall assign at least 50 percent of the total royalties to the author or authors.

Approved: September 19, 1984
Revised: June 18, 1997

Procedure

A. Copyrights

1. Works subject to copyright may include, but are not limited to, the following:
 - a. Books, journal articles, texts, glossaries, bibliographies, study guides, laboratory manual syllabi, tests, and proposals
 - b. Lectures, dramatic or musical works, and unpublished scripts
 - c. Films, film strips, charts, transparencies, and all other visual aids
 - d. Pictorial, graphic and sculptural works
 - e. Audio and video tapes and cassettes
 - f. Programmed instruction materials

g. Computer programs

2. Under copyright law, the right to copyright any of the above, or to assign subsidiary rights, normally belongs to the author of the work. However, in the case of "work for hire", the employer or other entity for whom the work has been prepared is considered the copyright owner. To establish guidelines for determining whether or not a "work for hire" relationship exists and to balance the equitable interests involved, the following principles will be followed: Ownership in copyrightable works produced by authors who are faculty or staff at the College shall remain with the authors except in the following situations, in which ownership of all rights in copyrightable works produced shall belong to the College (for the benefit of the College):
 - a. Works prepared under an agreement with an external party (e.g., a grant or contract) where the terms of the agreement require the College to hold or transfer ownership in the copyrightable work.
 - b. Works expressly commissioned in writing by the College.
 - c. If an author is uncertain about the ownership of a work arising out of a particular assignment, before undertaking the assignment the author shall be entitled to request and to receive a clarifying written statement from the President of the College.
3. If more than half the cost of production of a copyrightable work not considered a "work for hire" hereunder was provided through College resources, the author shall grant the College an irrevocable, nonexclusive, royalty-free license to use, copy, and sell such work in connection with its teaching, research and public service programs.
4. With respect to copyrightable works owned or used by the College pursuant to paragraph A.2 or A.3 above, the author may be required to execute such documents as are necessary to vest ownership or a royalty-free license to copy, use, and sell such works in the College or its designee and to warrant that such works do not infringe any pre-existing copyright.
5. When the College commissions the preparation of copyrightable work by an author who is not a faculty or staff member, the contract with such authors shall specify that the work shall be considered "work for hire."
6. Works owned by the author may be copyrighted, published, and distributed by the author, or by others to whom the author has assigned such rights, subject only to any license referred to in paragraph A.3 above. Authors may request that the work be produced through the College; and, if the request is granted, an agreement will be drawn up specifying the duties of the author and the College, the distribution of any income received between the author and College (for benefits of the College), and other mutually agreed upon terms. The agreement shall be approved by the President of the College, after considering the recommendations of the appropriate administrator or committee.
7. To avoid the appearance of impropriety, faculty authors who require their students to purchase their works should:
 - a. Donate the equivalent amount of any royalties received from such purchases to the College for use in an appropriate fund (e.g., department or College scholarship); or
 - b. Consider other appropriate methods of divesting themselves of the equivalent amount of any such royalties.
8. In the event that income is received by the College from any copyrightable works belonging to the College, an appropriate share shall be paid to the author. The amount of said share shall be determined by the President of the College, after considering the recommendations of the appropriate administrator or committee.
9. The College's share of copyright income shall be used and controlled in ways to produce the greatest benefit to the College and to the public in a manner to be determined by the President of the College, after considering the recommendations of the appropriate administrator or committee.

B. Patents

1. The principle is recognized that discoveries, inventions, and patents which are the result of research carried on by, or under the direction of, faculty and staff on College time, with significant use of College facilities, or from College funds under their control belong to the College and shall be used and controlled in ways to produce the greatest benefit to the College and to the public.

2. Patentable inventions or discoveries covered by paragraph B.1 above shall be submitted to the appropriate administrator or committee to be considered for submission to a research corporation which may patent and commercialize the invention or discovery without expense to the inventor or discoverer or to the College. If an invention is not submitted to or accepted by such research corporation, its disposition will be determined by the President of the College, after considering the recommendations of the appropriate administrator or committee.
3. In the event that income is received by the College (for the benefit of the College) from any patent, an appropriate share shall be paid to the inventor or discoverer. This share is to be determined by the President of the College, after considering the recommendations of the appropriate administrator or committee.
4. Agreements with sponsors, which provide that the sponsor may determine disposition of patentable inventions or discoveries, may be accepted when required by applicable state or federal statutes or when the action of the Board in waiving its rights to such inventions or discoveries is determined to be in the public interest. Any such waiver requires the approval of the President of the College.
5. The share of any income to the College resulting from the commercial development or discoveries shall be used and controlled in ways to produce the greatest benefit to the College. Such use shall be determined by the President of the College, after considering the recommendations of the appropriate administrator or committee.
6. Approval by the President shall be required for use of the name of the College in advertising or promoting commercial development resulting from research, and approval by the President shall be required for use of the name of the College for such purposes.

POLICY 6.06 CONSULTING SERVICES

The use of consultants shall require the approval of the Board of Trustees prior to employment.

7.02.01 Collection Development

The function of the Library is consistent with the Association of College and Research Libraries Standards for Community, Junior, and Technical College Learning Resource Programs.

Accordingly, is the policy of the Library to:

- Provide materials of high quality that enrich and support the curriculum, taking into consideration the varied interests, abilities, and maturity levels of the student body, and the needs of the faculty.
- Provide materials that support and enhance the educational goals and objectives of the College.
- Provide materials that stimulate growth in factual knowledge, literary appreciation, aesthetic value, and ethical standards.
- Provide materials and resources to support diversity and global awareness objectives.
- Place principle above personal opinion and reason above prejudice to assure a comprehensive collection of high quality materials.
- Insure that the needs of all segments of the College community are being met by establishing a cooperative approach to selection, as outlined in the procedure below.

Procedure

Responsibility for selecting books and other instructional materials is a cooperative effort between the discipline faculty and the librarians. The librarians are responsible for selecting general and specialized reference works, general interdisciplinary books, etc. Discipline faculty are encouraged to select and recommend materials in their own fields of specialization. Librarians are also responsible for coordinating the collection and working with faculty to strengthen discipline collections where needed.

The ultimate responsibility for selection of materials resides with the Board of Trustees. The Board and the College President delegate the responsibility of all selection to the Library Director.

Aside from the matter of the availability of funds, the following criteria for selection are generally followed:

- Relevance to the purpose of the College
- Adequacy of the Library's holdings in the field
- Authority and effectiveness of the author's presentation of the subject matter
- Balanced presentation of controversial issues--all sides to be provided when available
- Textbooks adopted by the College are not purchased except in special circumstances

- Duplicate copies of materials are purchased in areas of high utilization

7.02.02 Collection Maintenance

Periodically, librarians will evaluate the collection to identify materials for withdrawal. The same guidelines apply to the existing collection as to new purchases. Materials that no longer meet the Collection Development Policy (7.02.01) will be removed from the collection. In general, materials that are outdated, damaged, seldom circulated, or contain inaccurate information will be removed. Faculty members will be consulted when materials in their disciplines are being considered for withdrawal. Damaged or missing materials are not automatically replaced, but are subject to a reorder review process. If the item still meets the collection development policy, the original item or a new edition will be ordered, if available.

Procedure

The following criteria are considered when discarding materials:

- Obsolescence
- Physical condition
- Significance
- Faculty recommendation
- Duplication
- Program profiles
- Accreditation requirements
- Availability of updated materials

The Library will retain unique collections if it is deemed that they are not readily available elsewhere. For example, the clock and watch repair collection contains many items owned only by Parkland College Library.

7.02.03 Gifts

The Library welcomes gifts and donations of materials, or the funds to purchase them, that contribute to the learning, teaching, and research goals of the College.

GUIDELINES FOR DONATIONS

- The Library reserves the privilege of deciding whether items donated should be added to the collection. The material will be judged by the same selection criteria as those applied to the purchase of new materials.
- All gifts are accepted with the understanding that it may some day be necessary that they be sold or disposed of in the best interest of the Library.
- The Library provides a letter of acknowledgment of receipt but will not appraise the value of the donated materials or other gifts.
- The Library Director will make all final decisions as to the disposition of gifts.
- On occasion, it may be necessary for a Vice President, the President, or others to become involved in the acceptance of gifts.
- No gift collections will be shelved as separate entities.

7.02.04 Lending of Materials

Library materials designated as available for loan may be borrowed by authorized borrowers. Authorized borrowers include currently enrolled Parkland College students, currently employed Parkland College faculty and staff, and other categories of borrowers as outlined in the Library circulation policies on the Library webpage. Borrower category and type of material determine loan periods given. Renewals are permitted, but may be restricted for certain items or if another patron requests the item.

All borrowers of Parkland College library materials are held personally responsible for borrowed items in their possession. By borrowing materials from Parkland College, borrowers agree to return all library materials on time, pay for the replacement of all damaged materials so damaged while in their possession, pay for the replacement of all lost materials on record, and pay all processing fees. The Library's automated circulation system serves as the system of record for all borrowing transactions.

Borrowing materials for other persons, transferring custody of materials borrowed to other persons, or using other persons to return materials for the original borrower are NOT grounds for appeal of assessed charges for overdue, lost or damaged materials.

Fines are assessed to encourage prompt return of library materials and are imposed for material returned after the due date. Borrowers who keep items beyond the time allotted to them are denying other patrons access to these materials. Persons who are assessed charges for overdue, lost, or damaged library materials may appeal such charges by making a claim at the circulation desk of the Library. Appellants may be asked to submit appeals in writing. Borrowing privileges may be suspended until materials are returned, processing fees are paid, and/or restitution is made for lost materials.

ALL categories of patrons are subject to collection agency intervention for failure to pay bills and may be subject to criminal prosecution.

For further clarification of Parkland College's approach to unpaid debts, see Policy 6.04.

Procedure

Two (2) notices will be sent informing the patron that materials are overdue: a first notice and a final notice with a bill. The bill will include replacement cost(s) of the item(s) and a processing fee per item. The processing fee must be paid even if the items are returned.

At the time the bill is sent to the patron, the record will be turned over to the Business Office. As a result, grades, transcripts, and diplomas will be held and the patron will not be allowed to register for classes. In addition, borrowing privileges may be suspended until materials are returned, processing fees are paid, and/or restitution is made for lost materials.

7.02.05 Confidentiality of Library Records

Parkland College is committed to the protection of all Library customers' right to privacy in the use of library resources and discloses patron information to the patron only. Records of patron transactions are kept only as long as is required to collect administrative statistics and then are erased. The College, in accordance with the Illinois Local Library Act (75 ILCS 5/1-7) and the Library Records Confidentiality Act (75 ILCS 70) recognizes that library circulation records and other records identifying the names of library users are to be confidential in nature. Such records shall not be made available to any individual or to any agencies of state, federal, or local government, except pursuant to such process, order, or subpoena as may be authorized under the authority of, and pursuant to, federal, state, or local law relating to civil, criminal, or administrative discovery procedures or legislative investigative power.

Upon receipt of such process, order, or subpoena, the College will consult with legal counsel to determine if such process, order, or subpoena is in proper form and if there is showing of good cause for its issuance. If the process, order, or subpoena is not in proper form, or if good cause has not been shown, the College will insist that such defects be cured.

POLICY 7.03 AUXILIARY FACILITIES AND SERVICES

The College may maintain auxiliary facilities and services which support its mission and objectives.

1. Submission of an International Student Application
2. Proof of English proficiency
3. Evidence of sufficient financial resources (only for those holding or seeking F-1 student status)
4. Submission of translated educational records from high school and/or college(s)
5. Submission of other documents or credentials as required

Approved: January 20, 1993
Revised: July 20, 2011

Procedure

After submission of the appropriate credentials, the Office of International Student Services will evaluate them and determine admission eligibility.

If a non-immigrant desires admission into the College, he/she should contact the Office of International Student Services and submit the required credentials.

POLICY 8.03 REGISTRATION

Students are required to register during the periods established in the official College calendar.

Approved: September 19, 1984
Revised: June 7, 1989

POLICY 8.04 DROPPING CLASSES AND WITHDRAWING

The College publishes in its catalog the regulations concerning dropping classes and withdrawal. The dates within which students may drop classes and/or withdraw from the College, either with or without penalty, are published in the College calendar.

Approved: September 19, 1984

8.04.01 Faculty-Initiated/Administrative Withdrawal

Students who never attend, or cease to attend, any class in which they have enrolled must be administratively withdrawn. Faculty-initiated withdrawals can only be performed between the end of the student drop period and midterm.

A student may also be withdrawn from a class by administrative action as a result of emergency or disciplinary procedures under the provisions of Board policy on student rights and responsibilities. The college's withdrawal policy will be in compliance with Title IV federal student aid policy for all instructional delivery modes.

Approved: January 20, 1993
Revised: July 16, 2014

Procedure

At the census date immediately following the end of the student drop period, faculty members will initiate the administrative withdrawal process for any students on the roster who have never attended. After the census date and at any time up until midterm, faculty members will initiate the administrative withdrawal process for any students on the roster who have ceased to attend. Faculty members will define "ceases to attend" for each course they teach. This definition must be reasonable and clearly stated within the course syllabus.

Only students who have never attended or have ceased to attend will be recommended for withdrawal by faculty. Students who are failing at midterm and/or have no chance of passing the course but are still in attendance will not be withdrawn by faculty recommendation. It is the student's responsibility to initiate the withdrawal process if the likely grade in the course is undesirable.

For online classes, attendance is measured in terms of student participation in learning activities or contact with the instructor. Simply logging into the course does not constitute attendance.

To initiate the administrative withdrawal process, the faculty member will complete and submit the appropriate form to the Office of Admissions and Records.

After midterm, faculty may not withdraw any student; withdrawal from a course after midterm must be done by the student prior to 5:00 p.m. on the last day to withdraw as published in the Parkland Class Schedule.

Should a student who has been administratively withdrawn return to class and the faculty member determines it is possible for the student to earn a quality grade, the faculty member may initiate paperwork to reinstate the student. The student will then be allowed to re-register in the class with no additional financial cost, assuming that the student has not received any refund. The Business Office will determine whether additional tuition and fees are due.

POLICY 8.05 SUSPENSION AND PROBATION

POLICY 8.06 ACADEMIC HONESTY

Academic honesty is broadly defined as performing academic work without cheating, fabrication, or plagiarism, or unauthorized collaboration. Definitions include, but are not limited to:

Cheating

- Using or attempting to use unauthorized materials, information, or study aids in any academic activity.
- Submitting assignments, homework, and examinations that are not a student's own work or for which a student received unauthorized help.
- Copying the work of another, or allowing another to copy one's own work, without proper acknowledgement.

Fabrication

- Falsifying or inventing any information or citation in an academic activity.
- Falsifying or inventing any information to gain an academic advantage.

Plagiarism

- Presenting someone else's work or ideas as one's own, by incorporating it without full acknowledgement. All published and unpublished material, whether in manuscript, printed, visual, or electronic form, is covered under this definition. Plagiarism may be intentional or reckless, or unintentional.

Unauthorized Collaboration

- Work submitted to fulfill an assignment not specifically identified as a group activity must be substantially the work of the author. Instructors should provide guidelines to students to maintain the academic integrity of these collaborative activities.

The process of determining the consequences of academic dishonesty begins with the faculty member and may proceed to include the Department Chair, the Division Dean, and/or the Vice President for Academic Services. All incidents of academic dishonesty, including developmental or punitive action, should be referred in writing to the Dean of Learning Support.

The student who receives a failing grade for a course as a direct result of violating the expectations of academic honesty will not be permitted to withdraw from the course. The failing grade remains on the student's academic transcript. In cases where the academic dishonesty does not result in a failing grade for the course, the student may decide to withdraw from the course in which the academic dishonesty occurred; however, the required incident reports and possible subsequent disciplinary action will not be halted.

Approved: November 11, 1991
Revised: June 16, 2004
Revised: March 15, 2017

Procedure

Violations of Academic Honesty

When a student has violated the expectations of academic honesty, the faculty member will take the following steps to address the violation:

- Inform the student privately of her/his findings and attempt a resolution of the problem. Depending upon the nature of the case and consistent with the course syllabus, such resolution could include additional assignments to help educate the student of the nature and negative consequences of academic dishonesty, resubmission of the assignment, a failing grade for that assignment, or failure of the course.
- Document the act of academic dishonesty using the Documentation of Academic Dishonesty form. The student will be asked to sign the form as an acknowledgement of having received written notification. The faculty member will provide copies of the signed form to the Department Chair and to the Dean of Learning Support.

Appeal Process

- If the student wants to appeal the instructor's decision, he or she may contact the Department Chair or designee within ten (10) business days of notification of the instructor's decision. The Department Chair will review the actions taken by gathering all relevant information from both the student and the instructor. The Department Chair will meet both with the student and the instructor to attempt to resolve the issue.
- If the student wants to appeal the Department Chair's decision in relation to resolving the issue, he or she may contact the Dean of Learning Support within five (5) business days of receiving the Department Chair's decision. The Dean of Learning Support will review the actions taken based on relevant information from the student, the instructor, and Department Chair. The Dean will affirm the instructor's decision or remand the issue back to the department for review.

- If the student wants to appeal the Dean of Learning Support's decision, he or she may petition the Student Affairs Committee within five (5) business days of receiving the Dean's decision. The Committee may review the process followed by the department and division to determine whether it has been carried out completely and fairly, in accordance with due process. If not, the case will be remanded to the department for reconsideration following the appropriate guidelines. If all procedures have been followed appropriately and no errors detected, the appeal process is complete and the consequences of the incident will remain the same as originally issued.

No reprisal shall be taken by the Board of Trustees, Administration, faculty, or staff against any student or faculty because of participation in an appeal.

Egregious or Repeated Offenses

In cases where an egregious violation of academic honesty standards occurs or where three or more incident reports for one student have been filed with the Vice President's Office, the student will be charged with violation of the Student Conduct Code, specifically Acts of Dishonesty. Conduct Code violations will follow the process as outlined in the Student Conduct Code. The Vice President for Academic Services may direct the judicial officer to impose the sanction of written warning, conduct probation, or restitution. In the event that a more serious sanction is recommended by the Vice President for Academic Services, the Student Conduct Committee will be convened to determine if suspension or expulsion is appropriate.

POLICY 8.08 RELEASE OF INFORMATION ABOUT STUDENTS

Parkland adheres to the confidentiality of student educational records as mandated by the Family Educational Rights and Privacy Act (FERPA) of 1974. Every endeavor is made to keep information regarding students confidential as specified by law. All members of the faculty, administration, and staff are to respect confidential information which they acquire about students in the course of their work. No information concerning a student shall be released unless specified under FERPA.

Rules governing the release of information about students are available in brochure form in the office of the Vice President for Student Services.

Approved: September 19, 1984
 Revised: June 7, 1989
 Revised: January 20, 1993
 Revised: December 16, 1998

Procedure

The Family Educational Rights and Privacy Act of 1974 (FERPA) is a Federal Law designed to protect the privacy of a student's education records. The law applies to all schools that receive funds under an applicable program from the U.S. Department of Education.

Under the law Parkland accords all rights to students who are declared independent. Parents have a right to records until a student reaches the age of 18; then the right passes to the student, unless the student is considered as a dependent as defined by the Internal Revenue Service. In that case both the parent and student have rights under the act. Parents will be required to provide proof of dependency to validate their rights.

8.08.01 Definitions

For the purpose of this policy, Parkland uses the following definitions.

Directory Information - the following items are classified as "Directory Information":

1. Full name
2. Address
3. Telephone number
4. Major field of study
5. Participation in officially recognized activities and sports
6. Weight, height and position of members of athletic teams
7. Dates of attendance and enrollment status (i.e., full-time/part-time, class level)
8. Degrees awarded and honors received
9. Previous educational agencies or institutions attended
10. Photo ID picture

Disclosure - Disclosure means permitting access or the release, transfer or other communication of education records of the student or the personally identifiable information contained therein. The means of communication may be orally, in writing or by electronic means (when secured by a PIN or other student controlled security measures).

Education Record - Those records which are directly related to a student and maintained by the College or a party acting for the College.

The following are included in the definition:

Biographical data, grades, course work, information related to request for services, transcripts, applications for admission, academic record change petitions and class schedules.

The following are not included in the definition:

1. Records of instructional, supervisory and administrative personnel and education personnel ancillary thereto which:
 - a. are the sole possession of the maker thereof and
 - b. are not accessible or revealed to any other individual except a substitute. For purposes of this definition, a "substitute" means an individual who performs on a temporary basis the duties of the individual who made the record, and does not refer to an individual who permanently succeeds the maker of the record in his/her position.
2. Records maintained by the Parkland College Office of Public Safety that were created by that office for the purpose of law enforcement.
3. Records relating to an individual who is employed by the College but who is not attending the College provided they are:
 - a. made and maintained in the normal course of business,
 - b. related exclusively to the individual in that individual's capacity as an employee and,
 - c. are not available for any other purpose. (Records relating to an individual who is attending the College and is employed as a result of his/her status as a student are "education records".)
4. Records related to medical, psychiatric and psychological treatment.
5. Records containing only information relating to a person after that person is not longer a student, for example, alumni records.

Eligible Student - All students at Parkland are "Eligible Students" under the Law regardless of age (See "Student" below)

Financial Aid - any payment of funds provided to an individual which is conditional on the individual's attendance at the College.

Parent - includes a parent, a guardian, or an individual acting as a parent of a student in the absence of a parent or guardian. Record keepers may presume the parent has the authority to exercise the privilege contained in the Law unless provided with evidence that there is a State law or Court order governing such matters as divorce, separation or custody, or legally binding instrument which provides to the contrary. (See When Prior Consent for Disclosure is not Required.)

Personally Identifiable Information - data or information including name(s), addresses, numbers, a list of characteristics, or other information which would make the student's identity easily traceable.

Student - any individual who is attending the College or has attended the College on whom education records are maintained. The term does not include an individual who has not been in attendance at the College. An individual who has been admitted but has not registered (paid fees) is not a student. A student who applied for admission to a selective admissions program is not considered a student in that program until admitted and fees are paid.

Emergencies - When the health or safety of the student or other individuals is endangered, pertinent information may be disclosed but only by the designated offices. A disclosure record must be maintained.

Waiver - A student may, subject to certain limitations, waive any of his/her rights under the provisions of the Law. The waiver must be in writing and must be signed by the student. (See waivers under section 8.10.3)

Record - any information or data recorded in any medium including but not limited to: handwriting, print, tapes, film, electronic, microfilm and microfiche.

8.08.02 Disclosure of Information

a. Directory Information

A list of items of information contained in the education records of each student that has been determined to be "Directory Information" (See Definitions). Directory information may be disclosed without the permission of the

student. No record of disclosure is required. All requests for Directory information should be made to the Office of Admissions and Records. Parkland College has taken the position of protecting the privacy of its' students by not releasing lists of Directory information to outside agencies.

b. Prohibiting the Release of Directory Information

Every student has the opportunity and the right to refuse permission to place information about themselves in the Directory information category. The student must give notice of this denial in writing to the Office of Admissions and Records prior to the census date of the semester in which he/she wishes to enroll. Students must be currently enrolled to place a restriction on their records. Restrictions will remain on the record until canceled by the student in writing.

c. When Prior Consent for Disclosure is Required

With limited exceptions written prior consent of the student is required before personally identifiable information from education records may be disclosed. Directory information is the exception to this provision. Prior written consent for disclosure is not required for disclosure to the student and also in some other narrowly defined circumstances.

Prior written consent for disclosure must include the following:

1. The consent must be signed and dated by the student
2. A specification of the records to be disclosed
3. The purpose or purposes of the disclosure
4. The party or class of parties to whom the disclosure may be made.

Parkland College will not fax transcripts unless a prior agreement and procedures have been arranged with the institution receiving information to assure confidentiality of the education record.

d. When Prior Consent for Disclosure is Not Required

Record keepers may disclose (the Law neither requires nor precludes disclosures) personally identifiable information from education records without written consent of the student if the disclosure is:

1. To the student themselves.
2. To officials of the college, faculty, and staff who have legitimate educational interests. Determination of legitimate education interest will be made by the respective record keepers.
3. To officials of another institution in which a student intends to enroll.
4. To certain Federal and State educational authorities
5. In connection with financial aid for which a student has applied or which a student has received.
6. To State or local officials or authorities to which such information is specifically required to be reported or disclosed pursuant to State statute adopted prior to November 19, 1994.
7. To organizations conducting research for, or on behalf of, educational agencies or institutions for the purpose of developing, validating or administering predictive tests, administering student aid programs and improving instruction. Information will be released if such studies are conducted in such a manner as will not permit the personal identification of students and their parents by persons other than representatives of such organizations. Such information will be destroyed when no longer needed for the purpose for which it is conducted.
8. Accrediting organizations in order to carry out their accrediting functions.
9. Parents of a dependent student as defined in Section 152 of Title 26 of the Internal Revenue Code of 1954.
10. To appropriate parties in health or safety emergency.
11. To comply with a judicial order, or pursuant to any lawfully issued subpoena, under condition that if possible

the students are notified of all such orders or subpoena in advance of the compliance there with by Parkland College. Parkland is not required to notify the parent or student concerning release of information when a Federal grand jury subpoena is received that specifically orders the College not to disclose the content or existence of the subpoena to anyone.

e. Financial Aid

Personally identifiable information from an education record may be disclosed in connection with financial aid for which a student has applied or which a student has received, but only as may be necessary for such purposes as:

1. To determine the eligibility of the student for financial aid.
2. To determine the amount of financial aid.
3. To determine the conditions which will be imposed regarding the financial aid.
4. To enforce the terms and conditions of the financial aid.

f. Record of Requests and Disclosures

Parkland will maintain a record of each request for and each disclosure of personally identifiable information for an education record. This will be maintained electronically as a part of the student record. The information will include:

1. The parties who have requested or obtained personally identifiable information from the records.
2. Dates of the requests and disclosures.
3. The legitimate interests these parties had in requesting and obtaining the information.

Documentation is not required when requests are made by and disclosures are made to:

1. Any person seeking Directory information
2. The student or parent of the dependent student.
3. Parties for whom the student has specifically given prior written consent to disclose information. If authorization was given for a category of parties, each disclosure should be indicated in the student file.
4. College officials with a legitimate educational interest
5. Federal and State educational authorities.

The record of requests and disclosures may be inspected only by the following:

1. The student
2. The College official and their assistant(s) who are responsible for the custody of the records
3. Parties authorized by the State or Federal government for the purpose of auditing the record keeping procedures

g. Emergencies

Personally identifiable information from an education record may be disclosed to appropriate parties in connection with an emergency if such information is necessary to protect the health and safety of the student or other individuals. In cases of emergency requests for disclosure will be forwarded to the following offices:

1. Office of Public Safety
2. Vice President for Student Services

The factors to be taken into account in determining whether personally identifiable information from the education records of a student may be disclosed under this section shall include:

1. The seriousness of the threat to the health or safety of the student or other individuals.
2. The need for the information to meet the emergency
3. Whether the parties to whom the information is disclosed are in a position to deal with the emergency
4. The extent to which time is of the essence in dealing with the emergency

A record of the disclosure for reason of emergency must be maintained with the education record.

h. Research

Persons conducting research must direct all requests for personally identifiable information from education records other than Directory information to the Office of Admissions and Records well in advance of need for the data. (Limiting provisions contained in 99.31(a)(6) of the Act apply. Such studies must be conducted in such a manner as will not permit the personal identification of students and their parents by persons other than representative of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted.

i. Destruction of Records

The Law encourages institutions to maintain no more records than are necessary, however there are some limitations place on the destruction of records:

1. Any record may not be destroyed if there is an outstanding request to inspect or review it.
2. Any explanation placed in the record by the student must be maintained as long as the record is in existence.
3. The record of disclosure must be maintained as long as the record is in existence.

8.08.03 Student's Right to Inspect and Review Education Records

It is the right of each student to inspect and review his/her education records whenever they are maintained on campus. Requests by the student to inspect and review a Parkland education record will be honored promptly by the Office of Admission and Records. In no case may the exercise of the right be delayed beyond 45 days as provided by the Law. The right to inspect and review includes two provisions for the exercise of which the student might be referred to the party on campus which generated the data. They are:

1. The right to a response to a reasonable request for explanations and interpretations of the record.
2. The right to obtain copies of the records where failure to provide the copies would effectively prevent the student from exercising the right to inspect and review the education records.

Students will be required to submit a written request to obtain access to their education records. (Forms are available in the Office of Admissions and Records)

Limitations on the Right to Inspect and Review Education Records

In addition to the records which are excluded from the definition of education records, certain education records are not included among those which students have the right to inspect and review.

1. Financial records and statements of their parents or any information contained therein.
2. Confidential letters and confidential statements of recommendation which are placed in the education records prior to January 1, 1975, provided:
 - a. The letters and statements were solicited with a written assurance of confidentiality or sent and retained with a documented understanding of confidentiality and
 - b. The letters and statements are used only for the purposes for which they were specifically intended.
3. Confidential letters of recommendation and confidential statements of recommendation which were placed in the education record after January 1, 1975:
 - a. Associated with admission
 - b. Associated with employment or job placement
 - c. Associated with honors or honorary recognition to which they have waived their rights of inspections and review

If the education records of a student contain information on more than one student, a student may inspect and review

or be informed of only the specific information which pertains to that student.

Requests for Copies of Information Contained in the Education Record

A student shall have the right to receive a copy of any document maintained in the Parkland education record (except financial records of the parents of the student or any information contained therein). A fee of \$1.00 per surface will be charged. This fee is subject to change without notice. Exceptions are:

1. If a financial hold exists, this hold must be cleared before copies will be made.
2. Transcripts of an original or source document which exists elsewhere (i.e., high school or transcripts from other colleges or universities)

Waivers

A student may waive any of their rights under the Family Educational Rights and Privacy Act. A waiver must be in writing and signed by the student. The College may not require the student to sign a waiver, nor condition admission, services or benefits upon the signing of a waiver. The Student may waive their right to inspect and review confidential letters and statements of recommendation placed in the education records after January 1, 1975.

A waiver may be revoked with respect to any actions occurring after the revocation.

A revocation of waiver must be in writing and signed by the student

A copy of any waiver and of any revocation of waiver should be maintained with the education record and affixed to any document to which the waiver applies.

Limitations on Waivers

A waiver may apply to confidential letters and statements only if:

1. The applicant of student is, upon request, notified of the names of all individuals providing the statements.
2. The letters or statements are used only for the purpose for which they were originally intended.

A waiver may be made with respect to specified classes of:

1. Education records
2. Persons or institutions

Challenges to the Content of the Education Record

A Parkland Student who believes that information in his/her records is inaccurate or misleading or violates the privacy or other rights of the student may request an amendment of the record by the party responsible for maintaining or preferably for generating the information. The responsible party shall decide whether to amend the records of the student in accordance with the request within a reasonable time of the receipt of the request.

If the party responsible for the records decides to refuse to amend the records as requested, the student will be informed in writing of the decision of the right to a hearing.

Right to a Hearing

Upon the student's request the College shall provide an opportunity for a hearing to challenge the content of the education record. Academic grades may not be challenged through this process, except for reason of faulty record keeping.

A. Informal Proceedings

Parkland College may attempt to settle a dispute with a student regarding the content of the education record through information meetings and discussions between the custodian of such records and the student.

B. Formal Proceedings

Upon request of either party (the custodian of such records or the student), the hearing required by this paragraph

shall be conducted under the following procedures. In such cases the student should submit the request in writing by using an "Exception to Academic Policy Form" which may be obtained from the Office of Admissions and Records:

1. The hearing shall be conducted and decided within a reasonable period of time following the request for a hearing.
 2. The hearing shall be conducted and the decision rendered by simple majority vote of three or more members of the Parkland College Academic Policy Appeals Committee. If any member of the Parkland College Academic Policy Appeals Committee has a direct interest in the outcome of the hearing, they shall be ineligible to participate in any decision reached.
 3. The student shall be afforded an opportunity to present evidence relevant to issues raised under the provisions of this paragraph and may be represented by legal counsel, if desired, at their expense.
 4. The decision shall be rendered in writing within a reasonable period of time, but in no case more than 45 days after the conclusion of the hearing.
- C. The decision made in section 4 above shall be construed as a final administrative decision pursuant to Illinois Revised Statutes, Chapter 110, Section 3-101, et seq. (1989) and further appeals of such decision shall be made and taken pursuant to said law.

POLICY 8.09 COUNSELING and ADVISING

A professional counseling and advising staff is available to assist all students in achieving a productive and rewarding experience at the College. Educational and vocational plans, goals, and opportunities may be discussed and explored

with counselors and advisors. Counselors provide career counseling and assist students in their career exploration by offering interest and personality inventories. Counselors are also available to help students deal with personal issues and will make referrals to outside agencies when appropriate.

Approved: January 20, 1993
Revised: January 26, 2005

Procedure

The Counseling and Advising Center offers advising, personal counseling, and career planning services. Staff members help students with their short- and long-term educational and career goals and transfer plans. Counselors and advisors participate in the student orientation program, SOAR: student orientation, advising and registration. In SOAR, students learn about Parkland programs, important dates and deadlines, support services on campus and registration processes. By attending SOAR, new students have the opportunity to reserve classes in advance.

Advising Guidelines:

Academic advisors, counselors and faculty program advisors are available to explain requirements to Parkland's many programs and to assist in decision-making related to the following:

- Planning a program of study
- Selecting semester courses
- Preparing for transfer
- Setting goals for future learning
- Finding academic support services

All Parkland students who are seeking a degree or certificate and who have not yet earned 30 hours of credit or are in selected programs, regardless of the number of hours, must obtain advising prior to registering for classes as follows:

- A.A.S. or Certificate program enrollees should see the faculty program advisor for their program or the appropriate Department Chair. If students are in a career program and are currently enrolled in a CCS class, they should seek advice from the Counseling and Advising Center.
- A.A., A.S., A.E.S., or A.F.A. transfer program enrollees may seek advice from a faculty program advisor or the Counseling and Advising Center. Agriculture transfer students must see a faculty program advisor or the Business and Agri-Industries Department Chair. Mass Communications students must see a faculty program advisor.
- Health Professions program enrollees may seek advice from the Counseling and Advising Center.
- CCS 098 enrollees should seek advice from the Center for Academic Success.
- CCS 099 enrollees should seek advice from the Center for Academic Success or the Counseling and Advising Center.
- New Parkland students must see a counselor or an advisor. New student athletes receive initial academic advising through the Athletic Department.
- Students who are not seeking a degree (course enrollees) and students who have earned more than 30 credit hours are not required to see a faculty program advisor, Department Chair, advisor or counselor prior to registration. However, students in the Health Professions programs must see a faculty program advisor regardless of the number of credit hours they have earned.

POLICY 8.10 FINANCIAL AID

The financial aid program of the College consists of scholarships, grants, loans, work-study employment, and veteran educational benefits. The Office of Financial Aid is committed to helping students secure financial assistance, within established guidelines, necessary to complete their educational goals at Parkland College.

In selecting students who are to receive financial assistance, emphasis is placed upon a variety of factors which may include academic achievement, financial need, character, and future promise.

The Athletic Department has a total of 86 full semester tuition and fees waivers available each year to allocate among the sports as regulated by the National Junior College Athletic Association as follows:

Procedures

These waivers will be awarded under the following guidelines:

1. Individual awards will be recommended by the coach and approved by the Athletic Director and the College President.
2. The terms of the offered award will be specifically designated in written contract form (NJCAA Letter of Intent) to be signed by the student, parent (if the student is under 18), coach and the appropriate College official.
3. If all the allocated full tuition and fee waivers are not used by a given sport, the Athletic Director may use his/her discretion in awarding the unused waiver to other sports for that current year. Candidates for the waiver must be eligible for regular College admission (following national eligibility rules) as a high school graduate or GED recipient. The tuition award is renewable each semester for a maximum of six full-time semesters, or until the student has completed his/her sophomore year of eligibility.
4. To continue in eligibility for renewal, the student must have passed a minimum of 12 hours of College course work during the previous full-time semester with a minimum "C" average. In addition, the student must be making reasonable progress toward a declared educational objective. Summer school hours may be used to make up deficiencies in spring credit hours and grade point average in order for the tuition waiver to be granted in the upcoming semester. Athletes who are not meeting academic progress will meet with the Athletic Director to determine continuation of the tuition waiver for the following semester.
5. Students wanting to attend summer school and receive their award must follow the guidelines for eligibility renewal.
6. The student will lose the eligibility for renewal if he or she is in violation of the Student Conduct Code.
7. The College will not submit a request for chargeback for any out-of-district student enrolled with an approved scholarship.
8. Full tuition and fee waivers can be issued to in-district, out-of-district, and out-of-state to include international residents.
9. All in-state athletes will be required to submit the "Free Application for Federal Student Aid" (FAFSA). The College will not waive tuition and fees if the student athlete qualifies for funding under the Illinois Student Assistance Commission Monetary Award Program (MAP).

Athletics Out-of-District Tuition Waivers

In addition to the 86 full tuition and fee waivers, the athletic department may award out-of-district tuition and fee waivers. Full tuition and fee waivers and out-of-district tuition and fee waivers are not to exceed the number of total waivers allowable under the NJCAA regulations for each sport. All incoming freshmen and transfer students must sign an NJCAA "Letter of Intent" and an "In-District Residency Form." Renewal of out-of-district tuition and fee waivers is at the discretion of the Athletic Director.

POLICY 8.11 STUDENT ASSESSMENT AND PLACEMENT

The College is committed to placing students in appropriate courses in order to provide each student with the greatest chance of success in those classes and future success. Assessment is a set of procedures used to determine academic and intellectual skills which students bring to Parkland and to match those skills with appropriate courses offered by the College. Students should be placed at a level which will challenge them but which is not beyond their reach.

Accurate and proper placement is the goal of the assessment program. Consequently, placements made through the assessment process are mandatory.

The Assessment Center offers assistance in assessing interests, abilities, and aptitudes. After talking to a counselor to determine which inventories are best, the student should contact the Assessment Center to make an appointment. The Center coordinates English, mathematics and critical comprehension assessments before course placement can be made. The Center also administers standardized tests, certification examinations, and special purpose instruments.

8.11.01 Test Fees

The student fee for administration of tests for which fees are charged will be 15 percent more than the actual fee (rounded to the nearest \$0.50) than an outside testing company charges Parkland. These fees will be reviewed annually and any changes will become effective July 1 of each year.

8.11.02 Comprehensive Assessment Program (CAP)

All entering students must be assessed prior to registration. The assessment will determine student ability in three basic areas: reading, writing, and mathematics. Assessment results will be used by academic advisors to match students with courses that are consistent with their abilities.

Students may be assessed by means of Parkland's comprehensive assessment package, ACT or SAT test scores, or credit earned at other accredited Colleges and universities. Students who have earned 15 or more semester hours of transferable College-level credit at other accredited institutions are exempt from the comprehensive assessment, but they may still be subject to assessment for admission to specific courses or programs of study.

Comprehensive assessment will not be required for enrollment in community service (noncredit) or continuing education classes.

Approved: March 17, 1993

Procedure

Various interest tests can be administered to students in the Assessment Center. Counselors assist the students in interpreting test results and applying the information to his/her own goals. Fees are charged to cover the cost of administering each test. Faculty members are encouraged to refer interested students to the Counseling Center.

POLICY 8.12 SUPPORT FOR STUDENTS WITH DISABILITIES AND ACCESSIBILITY OF CAMPUS PROGRAMS AND FACILITIES

The policy of the College is to provide an accessible campus, both in terms of physical plant and programs/services, to all students, staff and visitors. The College will comply with all regulations as set forth by Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Americans with Disabilities Act Amendments Act of 2008, and the Illinois Accessibility Code of 1988. The Office of Disability Services is responsible for coordinating support service and accommodations for students; addressing concerns from students, staff and the public regarding compliance and accessibility; working with the physical plant director to review physical accessibility of the campus; assisting the office of Human Resources with services for staff with disabilities; and addressing specific needs of visitors who wish access to the College's programs and services.

Special Support services are provided to students with disabilities who are otherwise qualified to participate in and benefit from a specific course, program or activity under the following conditions:

1. A rehabilitation, psychological, medical or educational report describing the disability has been received by the Office of Disability Services from a proper authority (i.e., doctor, psychologist, Dept. of Rehabilitation, etc.).
2. An assessment by the Office of Disability Services staff determines the need for services in order for the student to successfully complete a course, program, or activity. The existence of a mental or physical disability, in itself, does not justify the need for special support services.
3. A student voluntarily presents him/herself for services and signs a Release of Personal/Academic Information form.

Procedure

The ADA of 1990 requires that education programs, when viewed in their entirety, be readily accessible to qualified individuals with disabilities. Parkland College's intent is to foster communications with individuals requesting readily accessible programs, services, and activities and to respond to requests for accommodations or modifications.

Students who desire to review the ADA regulations should contact the Director of Disability Services.

DEFINITIONS:

A "complainant" is any individual with a documented disability who files a complaint form provided by the Director of Disability Services.

A "grievance" is a formal complaint filed under the ADA by an individual with a disability who meets the essential eligibility requirements for participation in or receipt of benefits of a program, activity, or service offered by Parkland College and who believes he or she has been excluded from participation in, or denied the benefits of, any program, service, or activity of Parkland College or feels he or she has been subject to discrimination by Parkland College due to his/her disability.

If a student has a complaint about the accessibility of programs, activities, or services, the student should attempt to resolve the matter informally with the supervisor of the particular program, activity or service.

PROCEDURES:

1. Grievances must be properly submitted through the channels defined below within the specified time limits. Time limits are stated in school days and may be extended by mutual agreement between the complainant and the reviewer at the designated coordinator and final levels.
2. A complainant's failure to submit a grievance, or to submit or appeal it to the next level according to procedures, within the specified time limits, shall mean the complainant has withdrawn the grievance or has accepted the last official response given during the grievance process as the College's final response.
3. During the ADA grievance resolution process, College officials will make reasonable efforts to protect the confidentiality of the complainant, including complainant's name and identifiable information. The College will not be responsible for any disclosure made by the complainant.

DESIGNATED DIRECTOR LEVEL:

1. If an individual desires to file a formal written grievance, the individual should promptly (but not later than 45 days after the occurrence that prompted the grievance) submit the grievance to the Director of Disability Services. The grievance must be submitted in writing on the Grievance Form prescribed for that purpose. The Grievance Form must be completed in full in order to receive proper consideration by the Director.
2. Upon request, the Director or representative shall provide assistance in completing the Grievance Form.
3. A College official, appointed by the Vice President for Academic Services or the Vice President for Student Services, will investigate the grievance and make reasonable efforts to resolve it. A written response will be provided to the complainant, with a copy to the Vice President for Academic Services or the Vice President for Student Services, as appropriate, within 10 school days after receipt of the fully completed Grievance Form.

FINAL REVIEW LEVEL:

1. If the individual is not satisfied, or if a reply has not been received within the specified time, the individual may then appeal, in writing, within 10 school days, to the Vice President for Academic Services if it is an academic matter or to the Vice President for Student Services if it is a student services or other matter. A written response will be given to the individual within 10 school days.
2. If the individual is still not satisfied, he or she may appeal in writing, within 10 school days from receipt of the final response, to the College president and, if still not satisfied, then to the Board of Trustees.

GRIEVANCE RECORDS:

Grievance records will be maintained in the office of the Vice President for Student Services for five years and then destroyed.

POLICY 8.13 ON-CAMPUS STUDENT EMPLOYMENT

8.13.01 The Career Center

The College maintains a Career Center that is responsible for assisting students and district residents in attaining their career and employment goals. The Career Center maintains a job posting and resume database connecting Parkland students, faculty and staff to regional employers. The Career Center is a member of the National Association of Colleges and Employers and follows EEO compliance in all practices.

8.13.02 Student Employment

Student employment is coordinated by the Career Center, which determines eligibility of students and hiring procedures. Student employees are students first and employees second. Policies governing student employees are made with this philosophy in mind.

A student may work on campus under one of two programs; 1) Student Employment—a Parkland-funded program for students interested in working part-time or 2) Federal Work Study (FWS)—a federally funded program that provides jobs to students who demonstrate financial need (students must apply for financial aid and be allocated FWS funds to qualify). All student employment positions are paid at the same hourly rate.

Eligibility is determined by Parkland's Career Center:

1. Students must be enrolled and maintain at least six credit hours in the spring and fall semesters and at least three credit hours during the summer.
2. Students may work in more than one department, but may not work simultaneously on Parkland's student employment and part-time staff payrolls.
3. A minimum GPA of 2.0 is required to work as a student employee. Some departments may require a higher GPA and/or additional skills or qualifications. Please refer to the Financial Aid office for Federal Work Study academic guidelines.
4. Students must be at least 17 years old. Some supervisors may require their student employees to be 18 years old to legally qualify for certain aspects of the job.
5. Students must have a high school diploma or GED.
6. Students may participate in student employment for a maximum of four consecutive years.
7. Students may not be hired or supervised by a member of their household, their immediate family, or individuals with whom they have a personal, non-professional relationship. (see Policy and Procedures 3.04).
8. Work policies for international students vary based on individual legal status. International students seeking employment should be directed to the International Student Services Office regarding visa classification, work eligibility and restrictions before they visit the Career Center.

Work hours for student employees are as follows:

1. No more than 8 hours per day.
2. A maximum of 19 hours per week.
3. One 15-minute paid break during each four-hour work period.
4. If working eight hours in one workday, a student shall have one uninterrupted, unpaid hour lunch. Employees who are scheduled to work for six hours or more in one workday shall have one half-hour of an uninterrupted lunch period after not more than four hours of work.

Student worker termination may occur for any of the following reasons:

1. Enrollment hours have fallen under the 3-hour/6-hour minimum.
2. Violation of the Student Conduct Code.
3. The four-year limit for student employment has been reached.
4. Departmental budget for student employment has been depleted.
5. Unsatisfactory work performance as determined by the supervisor. Performance concerns must be documented and communicated to the employee prior to discharge.

Parkland maintains an environment where the quality of the student's education or work environment is not diminished by discrimination or harassment from faculty, staff, or fellow students. See Policy 8.26 for definitions, examples and faculty/staff responsibilities. If a student feels he or she is being harassed, discriminated or retaliated against, he or she is encouraged to notify the Vice President for Student Services, the Office of Human Resources, or a trusted faculty or staff member at the College.

Parkland College provides a drug-free workplace as defined by the Drug Free Workplace Act of 1988. The college will take strong disciplinary action against any employee who does not adhere to this policy (see Policy 3.24).

Reasonable accommodation is any change in the work environment that enables a qualified individual with a disability to perform the essential functions of that job (e.g. acquiring or modifying equipment or modifying job procedures). See Policy 8.12 regarding accessibility of campus programs and facilities.

Parkland adheres to the confidentiality of student educational records as mandated by the Family Educational Rights and Privacy Act (FERPA) of 1974. All members of the faculty, administration, and staff are to respect confidential information which they acquire about students in the course of their work. No information concerning a student shall be released unless specified under FERPA.

The College may make available opportunities for students to work within the College. Student employment is the responsibility of the Career Center, which determines eligibility of students for employment and coordinates the referral of perspective student workers.

Procedure

Hiring Student Employees:

Because Parkland is an EEO employer, we ensure that all students have the opportunity to view and apply for student employment positions. Faculty and staff interested in hiring a student employee must follow these steps:

1. Complete the "Request for Student Employee" form. Take or send the form with the Department Chair or Director's signature to the Career Center. The job description and qualifications are required.
2. Once the "Request for Student Employee" form is received, the job will be posted (three-day minimum) until the end of the semester or until the position is filled.
3. Students complete an employment application in the Career Center and will take a copy to the contact listed in the job posting (supervisors can view additional student applications on file in the Career Center).
4. After a student is interviewed and selected, the supervisor must complete a "Student Employment Bi-weekly Payroll Authorization" form. The student must take this form to the Career Center before he/she can complete the employment orientation and all required paperwork. Federal Work Study students should visit the Financial Aid office for additional information and paperwork.
5. A student cannot begin work until the supervisor has a yellow copy of the Student Employee Work Authorization.
6. The Payroll and Work Authorization forms must be completed each semester.

POLICY 8.14 STUDENT CONDUCT

Student conduct is a concern of the students, faculty, administration, and Board of Trustees. Representatives of each of these groups have developed a Student Conduct Code which is the guideline for the College in determining acceptable student conduct. This document has been ratified by the Board and is printed in the student handbook. The statement of Student Rights and Responsibilities is included in Appendix B of this Manual.

The College is guided by the Student Conduct Code and the Student Affairs Committee of the PCA for disciplinary action in all cases which may result in disciplinary probation, suspension, or dismissal.

Approved: September 19, 1984
Revised: January 20, 1993

It is the mission of Parkland College to provide an environment conducive to learning. Therefore, the use of alcohol and the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited on the Parkland College campus and off-campus when the student is involved in an officially sanctioned College class or activity. Behaviors that are inappropriate, disruptive, and/or endangering as a result of the consumption of alcohol or other drugs will not be tolerated.

Approved: February 15, 1995

Alcohol and Other Drugs - Students

I. Enforcement

- A. Reports of behaviors, as described in the policy, will be made to the Vice President for Student Services and/or the Office of Public Safety for appropriate action.
- B. The Vice President for Student Services will review each incident and if he/she deems it appropriate, a discipline or an administrative hearing committee will convene in a timely manner to review the case and recommend disciplinary action, which would include one or more of the following:
 1. A written warning
 2. Conduct probation while attending an approved outpatient drug rehabilitation program
 3. Suspension or expulsion from school
 4. Report of such incident and person(s) involved to local, state, or federal law enforcement agencies

II. Appeal

If the student finds the above disciplinary action unjustified, she or he may elect to file an appeal according to the existing appeal procedures, as described in the Student Conduct Code.

III. Program Description

The Office of Student Life, Office of Public Safety, Counseling and Advising Center, Office of Services for Students with Disabilities, and the Vice President for Student Services strive to maintain a drug-free environment. Education and training programs exist in order to make every effort to ensure that all College individuals are aware of issues regarding alcohol and other drug use and abuse, including the following:

- A. Dangers involved
- B. Policies of the College regarding drug use
- C. Community resources for alcohol/drug treatment and counseling
- D. Sanctions that may be imposed upon College students for alcohol and other drug violations

IV. Referral

If a student feels that he or she has a problem with substance abuse, the College will assist in the identification of a program that specializes in this type of problem. Students with such problems should contact the Vice President for Student services or his/her designee for possible referral to one of the substance abuse counseling and treatment programs available in the community.

8.14.02 Sexual Assault

Sexual assault and sexual abuse by any member of the College community will not be tolerated. The College will respond in a firm and judicious manner to all reports of alleged incidents of sexual assault and sexual abuse.

Procedures

I. Definitions

Sexual assault is defined as sexual penetration by the use of force or threat of force. Sexual penetration includes intercourse, sodomy, oral sex, and penetration with an object.

Sexual abuse is defined as acts of a sexual nature not covered under sexual assault and which include but may not be limited to fondling, and touching of sexual body parts without consent.

II. Reporting

Alleged victims of sexual assault and/or abuse or persons with knowledge of such incidents should file a report immediately to the Office of Public Safety at Parkland College (office A160; telephone, (217) 351-2369) and/or their local law enforcement agency. All reports will be thoroughly investigated and referred to the Vice President for Student Services who will conduct a separate investigation.

After investigation and charges are filed by the alleged victim, the case will progress according to The Student Conduct Code. Disciplinary proceedings will be instituted against a student charged with sexual assault or abuse independent of any external criminal charges which may be carried out prior to, simultaneously with, or following criminal investigation and/or proceedings off campus. If the charges of sexual assault or abuse are found to have merit, sanctions such as conduct probation, suspension, or expulsion may be imposed. Alcohol and other intoxicants will not be used as a defense for sexual assault or sexual abuse.

Federal law requires that all incidents of sexual assault are to be included in the College's annual crime statistics report available to the public.

III. Evidence

Every effort should be made by the alleged victim and others to preserve any and all evidence obtained as a result of the incident and present such evidence to the appropriate law enforcement officials for possible use later either in criminal action or College disciplinary action.

IV. Rights of the Alleged Victim/Alleged Perpetrator

Confidentiality of both the alleged victim and alleged perpetrator will be maintained throughout the investigation and hearing. The case will be handled as any other student discipline case. However, the results of the investigation and findings of the student discipline hearing will be reported to the alleged victim as well as the alleged perpetrator.

V. Educational Programs

For detailed information regarding sexual assault and sexual abuse, prevention, preserving evidence, and resources, please refer to the brochure entitled, *Sexual Assault*, available from the Vice President for Student Services' office, A124; Office of Public Safety, A160; Wellness Center, L122; Counseling and Advising Center, A251.

POLICY 8.15 STUDENT GRIEVANCES

A student grievance exists when a student claims that a violation, misapplication, or misinterpretation of a College policy, procedure, or practice has occurred. A student filing a grievance should follow the procedures outlined.

Approved: January 20, 1993

8.15.01 Student Grievance Procedures

Should a condition exist that a student believes is in violation of the rules, procedures, policies, or other standards of the College, it is important that he or she bring it to the attention of the appropriate person or committee.

During the process of a grievance, all procedures, meetings, names, and related information will be confidential unless otherwise mutually agreed upon by all the parties involved.

Informal Process

It is best for everyone concerned if problems can be resolved informally. Therefore, before the formal grievance process is instituted, students are expected to meet with the person who s/he believes has violated, misapplied, or misinterpreted the policy or procedure. If the student does not believe that s/he is able to do that, s/he needs to meet and discuss the incident with the supervisor of the staff or Department Chair of the faculty member. This meeting needs to take place no later than twenty (20) days after the occurrence that gave rise to the complaint. The Vice President for Student Services office is available to give students guidance in the Informal Process as well as in the Formal Process.

If a student believes s/he has been discriminated against because of race, gender, gender expression, sexual orientation, color, religion, age, veteran status, Vietnam veteran era status, marital status, ancestry or national origin in any way by College personnel, it is important that s/he bring the situation to the attention of the office of Human Resources, Vice President for Student Services, or a designee named by the President if there is potential for a conflict of interest (e.g., the condition involves the Office of Human Resources). If a student believes s/he has been discriminated against because of a disability, it is important that s/he bring the situation to the attention of the Coordinator of Disability Services.

Formal Process

If the student is not satisfied with the results of the informal process, s/he should initiate the formal process no later than thirty (30) school days after the occurrence that caused the student's complaint. School days are defined as weekdays (Monday through Friday) when classes are in session during the Fall and Spring semesters. Items not resolved prior to the end of the spring semester or during summer semesters may be suspended until the first day of classes of the immediate subsequent fall semester.

1. The student must obtain a Grievance Form from the Vice President for Student Services, who will discuss with the student the procedure for filing a formal grievance.
2. As instructed on the Grievance Form, the student must submit the grievance to the supervisor of the person charged. The supervisor will immediately deliver a copy to the charged employee, who must respond in writing to the student within five (5) school days and provide the supervisor with a copy of the response.
3. The student, if not satisfied by the reply, or if not in receipt of a reply within five (5) school days, may then appeal, in writing, within five (5) additional school days to the Student Grievance Committee. The student appeal goes to the Vice President for Student Services who will initiate the hearing process. This appeal should include copies of any responses from the charged employee and the supervisor. The Chair of the Student Grievance Committee will initiate a hearing within 30 school days.
4. Items not resolved prior to the end of the semester will be suspended until the following semester. The Vice President for Student Services and Chair of the Student Grievance Committee may at their discretion continue the grievance process during breaks or summer sessions.
5. A student utilizing the student grievance process is precluded from using the grade appeal process for the same occurrence.

8.15.03 Grade Appeal Process

The awarding of grades for work done in courses is the domain of the faculty. Only a faculty-led committee has the authority to override a grade on appeal, except in cases of approvals for drops without record, late withdrawals, and medical withdrawals.

Students have a right to a grade review to correct an erroneous grade and to a grade appeal as a remedy for unfair assignment of a grade in a course. Students seeking a grade appeal must initiate the process by the midterm of the following semester (excluding summers). A student utilizing the grade appeal process is precluded from using the Student Grievance hearing process for the same occurrence.

Procedure

A student may seek a grade review or grade appeal on any of the following grounds.

The assignment of a grade to a particular student:

- by using some basis other than academic or behavioral performance in the course;
- by using more exacting or demanding standards than were applied to other students in that course;
- by using standards and/or criteria for grade assignment are not clearly presented in the course syllabus, course materials, and/or written communications;
- by a substantial departure from the instructor's previously announced or written standards.

Grades found to be in error may be changed by the instructor or, if the instructor is unavailable, the Department Chair upon discovery and confirmation of the error. Judgments of unfair grading, however, can only be made by a grade appeal committee, usually within the same discipline.

During the grade appeal process, all procedures and meetings, including names and related information, will be confidential unless otherwise mutually agreed upon by all parties involved.

Requesting a Grade Review

1. The student contacts the instructor by midterm of the following semester (excluding summers) and requests a review and an accounting of how the grade was determined. If the student is satisfied with the response, the procedure ends.
2. If the student wants to appeal the instructor's response, or if the student is unable or does not want to contact the instructor, he or she may contact the Department Chair or designee by midterm of the following semester, excluding summers.
3. The Department Chair reviews the grade by gathering all relevant information from both the student and the instructor.
 - a. If the Department Chair determines that an error has occurred, and the instructor is in agreement, the student's grade will be changed accordingly.
 - b. If the instructor, upon review, reconsiders the grade and believes a different grade is more suitable, he or she may change the grade accordingly.
 - c. If the review does not result in a grade change, and if the student accepts the grade, no change is made.

Requesting a Grade Appeal

If the foregoing review does not result in a grade change, and the student wants to appeal the grade, a grade appeal must be requested from the Division Dean.

1. The Division Dean will appoint a grade appeal committee, consisting of three faculty members from within the division who are knowledgeable about the requirements of the course and the criteria for evaluating student performance and who are deemed able to render an impartial judgement. One student representative selected from the list of trained students from the Dean of Students will also serve on the committee as a voting member. The appeal committee will independently and separately consider all relevant information from the student and the instructor, the student work in the course, and all the other performance requirements (attendance, timeliness of work, etc.) when determining whether the student's grade is in line with normal course, discipline, departmental, College, and professional guidelines and standards.
 - a. If the appeal committee finds, by simple majority vote, that the grade is fair and correct and should not be changed, the appeal for a grade change will be denied.
 - b. If the appeal committee finds, by simple majority vote, that the grade is not fair or correct and should be changed, its decision will be forwarded to the Division Dean, who will administer the change of grade.
 - c. In the case of a tie vote among appeal committee members, the Division Dean will vote to break the tie.
2. If the student is not satisfied with the result of the appeal, he or she may petition the Student Affairs Committee. The Division Dean will guide the student through the Appeal Process.
 - a. The committee reviews the grade appeal process followed by the division and determines whether it has been carried out completely and fairly, in accordance with due process. If not, the case is remanded to the division for reconsideration following the appropriate guidelines. If all procedures have been followed appropriately and no errors are detected, the appeal process is complete and the grade remains the same as originally issued.
 - b. The committee also reviews the case to determine whether the instructor's requirements and demands are compatible with College policies and procedures (attendance, etc.). If not, the case is remanded to the division for reconsideration with recommended changes in course requirements and reconsideration of the grade appeal. If there are no policy violations, the appeal process is complete and the grade remains the same as originally issued.
 - c. Once a grade appeal has been appealed to the Student Affairs Committee and a final decision has been made, the case will be considered closed.

No reprisal shall be taken by the Board of Trustees, Administration, faculty, or staff against any student or faculty because of participation in a grade appeal.

POLICY 8.16 STUDENT PUBLICATIONS

It is the policy of Parkland College through its appropriate administrative and student agencies, to encourage the publication of a student newspaper and other appropriate student publications. To guide the advisors and editors charged with the responsibility for these publications, the Publications Board is established and has policies and procedures governing student publications that use Parkland College funds, staff, or property. The Board as authorized by the administration of the College consists of three students (the Student Government Director of Public Relations and two students appointed by the Student Government) and three faculty members (appointed by the PCA) as voting members. In addition, the Vice President for Student Services, the publication's advisor, and the editor-in-chief of the publication are to serve as non-voting members.

Approved: January 20, 1993

1. **Voting.** A two-thirds quorum of the voting members is required to vote or conduct official business. A policy, procedure, budget, or organizational change must be lodged and read two meetings prior to the Board taking a vote.
2. **Length of office.** Each voting member will serve two years for a maximum of two consecutive terms. In the event of a vacancy, the Student Publications Board will appoint, upon majority approval, a member of the Board members' constituency to fulfill the academic year. Vacancies can occur due to resignation, leave, or lack of attendance (three absences in one academic year).
3. **Structure.** A student Chair and faculty mentor will be appointed by a voting majority and will serve for a length of two years. The Chair will be responsible for calling the meetings, setting the agenda, and keeping the minutes.
4. **Prospectus Affiliates.** Editors, advisors, advertising managers, and other staff members of the Prospectus are prohibited from holding a position on the Board. Prospectus affiliates are invited to attend and contribute openly regarding the operations of the Prospectus.

2. The Board will appoint, upon recommendation of the advisor, an editor-in-chief and advertising manager.
3. The Board places the responsibility on the publications' advisor(s) to apply the policies and procedures as determined by the Student Publications Board, as well as to guide the publications' staff toward maintaining high standards of journalistic writings.
4. Upon recommendation of the Vice President for Student Services and approval of the Student Publications Board, a department staff person will maintain the business operations of the publications and make progress reports to the Student Publications Board at each meeting.
5. **Evaluation**
 - a. The Board will review the monthly progress reports of each of the publications (Prospectus).
 - b. At the end of each semester, the Board will review the self-study submitted by the publications' editor(s)-in-chief and advisor(s) and act upon the recommendations--programmatic, operational, personnel--if appropriate.
 - c. The Board will meet in late April to review staff input from the advisor(s), the editor(s)-in-chief, and the advertising manager to determine appointment, reappointment, or dismissal for the following year.

C. Ethical/Responsible Journalism

5. Neither administrative staff, advisor(s), nor any other Parkland person will censor publications. The advisor(s) will advise students regarding the laws of libel and slander and guide, not control, them in maintaining high journalistic standards.
6. Advisors will not be fired, transferred, or removed for failure to exercise editorial control over the student publication or to otherwise suppress the rights of free expression of student journalism.

D. Incidence of Unethical/Irresponsible Journalism

1. Unethical Journalism. After investigation and if the charges of unethical journalism or violating the laws of libel, obscenity, invasion of privacy, or copyright are substantiated, the Board can remove or place on probation the offending editor, staff, and/or advisor(s).

Irresponsible journalism is defined as the deliberate attempt to publish false news reports or the deliberate disregard for the obligation to publish opinions varying from the editorial viewpoint.
3. Removal from a staff or editorial position will occur after continued evidence of technical or managerial incompetence. The Student Publications Board is obligated to remove the editor-in-chief and/or the advertising manager in such cases. The advisor is obligated to remove all others in such cases.

POLICY 8.17 STUDENT ACTIVITIES

Student activities are recognized by the District as an integral part of a community College's total program. The College is, therefore, authorized and encouraged to provide activity programs designed to afford students with experiences that have educational value for them as individuals in their social relationships, and in the exercise of their responsibilities as citizens. These activities are considered to be the workshop in which many classroom concepts are put into practice. The College provides adequate facilities to allow individuals and groups time in their regular schedules to participate in programs, and assigns personnel full-time or part-time to the supervision of these programs.

A. The following types of student activities have been authorized:

1. Recreation programs
2. College student publications
3. Musical, speech, and dramatic presentations
4. Student Government
5. Intramural and intercollegiate sports
6. Clubs and organizations
7. Student-sponsored open houses
8. College Center programs

In so doing, it insures compliance with all policies of the Board of Trustees which apply to student activities including those relating to memberships and initiation, and financial and accounting procedures.

2. All student activities conducted on and off the campus of the College must comply with established requirements, and the College published procedures concerning these activities. Such requirements include provisions for faculty involvement as advisors. Neither the College nor the Parkland Student Association assumes any responsibilities for activities held on and off campus which do not comply with the policies of the Board.
3. Organizations select their advisors from the faculty and administrative staff of the College and are approved by the Vice President for Student Services. The advisor's responsibilities are to advise and serve as a resource person. By suggestions, comments, constructive proposals, or searching questions, the advisor can assist the organization in achieving that degree of mature thinking and considered action that tends to strengthen the organization and to assist it in fulfilling its objectives.

8.17.01 Student Organization Advisor

An advisor is an integral part of a student activity program. Without an advisor, a campus organization has no authority to meet or even exist. Advisors volunteer work with student groups because they are interested--it is a contribution they make in addition to their regular teaching responsibilities. Organizations select their advisor, who may be full- or part-time members of the faculty. An advisor should be given the respect and consideration that his/her position and willingness to assist deserves.

A. General Responsibilities

1. The advisor's primary responsibilities are to advise and serve as a resource person. By suggestions, comments, constructive proposals, and searching questions, the advisor can assist the organization in achieving that degree of mature thinking and considered action that tends to strengthen the organization and assist it in fulfilling its objectives.
2. The advisor shall be present whenever the organization does the following:
 - a. Conducts an election of officers.
 - b. Conducts a meeting at which a guest of the College will speak.
 - c. Conducts any activity which is considered an official organizational function. Functions are considered official when organization or College funds are used in any way sponsoring the event; when the activity is planned at a scheduled meeting of the group either on or off campus; or when the activity is held under the name of the organization, and all members are extended either a written or an oral invitation.
3. Specifically, the advisor's responsibilities to the organization are to:
 - a. Be familiar with College policies and regulations, the Constitution of the Student Government, and of the organization which he/she advises.
 - b. Assist the officers and members in becoming acquainted with these policies.
 - c. Encourage and assist the organization to pursue an active and significant program.
 - d. Be available to sign requisitions, secure calendar dates and payment of vouchers, etc.
 - e. Be present at scheduled meetings and social functions of the organization from the beginning to the conclusion. If the advisor cannot be present, the function may not be conducted. A substitute obtained by the advisor may be used for social functions. At the completion of a social function, it is recommended that a brief report evaluating the event, listing problems which may have arisen, making suggestions for future events, and listing the approximate number in attendance be submitted to the Vice President for Student Services.
 - f. Assist the treasurer in formulating an annual budget and in maintaining accurate accounting procedures.
 - g. Submit, at the conclusion of the College year, an evaluation of the organization.
 - h. Maintain an active liaison between the organization and the Vice President for Student Services.

POLICY 8.18 STUDENT ACTIVITY FIELD TRIPS

Student activity field trips may not be scheduled to conflict with regularly scheduled classes. Student activity field trips must conform to the procedures established by the Vice President for Student Services.

Approved: January 20, 1993

POLICY 8.19 DISPLAY CASES IN COLLEGE CENTER

The Student Government contribute and maintains three display cases in the College center near the Information Desk for student groups/organizations, alumni association/foundation and academic/administrative departments to display information, arts and crafts, and educational accomplishments. The Office of Student Life determines procedures for their use.

Approved: January 20, 1993

POLICY 8.20 STUDENT ACTIVITY FUND

The Student Activity Fund was established by the Board of Trustees to assist students in developing a student activity program within the resolution adopted by the Board for "Establishment of Student Organizations at Parkland College." The Board believes that a student activity program is helpful in providing maximum learning experiences for students in conjunction with the traditional academic classroom setting.

As a general policy, the College provides salaries for coaches, faculty and staff advisors, clerical staff, and administrators for the student activity program.

In formulating a total student activity program, the Student Activity Fund encompasses areas of concern for the total College community and establishes a balanced series of programs and activities for the students. The Student Activity Fund budget is subject to approval by the Board of Trustees. The Fund is allocated for the operation of the following areas:

Individual and Team Activities.....	25-35%
Student Publications.....	13-15%
Campus Organizations.....	8-15%
Intramurals.....	5-10%
Convocations and Student Services.....	18-25%
Student Government.....	6-10%
Campus Bonds and Other.....	5-10%

Intercollegiate funds are expended for continuance of individual and team activities including transportation, room and board, and participation of students in national competition. Drama and debate are financed by the Student Activity Fund, excluding capital equipment for the programs.

Student Publications is totally financed, including payments for services to the student staff members of the yearbook and newspaper via the Student Activity Fund.

Campus Organizations include the operation of the interorganizational council and the allocation of funds to chartered and recognized campus organizations for program planning and organizational campus-wide activities.

Intramurals is totally financed through the Student Activity Fund.

Convocations and Student Services are financed by the Student Activity Fund, and a balanced series of social functions is provided as well as appropriate social activities and events.

Student Government expenditures are financed through the Student Activities Fund, including the equipment and supplies necessary for a student activity program, travel and conference expenses for student-related meetings, salaries for the Executive Board of Student Government, office operational expenses, district-wide service and community projects directed by presently enrolled students, and other related student-senate expenses.

Unexpended monies of the Student Activity Fund may be set aside each year for "bonds," and held in reserve to be used for capital outlay items and/or services which enhance the Student Activity Program on the College campus. Such

expenditures may be made upon the recommendation of a committee composed of past student government presidents or duly appointed representatives of the student governments contributing to the bonds. The Vice President for Student Services serves as an ex-officio member of the committee.

Expenditures for capital outlay from the Student Activity Fund are made for items beyond that originally provided by the College on the condition that they are needed primarily for the Student Activity Program.

POLICY 8.21 PARKLAND COLLEGE RESIDENCE REGULATIONS

- A. A resident of Community College District 505 is one who:
 - 1. has established a permanent dwelling place (domicile) in the District, and
 - 2. shows evidence of continuing intent to remain in the District.
- B. To be classified as a resident for College purposes, both elements are necessary and neither alone is sufficient. Residency depends not on a single fact or circumstance, but on the entire set of circumstances and facts taken together.
- C. A dependent student is considered to be a resident of District 505 if at least one parent, step-parent, or court-appointed guardian resides in the District.
- D. An emancipated, self-supporting student is considered to be a resident of District 505 if he/she has lived continuously in the District for at least 30 days (generally, in some capacity other than as a full-time College student) prior to the first day of classes of the term of enrollment (for Selective Admissions programs, prior to January 1 for admission to the following fall term); is not claimed as a tax dependent by anyone other than self or spouse for the year during which enrollment occurs; and provides the necessary evidence that a permanent dwelling place (domicile) has been established with the intent to remain in the District. Generally, a self-supporting student must provide clear and convincing evidence that his/her physical presence within the District is for a predominant purpose other than attending an institution of higher education.

Procedures

- A. These regulations establish the principles and procedures by which students shall be classified as Residents or Nonresidents for purposes of registration in Parkland College (Community College District 505).
 - 1. Evidence, upon the basis of which the place of permanent and bona fide residence (domicile) of each applicant for admission to the College as a student can be determined, shall be submitted to the Office of Admissions and Records at the time of the application.
 - 2. The determination of Resident eligibility preference for admission into Selective Admissions Programs is based upon the student's residence classification as of the first day of March preceding the Fall Semester for which admission into the program is sought.
 - 3. The assessment of tuition and fees for a given session is based upon the student's residence classification as of the first day of classes for that session. Each student classified as a Nonresident is required to pay an appropriate tuition fee in addition to the Resident tuition fee.
 - 4. The initial classification of a student for purposes of registration in Parkland College shall continue in effect for subsequent academic sessions unless and until such classification is officially changed.
- B. An emancipated (self-supporting) student shall be classified as a Resident if:
 - 1. He/she has been domiciled in Community College District 505 for at least 30 days immediately preceding the dates established in paragraphs 1b, above, and has provided his/her full support during that time through income earned in the District; or
 - 2. He/she is a former member of the United States Armed Forces and has established his/her first domicile of choice, subsequent to a separation from the armed forces, in Community College District 505; or

3. He/she has established his/her domicile in Community College District 505, submits clear and convincing evidence that his/her physical presence within the District is for a predominant purpose other than attending an institution of higher education.
 4. An unemancipated, dependent student (or dependent spouse) shall qualify for Resident classification without meeting the 30 days domicile requirements if his/her presence in the District results from the establishment by his/her spouse, parents, or guardian of their permanent domicile in the District provided that such domicile was established for predominant reasons other than to allow the student to gain Resident classification. In the case of divorce or separation of the parents, the student shall qualify if either parent meets the requirements.
- C. The following definitions shall be controlling in connection with the interpretation and application of these regulations.
1. DOMICILE: a person's true, fixed, and permanent home (as distinguished from a temporary place of abode), where he/she remains and intends to remain when not called elsewhere for labor, studies, or other special or temporary purposes and to which he/she returns in seasons of repose. A person at any one time has but one domicile, and a domicile of choice cannot be gained until such time as the person becomes emancipated and actually establishes his/her own domicile.
 - a. A minor who is by law regarded as emancipated may acquire a domicile separate from that of his/her parents, but generally, unless emancipated, a minor has the same domicile or residence as his/her parents.
 - b. A domicile once established, whether by origin or choice, continues until a new domicile is acquired. The four essential elements of change are: (a) physical abandonment of the previous domicile; (b) intention not to return; (c) physical presence in the new domicile; and (d) intent to make that his/her new domicile.
 - c. Physical presence in the District for the predominant purpose of attending an institution of higher education shall not constitute nor necessarily preclude the acquisition of a domicile in the District, nor shall absence from the District for the predominant purpose of attending an institution of higher education deprive a person of a domicile previously established. In the absence of clear and convincing evidence to the contrary, a full-time student is presumed not to have changed his/her domicile.
 - d. Length of continuous presence within the District; ownership of property in the District; employment in the District; registration as a voter in the District; membership in civic, community, and other organizations in the District and elsewhere; location of bank accounts and insurance; admission to a licensed practicing profession in the District; and all present and future connections or contact outside the District are some of the factors which may be considered in determining domicile. None of them, standing alone, shall be sufficient evidence of domicile to warrant Resident classification for tuition purposes, and the absence of any one shall not be sufficient to disqualify a student from such status.
 - e. Evidence of payment by Illinois residents of property taxes supporting the operating fund of the College within the current boundaries of District 505 for the calendar year of the enrollment.
 2. EMANCIPATION (SELF-SUPPORTING): the relinquishment by parents, legal guardian, or other person in authority of such control and authority over an individual and the renunciation of all parental or guardianship responsibilities, including financial support. A person who is married or who has attained the legal age of majority, but is still dependent upon his/her parents or other person in authority for financial support, shall not be considered emancipated for the purpose of these regulations. A person claiming emancipation may be requested to present satisfactory evidence that his/her parents or guardian have not: contributed to his/her support; claimed him/her as a dependent family member for life, health, or accident insurance coverage; nor claimed him/her as a dependent for federal or state income tax purposes during the period for which emancipation is claimed.
- D. Interpretive Guidelines
1. MILITARY PERSONNEL (AND DEPENDENTS) WHO ARE CITIZENS OF THE UNITED STATES
 - a. Persons who are actively serving in one of the Armed Forces of the United States and who are stationed and present in the District in connection with that service, and the spouses and children of such persons, shall be permitted to attend the College upon paying the same tuition and other fees assessed against Resident students as long as such first-mentioned persons remain so stationed and present in this District

- b. An adult alien who holds valid immigration papers and is in the District under an immigrant visa may be considered for admission to the College and may qualify as a Resident on the same terms and conditions as though he/she were a United States citizen.

- c. In any instance where an individual citizen of a country other than the United States is admitted to the College, it is with the express understanding that the individual is fully responsible for compliance with the terms of his/her visa and that the College assumes no responsibilities in that connection.

- d. For academic programs with limited space, all qualified applicants who are citizens or permanent residents (resident aliens) of the United States will be admitted prior to admitting a citizen of another country.

- e. Citizens of countries other than the United States must present evidence that they are qualified for admission of the same basis as required for applicants who are United States citizens. In addition, they may be required to demonstrate an acceptable proficiency in the use of the English language.

- f. Citizens of other countries other than the United States who are eligible for admission to Parkland College, in accordance with the limitations of their authority to remain in the United States, will be assessed tuition and fees at the rate appropriate for students who are Non-Immigrant Aliens.

- g. Citizens of countries other than the United States must be able to finance all educational costs (tuition, textbooks, etc.) since no financial assistance will be provided through the Financial Aid Program of Parkland College.

- h. One or two students participating in the Congress Bundestag Youth Exchange Program may be granted resident tuition and fees annually upon the approval of the Vice President for Academic Services.

- i. Notwithstanding any other provision of law to the contrary, individuals meeting all of the following conditions shall be assessed at the same rate for tuition and fees assessed against resident students:

(2) The individual graduated from a public or private high school within Community College District 505, or received the equivalent of a high school diploma in the State of Illinois.

(3) The individual attended school in the State of Illinois for at least three years as of the date the individual either graduated from a high school within Community College District 505 or received the equivalent of a high school diploma.

(4) In the case of an individual who is not a citizen or a permanent resident of the United States, the individual provides Parkland College with an affidavit stating that the individual will file an application to

become a permanent resident of the United States at the earliest opportunity the individual is eligible to do so.

4. TEMPORARY TRANSFER OF PARENTS OR GUARDIAN

- a. The dependent children of persons who have been domiciled in the District for at least 30 days immediately prior to a temporary transfer by their employer to some location outside the District shall be eligible for Resident classification provided said children enroll in the College within two years from the time of such transfer, and provided the persons have maintained their domicile in the District by means of a continuous voting record in the District, filing state income tax returns during their absence, and/or other appropriate actions.

5. SPECIAL PROGRAMS

Parkland College may enter into cooperative agreements with other Illinois Colleges and universities to establish special programs in which students will be assessed at the same rate for tuition and fees assessed against resident students. Such agreements must be formally recognized by the cooperating institutions.

6. District business enterprises may seek training for employees, at the rate for tuition and fees assessed against resident students, through agreement initiated by the employer. This agreement would be made at the discretion of Parkland College's Vice President for Academic Services.

7. JOINT RESIDENCY AGREEMENTS

In accordance with joint agreements between and among Danville Area Community College, Heartland Community College, Kankakee Community College, Lake Land College, and Parkland College, residents of consolidated high schools within each of the community College districts will be permitted to attend Parkland College upon paying the same tuition as assessed against resident students.

8. STUDY ABROAD PROGRAM TUITION

Students enrolled full-time in a Parkland College Study Abroad Program, approved by the President and Vice President for Academic Services, shall be assessed the equivalent of one credit hour of tuition and fees. In-district students shall be assessed the in-district rate; out-of-district students shall be assessed the out-of-district rate.

9. TUITION FOR SPECIAL PARTNERSHIP PROGRAMS

Students enrolled in a Parkland College program, which has been established in partnership with a business or a corporation and spans a service area outside District 505, will be assessed a special tuition rate determined by the administration and approved by the Board of Trustees. Such special tuition rates shall be determined on a program-by-program basis.

E. RESPONSIBILITY FOR TUITION CLASSIFICATION

1. Admissions and Records staff shall determine the tuition classification of each student at the time the student enters or re-enters the College.
2. Any change of tuition classification for students currently enrolled shall be determined by the Registrar or his/her designee.
3. Persons responsible for making tuition classification determinations are authorized to require such certificates, affidavits, documents, or other evidence as they deem necessary. In all cases, the burden of proof shall be upon the student making a claim to Resident student status.

F. CHANGES FROM NONRESIDENT TO RESIDENT STATUS

1. It is the responsibility of the student to apply to the Registrar or his/her designee for reclassification to Resident status if the student believes that changes in facts justify such a reclassification; the College will not assume responsibility for initiating such an inquiry independently.
2. The student may submit such an application in writing on a form approved by the Registrar at any time after the appropriate domiciliary requirements have been met, but no later than 30 days after the day on which classes begin for the session for which reclassification is requested.

G. CHANGES FROM RESIDENT TO NONRESIDENT STATUS

1. If a student is classified as a Resident, either the student or the College may initiate a reclassification inquiry, based on changes in facts which would justify such an inquiry.
2. An unemancipated Resident student whose parents or legal guardian leave the District and establish their domicile outside the District shall be reclassified to Nonresident status, effective with the beginning of the next academic session following said change.

H. PENALTIES

1. A student who provides false information or refuses or conceals information for the purpose of achieving Resident status, or who fails to notify the Registrar of a change of facts which might effect reclassification from Resident to Nonresident status, shall be required to pay retroactively any tuition fees which would normally have been charged and shall be subject to appropriate disciplinary action, including, but not necessarily limited to, dismissal from the College.

I. FINAL APPEAL OF RECLASSIFICATION DECISION

1. The classification or reclassification of any student for tuition purposes may, upon the written request of the student, be appealed to the Director of Enrollment Services. The written appeal must be filed within 30 days after the student is notified of the original decision, and shall include reasons for the appeal and a complete statement of the facts upon which the appeal is based, together with supporting affidavits or other documentary evidence. Failure to file such an appeal within the specified time limit shall constitute a waiver to all claims of reconsideration for that academic session.
2. Consistent with the general intent and purpose of these regulations, the Director of Enrollment Services may uphold or reverse the decision of the classifying official. The decision of the Director of Enrollment Services in all cases shall be final and binding upon the College and the student.

POLICY 8.22 TUITION INSTALLMENT PAYMENT

Students who have no previous semester balance and have no previous default history at Parkland may pay their tuition on an installment basis for Fall and Spring semesters only. Students must register for all full-term and less than full-term classes prior to the beginning of the semester to be eligible for the installment plan.

Approved: May 15, 1991

Procedure

Parkland College will offer students the option of retaining registered classes by making a down payment of as little as 0% if the Deferred Payment (FACTs) is selected early enough. The required down payment increases as the term approaches to as high as 60%. The Plan ceases to be a payment option after the term is in progress for a period of time. Once the Plan is no longer an option, full payment is required to hold classes for that term. These dates are published up to one full academic year in advance on the Parkland College web site, course catalogs, Deferred Payment Plan (FACTs) brochures, and mailed billings

In order to exercise this Plan option, the student must sign up for the Plan on the Parkland College website. The step-by-step instructions can be found on-line as well as in FACTs brochures readily available on campus year round.

If the student fails to submit the minimum down payment by the deadline, his or her classes will be dropped according to the published schedule for cancellation due to non-payment.

Effective: January 1997
Revised: February 21, 2007

FACTs Deferred Payment Plan:

Students may sign up with FACTs to budget tuition and fees for up to five months per semester, interest-free. Payments are automatically deducted from checking, savings, or credit card. There is a \$25 per semester nonrefundable fee to use the FACTs service. All student accounts will continue to accrue 1% per month interest on unpaid, billed charges until the account has been paid or turned over to a collection agency. If a student has outstanding institutional charges after his/her financial aid has been processed for payment, the Business Office will encumber the student's aid account up to the full amount due (should there be sufficient student aid available) prior to disbursing any refunds to the student. Monthly bills will be sent by the Business Office to all students with a current balance due. After due diligence has been exercised by the Business Office to collect past due accounts, these accounts will be turned over to an outside collection agency which could result in additional collection charges for the student. For more information, see www.parkland.edu/facts or call the Business Office at 217.351.2233.

If a third party reimburses a student, the student is responsible for paying tuition and fees; refunds will be returned to the student; the third party is responsible for determining the guidelines for reimbursement the student; and Parkland's refund policy applies to all student's regardless of payment plan.

Procedure

In accordance with Board Policy 8.33 and the Illinois *Student Optional Disclosure of Private Mental Health Act* (the "Act, P.A. 99-278), a student's mental health information is considered private in nature and will not be released to a third party without that student's prior written consent, unless otherwise provided by other state or federal laws.

In the event that a qualified examiner, who is employed by the College in that capacity, determines that a student poses a clear danger to the student or others, the qualified examiner will immediately contact the Dean of Students or designee to determine if that student has completed and provided the College with a Student Optional Disclosure of Private Mental Health Form designating a person to whom the College is authorized to disclose this information.

8.32.03 Disclosure of Mental Health Information

If the student has filed a Student Optional Disclosure of Private Mental Health Form, the qualified examiner shall, as soon as practicable but no more than 24 hours after making the determination described above, attempt to contact and notify the designated person that the qualified examiner has made a determination that the student poses a clear, imminent danger to themselves, or others. The College shall document any and all attempts of the qualified examiner to reach the designated person.

8.32.04 Availability of Qualified Examiners

Although Parkland College employs qualified examiners within the meaning of this Act, there may be times when these qualified examiners are not available on campus, nor is the College required to have such individuals on campus. Therefore, Parkland College cannot assure a student that it will be able to disclose the student's condition to the person that the student has designated to receive confidential mental health information about him or her in the circumstances provided for in the Act.

8.32.05 Review of Employment of Qualified Examiners

The Vice President for Student Services shall periodically review whether the College employs a "qualified examiner" who is in a position to make the determinations provided for in the Act.

8.32.06 Health or Safety Emergency

Finally, consistent with the *Family Educational Rights and Privacy Act*, 20 USC, section 1232g and its regulations at 34 CFR, section 99.36 ("FERPA"), the College may, in situations where a health or safety emergency exists, disclose confidential personally identifiable information about a student without his or her consent, to any individuals the College reasonably determines to be in need of that information for public health and safety reasons, subject to the conditions and limitations set out in FERPA.

PROCEDURES FOR OTHER STUDENT ISSUES

STUDENT RIGHTS AND RESPONSIBILITIES

Preamble

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment, and to engage in a sustained and independent search for truth. Institutional procedures for achieving these purposes may vary from campus to campus, but the minimal standards of academic freedom of students outlined below are essential to any community of scholars.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility.

The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of the academic community. Each College and university has a duty to develop policies and procedures which provide and safeguard this freedom. Such policies and procedures should be developed at each institution within the framework of general standards, and with the broadest possible participation of the members of the academic community. The purpose of this statement is to enumerate the essential provisions for students' freedom to learn.

I. Freedom of Access to Higher Education

Parkland College is an open-door institution which, within the limits of its facilities and subject to the prevailing admissions' policy, is open to all students. The facilities and services of the College are open to all of its enrolled students.

II. In the Classroom

Faculty in the classroom and in conference shall encourage free discussion, inquiry, and expression. Student performance is evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

A. Protection of Freedom of Expression

Students are free to take reasoned exception to the data or views offered in any course of study, and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

B. Protection Against Improper Academic Evaluation

Students are protected through orderly procedures against prejudice or capricious academic evaluation. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled.

C. Protection Against Improper Disclosure

Information about student views, beliefs, and political associations which faculty acquire in the course of their work as faculty, advisors, and counselors is considered confidential. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student.

III. Student Records

Parkland has a written policy as to the information which should be part of a student's permanent educational record, and as to the conditions of its disclosure. To minimize the risk of improper disclosure, academic and disciplinary records are separate, and the conditions of access to each are set forth in an explicit policy statement. No records are kept which reflect the political activities or beliefs of the students. Provisions are also made for periodic routine destruction of non-current disciplinary records. Administrative staff and faculty members shall respect confidential information about students which they acquire in the course of their work.

IV. Student Affairs

The following standards will be maintained:

A. Freedom of Association

Students are free to organize and join associations to promote their common interests.

1. The membership, policies, and actions of a student organization are determined by vote of only those persons who are bona fide Parkland students.
2. Affiliation with an extramural organization does not of itself disqualify a student organization from institutional recognition.
3. Each organization is free to choose its own advisor. Campus advisors may advise organizations in the exercise of responsibility, but they do not have the authority to control the policy of such organization.
4. Student organizations may be required to submit a statement of purpose, criteria for membership, rules

of procedures, and a current list of officers. They are not required to submit a membership list as a condition of institutional recognition.

5. Campus organizations including those affiliated with an extramural organization are open to all students without respect to race, religion, disability, gender, gender expression, color, age, marital status, veteran status, Vietnam veteran era, ancestry, or national origin.

B. Freedom of Inquiry and Expression

1. Students and student organizations are free to examine and to discuss all questions of interest to them, and to express opinions publicly and privately. They are free to support causes by orderly means which do not disrupt the regular and essential operation of the institution. At the same time, it should be made clear to the academic and larger community that in their public expressions or demonstrations, students or student organizations speak only for themselves.
2. Students are allowed to invite and to hear any person of their choosing. The routine procedures required by Parkland before a guest speaker is invited to appear on campus are designed only to insure that there is orderly scheduling of facilities and adequate preparation for the event, and that the occasion is conducted in a manner appropriate to an academic community. It should be emphasized to the academic and larger community that sponsorship of guest speakers does not necessarily imply approval or endorsement of the views expressed, either by the sponsoring group or the institution.

C. Student Participation in Institutional Government

As constituents of the academic community, students are free, individually and collectively, to express their views on issues of institutional policy, and on matters of general interest to the student body. The student body has clearly defined means to participate in the formulation and application of institutional policy affecting academic and student affairs. The role of the Student Government and both its general and specific responsibilities are explicitly stated in the Parkland College Student Association Constitution.

D. Student Publications

Student publications and the student press are valuable aids in establishing and maintaining an atmosphere of free and responsible discussion, and of intellectual exploration on the campus. They are a means of bringing student concerns to the attention of the faculty and the institutional authorities, and of formulating student opinion on various issues on the campus and in the world at large.

The development and interpretation of student publication policies are the responsibility of a publications Board composed of an equal number of students and faculty.

V. Off-Campus Freedom of Students

A. Exercise of Rights of Citizenship

Parkland students are both citizens and members of the academic community. As citizens, students enjoy the same freedom of speech, peaceful assembly, and right of petition that other citizens enjoy, and as members of the academic community, they are subject to the obligations which accrue to them by virtue of this membership. Institutional powers are not employed to inhibit such intellectual and personal development of students as is often promoted by their exercise of the rights of citizenship both on and off campus.

B. Institutional Authority and Civil Penalties

Activities of students may upon occasion result in violation of law. Students who violate the law may incur penalties prescribed by civil authorities, but institutional authority should never be used merely to duplicate the function of general laws. Only where the institution's interests as an academic community are distinct and clearly involved should the special authority of the institution be asserted. The student who incidentally violates institutional regulations in the course of his/her off-campus activity, such as those relating to class attendance, will be subject to no greater penalty than would normally be imposed. Institutional action is independent of community pressure.

POLICY 9.02 RETIREMENT INCENTIVE

The retirement program for the College employees is administered through the Illinois State Universities Retirement System. All continuous employees are required to be members of the System.

An employee requesting participation in Parkland College's retirement incentive plan must do so in writing to their manager in accordance with the deadline date referenced in the appropriate Collective Bargaining Agreement. In the event a retiree dies during the years that he/she is receiving retirement Incentive payments, the balance will be paid to the employee's named beneficiary.

A special provision of the plan is that the retiree may be requested by the President to render a service to the College if a specific situation arises wherein the expertise and assistance of the retiree is desired.

POLICY 9.03 TUITION WAIVER FOR SUPERVISORS OF PARKLAND OJT STUDENTS

- A. On-the-job supervisors of Parkland students are entitled to enroll free in a credit or noncredit course at Parkland if the supervisors meet the following criteria:
1. The supervising teacher must act as an official representative of Parkland College.
 2. The Parkland student being supervised must be enrolled in a Parkland course which requires on-the-job placement.
 3. The tuition waiver recipient must directly supervise Parkland students for a minimum of 150 clock hours during a single term. Supervising multiple students does not generate multiple hours toward the 150 clock hours (i.e., supervising more than one student during any particular hour counts as only one hour toward the 150 hours).
 4. If individual supervisors in a particular agency do not normally meet the 150-hour criterion, but collectively they supervise Parkland students for at least 150 hours, then a tuition waiver may be granted to the agency. One tuition waiver will be granted for each 150 hours for which the agency's personnel supervise Parkland students. In this case, the individual recipients of the tuition waiver will be determined by the Department Chair of the Parkland program in consultation with the head of the agency involved. For a supervisor to receive a tuition waiver under this portion of the plan, he or she must have supervised Parkland students for a minimum of 45 hours during the semester for which the waiver is given.
- B. No more than one tuition-free course shall be granted to any one person per semester of OJT supervision.
- C. The course for which tuition-free enrollment is granted may not exceed five semester hours. Only one tuition-free course may be taken for each tuition waiver granted (i.e., the five semester hour free waiver cannot be allocated to two or more courses such as a two-hour and a three-hour course.) Once a tuition-free course is taken, ranging

from one to five hours or equivalent, then the tuition waiver is considered expended.

- D. Special course fees are not waived under this plan.
- E. Revenue sharing workshops do not qualify for tuition waiver under this plan.
- F. The tuition waiver is not transferable to any other person or agency.
- G. The tuition waiver must be used within 12 months after the termination of the semester in which it was granted. The recipient of the tuition waiver shall be informed in writing of the expiration date of the waiver.
- H. The tuition waivers shall not be on a space available basis.

Approved: July 16, 1986
Revised: June 7, 1989
Revised: January 20, 1993
Revised: February 23, 2011

Procedure

The supervisors who are to receive the tuition waiver shall be designated and informed in writing by the Department Chair of the program in which the student to be supervised is enrolled.

A record of tuition waivers shall be maintained by Parkland Business Office. The record shall include the name of the recipient and the date of expiration of the waiver. It will be the responsibility of the Department Chair to assure that the waiver recipients' names are entered into the record.

If special circumstances warrant, exceptions may be made to this policy by the Department Chair in consultation with the Vice President for Academic Services.

POLICY 9.04 ADMINISTRATOR BENEFITS

Administrator benefits can be found in Appendix N.

Approved: January 20, 1993
Revised: February 18, 2015

POLICY 9.05 ADMINISTRATIVE LEAVE

Staff members employed in positions included on the administrative salary schedule may be granted a leave for professional development. The following guidelines shall apply:

- A. Proposals for administrative leave will be considered on the following factors:
 - 1. Merits of the proposal
 - 2. Advantages to the College in terms of subsequent performance of administrative duties
 - 3. Provision for the coverage of administrative duties while on leave
 - 4. Length of service at Parkland
 - 5. Staffing or budgetary considerations
- B. While on leave, the administrator is not permitted any outside employment or professional practice for which compensation is received. This policy, however, does not preclude the administrator from receiving a scholarship, fellowship, or grant which would be in keeping with the intent of the leave. Acceptance of such assistance would require prior approval of the President.
- C. An administrator must return to the College on a full-time basis for at least one year after a leave.

Approved: September 19, 1984
Revised: January 20, 1993

Procedure

Staff members employed in positions included on the administrative salary schedule may be granted a leave for professional development. The following guidelines shall apply:

- A. To be eligible, an administrator must have continuous, full-time employment of at least seven years in an administrative capacity at Parkland. Time spent on leave without pay will not be counted when considering the seven years of employment.
- B. An administrator may apply for a leave at full pay for a period of one month to no more than four consecutive months.
- C. Proposals for administrative leave must be submitted in writing to the President by January 15 of the prior fiscal year in which the leave is requested.
- D. Upon return from the leave, the administrator is required to submit a written report to the President outlining the activities and accomplishments of the leave.

POLICY 9.06 WORKER'S COMPENSATION

Worker's Compensation is a system of benefits provided by law to most workers who have job-related injuries or diseases. These benefits are paid regardless of fault, and the amount of benefit is limited by law.

Parkland College will provide the benefit as prescribed by the State of Illinois and the Industrial Relations Commission.

All workplace injuries or illnesses must be reported to the Office of Human Resources immediately.

Approved: 1986
Revised: June 7, 1989
Revised: June 18, 1997

Procedure

Parkland College reserves all rights granted employers under Worker's Compensation laws and all related legislation.

Employees unable to work, who qualify for temporary total disability under Worker's Compensation guidelines, will continue to receive 100% of full pay from Parkland College until all accumulated sick days, vacation days, personal leave days and release time have been used at a rate of 1/3 day per each full day absent. At that time, if the eligible employee is still unable to return work, Worker's Compensation payments will continue to be paid by the insurance carrier at the legislated payment rate.

All questions should be referred to the Office of Human Resources.

POLICY 9.07 SABBATICAL LEAVE

Teaching and learning are the primary missions at Parkland College. Parkland expects to become a stronger, more effective teaching and learning institution as a result of staff development via Sabbatical Leave: the goals of Sabbatical Leave should be professional growth, enrichment, reevaluation, and renewal and reaffirmation of one's commitment to higher education.

Sabbatical Leaves are granted by the Board of Trustees on the recommendation of the President of the College, and subject to available funds.

A. Purposes and Intent

1. Sabbatical Leave is offered as a significant component of professional development for full-time, tenured faculty. The sabbatical is a means of acquiring additional knowledge and competence in fields related to one's profession, or as a time to conduct research, publish, or develop a body of creative work.
2. Sabbatical Leave is awarded to faculty members to provide the required time for focused personal and professional growth and renewal. The candidate should see the sabbatical as a period of professional rejuvenation.

3. Sabbatical Leave is differentiated as separate and distinct from college projects and other leaves of absence. In all instances, the guiding principle behind Sabbatical Leave will be the value of such leave for the person receiving it and the appropriateness of the proposed activities.

B. Requirements

1. Eligibility

- a. Full-time faculty, including counselors and librarians, who have achieved tenure status, are eligible for a sabbatical of one semester after six full-time contractual academic years of service to the College. Full-time faculty, including counselors and librarians, who have achieved tenure status are eligible for a sabbatical on one contractual year at full pay after twelve full-time contractual years of continuous service to the College if no previous sabbatical has been taken in those twelve years. Such applications are considered by the Sabbatical Leave Committee on the same basis as all other proposals. If a full-time faculty member has been granted a sabbatical at full pay for one contractual year, that individual is eligible for another one contractual year sabbatical after six years of additional full-time contractual academic service following the completion of the previous sabbatical. An individual is eligible for another one semester sabbatical after three years of additional full-time contractual academic service following the completion of the previous sabbatical.
- b. The period during which sabbatical leave is granted does not apply toward a subsequent sabbatical.
- c. Eligible employees may apply for a Sabbatical either as an individual or as part of a "team" (joint proposal).
- d. Sabbatical Leave normally will not be granted to a faculty member whose retirement request has been accepted by the Board of Trustees.
- e. Members of the Sabbatical Leave Committee are not eligible to submit a sabbatical leave proposal during their term of service on the committee.

2. Length/Workload

- a. Sabbaticals may be of varied length: they may extend from part of a semester - day(s), week(s), month(s) - up to one full academic year dependent on the scope of the activities involved in the sabbatical and the estimated amount of time necessary to complete those activities.
- b. In addition, the recipient's workload may also vary. Based upon eligibility, a recipient of a sabbatical may elect to structure a leave in a variety of ways. Among them are:
 - (1) full-year, no load
 - (2) full-year, reduced load
 - (3) full-semester, no load
 - (4) full-semester, reduced load
 - (5) partial semester, no load
 - (6) partial semester, reduced load

3. Employment status

- a. During sabbaticals employees receive all rights, privileges and benefits including Professional Development funds, normally accorded to them while performing full duties on campus. A modest additional allotment may be available by petition to the Vice President for Academic Services. Sabbatical Leave time is credited as regular employed time with regard to retirement provisions, seniority credit in any category recognized by the College, and all fringe benefits applicable. The recipient must be reinstated in a position equal to or better than the position held when the sabbatical was granted.
- b. Personal responsibilities such as housing, transportation, and visitation will remain with the faculty person.
- c. The employee may not seek employment outside of any proposed in his/her sabbatical without consent of the President.

4. Agreement for Service after Sabbatical

- a. Those awarded a sabbatical that is equivalent to a semester's normal contract load, or more, must agree

in writing to return to service at Parkland College for a one-year term immediately after completion of the leave. If such an agreement is not fulfilled, the recipient is expected to repay Parkland College all funds received for the sabbatical according to a procedure determined by the College. Inability to fulfill this commitment of one year's service to the College upon completion of a sabbatical because of health reasons exempts the recipient from this obligation.

- b. Upon completion of the sabbatical the individual must submit a written final report and give an oral presentation to the PCA and the Board of Trustees. Each should be an evaluation of the sabbatical and both the report and the presentation should be completed within the semester following the sabbatical. A copy of the approved sabbatical proposal and final report are to be provided to the President, Vice President for Academic Services, and the Library Director, within the semester following the sabbatical. The documents will be made available through the Library.

Approved: September 19, 1984
Revised: June 7, 1989
Revised: January 20, 1993
Revised: July 17, 1996
Revised: February 21, 2001
Revised: February 17, 2010
Revised: February 20, 2013

Procedure

A. Application Steps

1. Present initial draft to Department Chair or student service director for consultation and advice. Chair/Director signature only verifies that proposal is distinct from project criteria.
2. Forward signed initial proposal to Sabbatical Leave Committee.
3. Applicant(s) make oral presentation to Sabbatical Leave Committee - receive suggested revisions.
4. Submit final draft to Department Chair or student services director for signature.
5. Forward signed final draft to Sabbatical Leave Committee.

B. Proposal Guidelines

Sabbatical Leave should be granted on the basis of professional need, rather than as the result of a proposal that must directly benefit the institution.

The written statement submitted by the applicant(s) should:

1. Explain how the proposed sabbatical leave will contribute to professional growth and renewal.
2. Explain how the proposed sabbatical leave activities will help achieve the goals of the sabbatical.
3. Justify that the proposed length/workload of the sabbatical leave is warranted by the proposed activities demonstrate the eligibility of the applicant(s) by indicating:
 - a. length of full-time service at Parkland
 - b. the date of the last sabbatical leave

C. Selection of the Sabbatical Leave Committee

The Sabbatical Leave Committee membership will consist of at least five full-time faculty members selected at-large from academic departments with no two members from the same department. Members who have been granted sabbaticals are preferred. Selection of the committee will occur after receipt of statements of intent to file. Departments or non-teaching faculty constituents from which proposals are received are requested to designate a committee member from their area. (The department may elect not to fill the position.)

The Chair of the Sabbatical Leave Committee will be selected by a majority of sitting members of the Sabbatical Leave Committee prior to dissolution. To be eligible, the Chair must be a tenured faculty member and agree to serve an additional term. In the event that the designated Chair is unable to serve, the President of PCA will select the position with consent of the Senate.

D. Calendar of Sabbatical Leave Committee Proceedings

1. Prior to October 1 of a given year, the Sabbatical Leave Chair will send out a call for sabbatical proposals and set forth a timeline for:
 - a. Statement of intent to file a sabbatical (to allow timely committee selection)
 - b. Initial Sabbatical Leave Proposals
 - c. Oral Presentations of Sabbatical Leave Applicants
 - d. Final Sabbatical Leave Proposals
 - e. Discussion, Review, and Recommendations for Sabbatical Leave
 - f. Report of Sabbatical Leave Recommendations and Rankings to the Parkland College President and the Vice President for Academic Services
 - g. Written Reports and Oral Presentations of preceding semester/term
2. Sabbatical Leave recipients

Full-time faculty eligible to apply for a sabbatical leave may file a sabbatical leave proposal with the Chair of the Sabbatical Leave Committee on or before the date Initial Sabbatical Leave Proposals are due. Members of the Sabbatical Leave Committee are not eligible to submit a sabbatical leave proposal during their term of service on this committee.

E. Procedures for Determining Sabbatical Leaves

In order to conduct the activities of the Sabbatical Leave Committee, a majority of the membership of this committee is necessary to conduct its procedures. Further, all deliberations relating to the consideration and evaluation of each sabbatical leave proposal are confidential.

1. Initial Proposals. The Chair of the Sabbatical Leave Committee will distribute a copy of each of the Initial Sabbatical Leave Proposals to each of the members of the Sabbatical Leave Committee at least four days prior to the first day of Oral Presentations of the Sabbatical Leave Applicants. Each committee member will individually study and review each sabbatical leave proposal before the start of Oral Presentations.
2. Oral Presentations. The Oral Presentation sessions are an opportunity for the sabbatical leave applicants to present their proposals to the members of the Sabbatical Leave Committee.
3. Committee Assessment. Upon conclusion of the oral presentations, the members of the Sabbatical Leave Committee will discuss each of the sabbatical leave proposals and determine those proposals that are acceptable and require no further modification. In addition, the committee members will identify those proposals which require revision. The Chair of the Sabbatical Leave Committee will return to the respective candidates the proposals that require revision and strengthening with an explanation as to those aspects considered lacking.
4. Revisions. Any applicant may revise and resubmit a proposal as a Final Sabbatical Leave Proposal. A revised sabbatical leave proposal is to be filed with the Chair of the Sabbatical Leave Committee on or before the date Final Sabbatical Leave Proposals are due.

The Chair of the Sabbatical Leave Committee will distribute a copy of each of the revised sabbatical leave proposals to each of the members of the Sabbatical Leave Committee at least four days prior to the date of the Discussion, Review, and Recommendations for Sabbatical Leave Meeting.

F. Recommendations

Each of the members of the Sabbatical Leave Committee is to study and review each revised proposal, as well as reexamine the sabbatical leave proposals that were initially considered acceptable. Then, in order to apply a standard measure to each proposal, each member of the Sabbatical Leave Committee is to individually evaluate each of these sabbatical leave proposals by scoring the Evaluation Sheet: Sabbatical Leave Proposals. A separate evaluation sheet is to be used for each proposal to serve as a basis for identifying, organizing, and evaluating the merits of each sabbatical leave proposal.

Each member of the Sabbatical Leave Committee should complete scoring the Evaluation Sheet: Sabbatical Leave Proposals in advance of the Discussion, Review, and Recommendations for Sabbatical Leave Meeting.

The procedural sequence in the Discussion, Review, and Recommendations for Sabbatical Leave Meeting will include the following:

1. A discussion of the sabbatical leave proposals.
2. Casting printed ballots to Recommend or Not Recommend among all of the sabbatical leave proposals.
3. Counting the Recommend - Not Recommend ballots. A proposal must receive a simple majority of Recommend of the ballots cast to be recommended for a sabbatical leave.
4. After the results of the Recommend - Not Recommend balloting have been announced to the members of the Sabbatical Leave Committee, the casting of printed ballots to rank-order the Recommend proposals will be conducted and tallied.
5. Then, the sum of ranks of each Recommend proposal will be announced to the committee membership.

Note: In case there is a tie in one or more of the sum of ranks, the sabbatical leave candidate having the longer time in service at Parkland, or having the longer time in service at Parkland since a last sabbatical leave, will be given the higher ranking.

The Chair of the Sabbatical Leave Committee will prepare and submit a confidential report to the Parkland College President and Vice President for Academic Services prior to the end of the Fall Semester in which the evaluation of the sabbatical leave proposals was conducted. This confidential report will include a list of the names of the full-time faculty Recommended for sabbatical leave in rank-order, as well as the individual sums of rank of their proposals. Attached to this report will be a copy of each of the recommended sabbatical leave proposals.

G. Notification to Sabbatical Leave Applicants

Sabbatical leaves are granted by the Board of Trustees on the recommendation of the President of the College, subject to available funds. As such, all sabbatical leave announcements will come from the office designated by the Board of Trustees.

The Vice President for Academic Services will notify those applicants which have been recommended for their sabbatical leave proposals.

Neither the Chair nor the members of the Sabbatical Leave Committee are to issue any statement regarding the committee's recommendations.

Since the sabbatical leave process cycles annually, a candidate not receiving sabbatical leave for a current time period is encouraged to apply for one in a future year.

H. Guidelines for Sabbatical Leave Proposal Criteria

The Sabbatical Leave Committee will make qualitative distinctions between sabbatical proposals. The guidelines utilized by the committee will include:

1. All evaluations reflect the proposal that has been submitted, not the candidate who has submitted the proposal.
2. Final recommendations reflect the consensus achieved by the committee, not any one member of the committee.
3. The Evaluation Sheet used in conjunction with these guidelines is to be completed by each member of the committee with the understanding that the Evaluation Sheet is to be used as a basis for discussion by the committee in subsequent stages. The Evaluation Sheet, in and of itself, should not be construed as determining which proposals are recommended to the administration for funding. Those proposals result from the discussion and the consensus reached by the committee.

I. Rationale

1. Purpose: To evaluate the value of the proposed activities as to the professional growth of the candidate.
2. Assumptions
 - a. A sabbatical is best understood as an opportunity for professional renewal and growth for the candidate submitting the proposal. The benefits that will accrue to either the institution or to students will be considered secondary to the benefits accrued to the candidate.
 - b. The more closely the sabbatical proposal reflects the professional life of the candidate, the more valuable the proposal will be assessed. That is, the sabbatical proposal should be central, rather than tangential, to the primary professional responsibilities of the candidate.
 - c. A sabbatical proposal that focuses on the content of the candidate's professional area will be assessed as more valuable than those activities which focus on the process and procedures of the candidate's professional area. That is, a sabbatical proposal that demonstrates how the proposed activities will increase the candidate's knowledge in her/his professional area will be assessed as more valuable than one that emphasizes how to use knowledge in the candidate's professional area. Note: A sabbatical proposal that demonstrates primarily institutional benefits is more properly understood as a project and is not considered appropriate for sabbatical leave.

J. Activities

1. Purpose: To evaluate the value of the proposed activities as to their appropriateness for the sabbatical itself.
2. Assumptions
 - a. The proposed activities should augment, deepen, and/or broaden the candidate's knowledge in her/his professional area.
 - b. The more clearly defined and described the proposed activities are, the higher they will be assessed.
 - c. The degree to which the proposed activities are commensurate with the overall goals of the sabbatical proposal, the higher the proposed activities will be assessed. The candidate must clearly explain how the proposed activities will achieve the overall goals of the sabbatical leave.

K. Justification

1. Purpose: To evaluate the specific goals of the sabbatical proposal.
2. Assumptions
 - a. The specific goals of the sabbatical proposal must contribute significantly to the candidate's professional growth and renewal.
 - b. The specific goals of the sabbatical proposal should reflect a realistic outlook. The specific goals must be achievable in and of themselves and within the time line established for the sabbatical.
 - c. The candidate must explain how the original spirit and impetus for the teaching, counseling, or library professional will be revitalized.

L. Evaluation Form (Sheet) For Sabbatical Leave Proposals

The Sabbatical Leave Committee will utilize the following criteria utilizing a scale of 0-10 (0=least, 10=most) when evaluating proposals.

1. Rationale
 - a. Contribution to professional growth
 - b. Central to professional responsibilities
 - c. Emphasis on acquiring additional knowledge, conducting research, publishing, or developing a body of creative work.

2. Activities
 - a. Clearly defined specific goal(s)
 - b. Clearly described proposed activities
 - c. Appropriate to overall goal(s)
3. Justification
4. Value of specific goal(s)
5. Achievability of specific goal(s)
6. Appropriateness of time line
7. Recapture spirit/impetus

M. Sabbatical Leave Proposal Format (Application)

1. The Sabbatical Leave Proposal Format (Application) will consist of:
 - a. Applicant's Name
 - b. Department
 - c. Description of current job responsibilities: (25-50 words)
 - d. Indication of the length of time that is necessary to accomplish the objectives
 - e. Semester, proposed date of intended leave, and any alternate plans
 - f. Length of time proposed
 - g. Dates of leave
 - h. Alternate date of leave
 - i. Proposal Summary (a brief description, 50-100 words)
 - j. Signature of Department Chair or Director (The signature indicates that this person has knowledge of the sabbatical leave applicant's proposal and acknowledges its general validity.)
 - k. Additional considerations
