

FIRE SERVICE TECHNOLOGY

Program Code: G.FST.AAS

Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The program is designed to allow entry level, volunteer, and professional firefighters to complete an Associate in Applied Science degree at Parkland College. Completion of this degree offers students the opportunity to a career pathway as an entry level firefighter or elevate their career potential at their current department.

The Fire Service Technology degree program allows students who are new to firefighting or are already a professional firefighter to earn an A.A.S. degree while they are completing courses at fire training institutes or within their departments with completion certificates from OSFM or IFSTA.

Program Notes

- Students intending to transfer to SIU, WIU, or another university should consult with their program advisor. Typically, substitutions are as follows: COM 103 for COM 120, MAT 108 for MAT 131.
- To be admitted to the program, students must have current placement out of MAT 060, ENG 098, and CCS 098.
- Some courses in the Required Program Elective courses may require placement scores higher than scores required for program admission.
- For progression and graduation, all students must adhere to the following:
 - Earn a grade of C (2.0) or higher in all program courses
 - Adhere to all ethical and professional behaviors as stated within the International Association of Fire Chiefs Fire-fighter Code of Ethics.
