

PARKLAND COLLEGE MEDICAL ASSISSTING PROGRAM ESSENTIAL QUALIFICATIONS

Students matriculating in and graduating from the Parkland College Medical Assisting Program must be able to meet the technical requirements of the academic program and must not pose a threat to the well-being of patients, other students, staff or themselves. As an incoming medical assisting student, you will need, at a minimum, the following types of skills and abilities and will need to maintain and demonstrate these abilities throughout the program.

Students are encouraged to discuss their specific academic needs with the course instructor/program director prior to beginning a course of study. Consultation between Accessibility Services, the student and the program director are encouraged in order to address concerns.

Essential	Behaviors Behaviors
Qualifications	
Cognitive	 Comprehend and process information. Perform basic mathematic equations. Notice when something is wrong or is likely to go wrong. Concentrate and not be distracted while performing a task. Make decisions and solve problems in stressful situations. Ability to problem solve. Combine several pieces of information and draw conclusions. Use reasoning to discover answers to problems. Analyze ideas and use logic to determine their strengths and weaknesses. Identify problems and review information. Develop, review, and apply solutions. Access needed information effectively and efficiently. Make sense of information by studying it. Integrate information through critical thinking based on information gathered on patients during clinical sessions, and during class sessions that are applied to the nursing process. Is responsible and accountable for their judgement and can justify actions based on skill and knowledge. Maintains competency in skills learned.
Affective	 Demonstrate awareness of the territorial boundaries of the person with whom communicating. Demonstrate awareness of how an individual's personal appearance affects anticipated responses. Analyze communications in providing appropriate responses/feedback. Demonstrate respect for individual diversity, incorporating awareness of one's own biases in areas including gender, race, religion, age and economic status. Has realistic expectations of self. Does not engage in "side-talk" with classmates while instructor is teaching. Respects the rights of others. Is a team worker; is cooperative; is assertive and not aggressive. Displays a patient care attitude seeks opportunities for continuous learning. Displays mannerly behavior. Practice with compassion and respect for inherent dignity, worth and uniqueness of every individual, unrestricted by considerations of social or economic status, personal attributes, or nature of health problems. Demonstrate a primary commitment to the patient and to the rights of the patient.

	CMA PAGE
	• Promote, advocate for, and strive to protect the health, safety, and rights of the patient.
