

Cost II 2024-25

Institution: Parkland College (147916)

User ID: P1479161

Overview

Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

Data Reporting Reminder:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting:

The following changes were made for the 2024-25 collection:

- This is a new survey component that will open in the Fall to allow Cost of Attendance (COA) data to be updated on College Navigator. The component will reopen in the Winter to collect selected information on financial aid awards to calculate an institutional Average Net Price (ANP), at which time COA data elements can be updated or corrected.
- Added questions to determine and make publicly available the information on whether postsecondary institutions ask for other financial information not on the FAFSA form and whether they collect asset data even when students qualify for having their assets exempted from the federal need analysis as this information required by the FAFSA Simplification Act.

Resources:

- To download the survey materials for this component: [Survey Materials](#)
- To access your prior year data submission for this component: [Reported Data](#)

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Cost I Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the [College Navigator](#) website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the [IPEDS Use the Data](#) and appear as aggregated statistics in various Department of Education reports. [College Navigator](#) is updated approximately three months after the data collection period closes and DFRs will be available through the [IPEDS Use the Data](#) and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Screen Entry	The food and housing for students living off-campus (with family) should be lower than food and housing for students living on campus and/or living off campus without family. Please correct your data or provide an explanation. (Error #11563)	Explanation	Yes	
Reason	We are a community college. Our institution uses a single value for housing and food for both in-district and out-of-district students within our Cost of Attendance (COA), regardless of whether they live with their parents or live away. This approach is taken because we do not offer institutionally owned or operated housing, and we assume all students, regardless of living arrangement, require the equivalent of three meals per day. Since the cost of living and food expenses are standardized for all students, our policy reflects these universal needs.			
Screen Entry	For students living Off-Campus (with family), any charges reported for food and housing are expected to be small, as it is assumed that students living at home with parents will be responsible for minimal food and housing costs. Please review your student financial aid budget(s), and if this amount is determined to be correct, please provide an explanation for the value reported. Otherwise, please revise your data. (Error #11564)	Explanation	Yes

(Error #7169) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	We are unaware of any systematic reason that 35% of students in this group were living with family as opposed to 29% in the prior year.			
Screen Entry	The number entered is outside the expected range of between 59 and 107 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes

Screen: Section 2 - Financial Aid Data: Part D - full-time, first-time degree/certificate-seeking undergraduate students Awarded Title IV Aid				
Screen Entry	The calculated average amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason	The \$30,001-48,000 income level group only has 14 students. With such a small number of students the average amount of aid could be highly influenced by one or two outliers who received an atypical amount of aid.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. (Error #7317) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	We would expect the amount of aid to increase each year as cost of living increases. For example, the maximum Pell grant amount increased from last year to this year.

(Error #7317) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	There are only 4 people in this group. With such a small number of students, the average amount will vary a lot from year to year.			
Screen Entry	The total amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 716,964 and 1,194,940 based on the prior year value. Please correct your data or explain. (Error #7332) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	There are more students this year than last year. We would also expect the amount of aid to increase each year as cost of living increases. For example, the maximum Pell grant amount increased from last year to this year.			
Perform Edits	The average amount of aid per grant/scholarship awardee (10,545) for 2022-23 in the "\$110,001 and more" income group is larger than expected based on the cost of attendance(0). Please review your data and make any necessary corrections or explain the discrepancy. (Error #7387) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	There are only 3 students in this group. Since this is such a small group and the amount for private loans is not limited, this average can vary a lot from year to year.

(Error #7317) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	Based on the new language in the instructions and per direction from IPEDS help desk, we modified Group 4 to only include in-district students (excluded out-of-state students because they pay higher tuition than in-district students). In previous years, we included both in-district and in-state students.
