# MEDICAL INSURANCE

International students are not required to have health insurance but we strongly urge you to carry insurance coverage in the event of a medical emergency. Costs for medical care, prescription drugs, and outpatient care in the US are extremely expensive.

Health insurance may be purchased in the student's home country or in the United States.

Prices may range from about \$45 a month for "budget" policies to about \$85 a month for "select" policies (for college-age students)

## IMPORTANT: Read the insurance brochures carefully.

Examine the "Exclusions" (the illnesses and injuries that the policy will not cover).

Compare the amounts you must pay for "deductibles", "co-insurance," office visits, hospital emergency room, and prescriptions.

Buying a better insurance plan can save many thousands of dollars in case of illness or injury.
