Information contained in this guide is subject to change and does not constitute a contract between any prospective Parkland College transfer student and the University of Illinois Urbana-Champaign. Refer to the official Transfer Handbook found at <https://admissions.illinois.edu/Apply/Transfer/handbook> for the most up-to-date requirements for transfer.

INTRODUCTION

The University of Illinois Urbana-Champaign welcomes students transferring from Parkland College and wishes to assist them in every way to make their transfer a more seamless process. The [Transfer Handbook](#) (click to view) is designed for use by advisors, faculty, and staff on both campuses in addition to prospective transfer students. The information provided is designed to facilitate the completion of the prerequisite and recommended Parkland College coursework for the many degrees of study offered at the University of Illinois.

It should also be noted that in some cases, certain courses or course sequences are ***required*** prerequisites which must be completed prior to transfer. Please be advised that this guide only lists course equivalencies to those of the University of Illinois Urbana-Champaign's general education requirements, which are offered through Parkland College. Failure to complete the listed prerequisite coursework in the [Transfer Handbook](#) (click to view) may result in a student's denial of admission to a particular degree of study. If there are any questions concerning curricular requirements for admission or graduation, contact information for each college and school is provided at the bottom of each page of the Transfer Handbook.

CAMPUS-WIDE GENERAL EDUCATION

The University of Illinois campus has campus-wide general education requirements for all colleges. The college degrees illustrated in this guide have many of these requirements built into the first two years of study; some provide for students to complete them after transfer. The information contained in this guide is effective from 8/1/2023 to 7/31/2024 and is subject to change. Questions concerning the application of a course toward general education requirements should be addressed to the contact listed on each college or curriculum page of the official Transfer Handbook.

¹¹ PHY-120 must be paired with PHY-129 to meet Parkland's General Education Core Curriculum-Physical Sciences Lab requirements for the AA degree.

QUANTITATIVE REASONING

Prerequisite and/or recommended courses listed under the majors in the following pages include those that will satisfy the University of Illinois' Quantitative Reasoning I General Education requirement. To complete the QR1 requirement you must take one course listed as QR1 from the list below. To complete the QR2 requirement you must take a second course from the list below - either a second QR1 or a QR2.

QUANTITATIVE REASONING I ¹³

CIS 122	Intro to Computer Programming	MAT 108	Intro to Applied Statistics
CSC 105	Application of Comp in Bus & Comm	MAT 128	Calculus and Analytic Geometry I
CSC 123	Computer Science II (C/C++)	MAT 129	Calculus and Analytic Geometry II
CSC 140	Computer Science I (Java)	MAT 141	Finite Mathematics
